INDEX

CUMULATIVE SUBJECT INDEX

The subject index has been compiled on the basis of abstract numbers rather than pagination.

AAMD Adaptive Behavior Scale: *see under* **Behavior**

Abnormalities (*see also* **Abnormalities, drug-induced; Abnormalities, multiple; specific syndromes**)
aplasia cutis congenita, 2235
Birth Defects Evaluation Center, Knoxville, Tennessee, 2743
cebocephaly; genetic heterogeneity
lacunar skull deformity and intelligence, 1202
limb-reduction defects and hormone pregnancy tests, 151
megalencephaly, 339
minor; newborn screening and 1-year follow-up; risk of behavior disorders, 1853
radiation of pregnant women, 3092

Abnormalities, drug-induced (*see also* **Abnormalities; Abnormalities, multiple**)
acetylsalicylic acid, 83
alcohol abuse during pregnancy, 1867
anticonvulsants, 114, 307, 364, 1897
anticonvulsants, cleft lip and cleft palate, 86
asplenia syndrome after fetal exposure to warfarin, 1943
fetal hydantoin syndrome, 72, 3106
fetal trimethadione syndrome, 1898
first-trimester exposure to progestagen/estrogen, 361, 2268
genital, in girls, from thalidomide, 111
hormones during pregnancy, 354
limb reduction anomalies in infants born to disulfiram-treated alcholic mothers, 2806
oral anticoagulants, 3113
D-penicillamine, 99
thalidomide and subsequent osteosarcoma, 930
VACTERL syndrome; phenytoin, 371
warfarin, 128, 153, 154

Abnormalities, multiple (*see also* **Abnormalities; Abnormalities, drug induced; Neural tube defects; specific syndromes**)
agenesis of corpus callosum, infantile spasms, spastic quadriplegia, microcephaly, and SMR in 3 siblings, 2240
aglossia-adactylia syndrome; inheritance pattern, 1183
asphyxiating thoracic dysplasia, 3123
associated with anencephaly and iniencephaly, 2256
associated with maternal factors, 2254
associated with monosomy 3p25, due to deletion of distal part of No. 3, 3072
associated with trisomy for long arm of chromosome No. 4, 2209
autosomal dominant midline cleft syndrome, 2242
Bloom's syndrome in 2 Dutch families, 2234
camptomelic syndrome in siblings, 1196
cerebrohepatorenal syndrome of Zellweger; cellular immunity, 356
cerebro-oculofacio-skeletal syndrome, 2243
in children of anesthetists, 976
in children of parents working in the printing industry, 3179
chromosome No. 2 abnormality, 1148
congenital heart block associated with hydrops fetalis, 1215
craniosynostosis associated with limb reduction malformations and cleft lip/palate, 2232
defective folate metabolism, 2269
ectodermal dysplasia, MR, cleft lip/palate and other anomalies in 3 siblings, 3109
and elevated luteinizing hormone levels associated with anosmia and hypogonadism, 2246
embryonic mechanisms, 375
estriol excretion, 367
extrahepatic portal hypertension, 2277
facio-cardio-renal syndrome, 1184
FG syndrome, 377, 378
folic acid, 1882
G-deletion syndromes, 3051
genetic counseling, 859
Hajdu-Cheney syndrome, 3115
incidence in functionally impaired children, 449
incontinentia pigmenti (hypomelanosis of Ito), 385
in infants with phenylketonuria, 2119
inherited; allelic restriction model, 360
Jeune syndrome, and respiratory distress syndrome, 2247
KBG syndrome variant or new MR syndrome, 2241
Klippel-Trenaunay-Weber syndrome, 1128
Lenz-Majewski hyperostotic dwarfism, 2230
and maternal bleeding during gestation, 2270
and maternal magnesium deprivation in rats, 2111
Meckel syndrome; prenatal diagnosis, 824
mendelian ectodermal dysplasia syndromes and neural crest injuries, 374
microcephaly and cataracts in 4 siblings, 1200
mitochondrial myopathy with lactic acidemia, a de Toni-Fanconi-Debre syndrome, and voluntary striated muscle defective respiratory chain, 2233
and MR; cytogenetics, 3024
Nager acrofacial dysostosis, 2272
new syndrome; cleft palate associated with coloboma, hypospadias, deafness, short stature, and radial synostosis, 3053
new syndrome; familial poliodystrophy, mitochondrial myopathy, and lactate acidemia, 3004
oculocraniosomatic neuromuscular disease with parathyroidism, 2970
ovulation induction, 372
phenotypic community, 2273, 2274, 2275
Prader-Willi syndrome; management, 3122
prevention; prenatal program, 2781
prune belly syndrome associated with Potter syndrome, 383
raised alpha fetoprotein levels and gastroschisis, 831
renal dysgenesis; preauricular pit syndrome with or

without cervical fistulae, 2257
Rubinstein-Taybi syndrome, 373
Saethre-Chotzen syndrome, with congenital adrenal hyperplasia, 1185
sclerosteosis, 1192
Smith-Lemli-Opitz syndrome, 1198
spinal arteriovenous malformation with hereditary cutaneous hemangiomas, 2259
Stickler syndrome, 2238
tricho-rhino-phalangeal syndrome; hand pattern profile analysis, 1203
tricho-rhino-phalangeal syndrome, type II (Langer-Giedion syndrome), 2248
universal permanent alopecia, psychomotor epilepsy, pyorrhea, and MR, 1193
Williams syndrome; familial occurrence, 1214
X-linked skeletal dysplasia and MR, 1191, 3086

ABO blood-group system
ABO hemolytic disease; social differences in frequency, 1030
racial difference in frequency of ABO hemolytic disease, 2058

Abortion
decision to have based on amniocentesis, 2738
and diagnostic x-rays, 892
ethical and moral issues, 799, 2773
hypertonic saline induced; coagulation disorders, 33, 35, 36
prenatal diagnosis; unpopularity among Blacks, 2891
SMR; legal and ethical issues, 2704
spontaneous; increased risk among women in hospital labs, 3170
spontaneous; mosaicism in twin pregnancy diagnosed after, 805
spontaneous; smoking as risk factor, 2802

Abruptio placentae
in rhesus monkey causing brain damage to fetus, 2062

Abscess
scalp, after fetal monitoring, 38, 1854, 2779

Acetaminophen
Reye's syndrome, 159

Acetylsalicylic acid
in pregnancy, 110
in pregnancy; multiple abnormalities, 83
in pregnancy; perinatal mortality and birth weight, 84

Achievement
academic, and attending behavior; emotionally disturbed children, 1419

Achondrogenesis: *see under* **Dwarfism**

Achondroplasia
and hypopituitary dwarfs; psychiatric aspects, 2976
mutation rate, 1194

Acidosis
in premature infants; bicarbonate infusion treatment, 1229, 1230

Acidosis, diabetic
diagnosis, 2150

Acoustic stimulation
fetal heart rate response to, as measure of fetal well-being 2772

Acrocephalosyndactylia
Apert's syndrome; MR diagnosis not automatic, 379
metacarpophalangeal pattern profile analysis, 1199
syndrome classification, 2239

Acrodermatitis
enteropathica; cellular immune deficiency, 233

Acute toxic encephalopathy: *see* **Reye's syndrome**

Adaptive behavior: *see under* **Behavior**

Adaptive Behavior Scales: *see under* **Behavior**

Adenine arabinoside: *see* **Arabinofuranosyladenine**

Adenine phosphoribosyltransferase: *see under* **Pentosyltransferases**

Adenosine cyclic-3′,5′-monophosphate
in cerebrospinal fluid in central nervous system diseases, 1949
phototherapy in hyperbilirubinemia, 2061

Adenosine triphosphate
in Reye's syndrome; hepatic concentrations, 218

Adenovirus infections, human
epidemic among children, 79
with Reye's-like syndrome, 2820
type 2, with leukocyte-associated viremia in infant with lower respiratory tract disease, 2872

Adolescence
developmental disabilities; community services, 706
developmental disabilities; dental needs, 459
developmental disabilities; family functioning, 766
developmental disabilities; nurse advocacy role, 779
developmental disabilities; nutrition, 629
developmental disabilities; physical development, 456
developmental disabilities; psychosocial development, 567
developmental disabilities; sex education, 627
developmental disabilities; special education, 628
developmental disabilities; vocational rehabilitation, 649
disadvantaged; instrumental enrichment for cognitive deficiencies, 1333
dwarfism; psychoendocrinological studies, 2102
group therapy for MR, 1607
group work with foster MRs, 672
intellectual characteristics of childhood psychotics with high verbal ability in, 1290
language patterns in autism, 1350
learning disorders, 529, 2354
learning disorders; cognitive factors and achievement, 1307
learning disorders; continuing linguistic acquisition, 2358
locus of control and knowledge of law in normals, learning-disabled, and MR, 3251

memory scanning and encoding of MR vs. non-MR, 490
MR, 1800
multiply-handicapped; training program, 1548
SMR and PMR; effects of environmental design and residential facilities, 1698
suicide attempts; minimal brain dysfunction, 2084
susceptibility of girls to rubella, 2843

Adoption
agency policy towards, 1725

Adrenal cortex hormones (*see also* **specific hormones**)
deficiency and anencephalus in rat fetus, 2313
in dysmature rat pups; glucogenic amino acid utilization, 2125
respiratory distress syndrome, 424
for respiratory distress syndrome prevention; hazards, 2310
responsiveness and Herpesvirus hominis, 82

Adrenal gland hyperfunction
congenital, and congenital hypothyroidism in newborn infants, 276
congenital, due to 21-hydroxylase deficiency; prenatal diagnosis, 2985
congenital, with Saethre-Chotzen syndrome, 1185
early diagnosis, 2162

Adrenal glands
betamethasone effect on, in fetus and newborn infant, 2298
carcinoma, after fetal alcohol syndrome, 2807
hemorrhage producing neonatal hyperbilirubinemia, 1025
hepatoadrenal necrosis with disseminated herpes simplex in lymphocytic leukemia, 948

Adrenoleukodystrophy: *see under* **Cerebral sclerosis, diffuse**

Adult Training Center (Scotland): *see under* **Normalization**

Affect
behavior in preschool handicapped children, 2420
development in handicapped preschool child, 2421
differences among special education and other graduate students, 1740

Affective disturbances, 2428
attending behavior and academic performance in children, 1419
behavior modification vs. feeling oriented therapy, 1546
Bureau of Education for the Handicapped personnel preparation programs; review, 1737
deinstitutionalization, 2665
learning disorders, 2423
MR, 1378, 1587
special education, 2526
teaching methods, 2527

Agammaglobulinemia
congenital development of *Campylobacter fetus* septicemia and hepatitis, 2012
dermatomyositis-like syndrome in child with ECHO 24 infection, 908
intravenous gammaglobulin with Fc activities, 2897
lymphocyte purine 5'-nucleotidase deficiency, 2044
persistent and fatal central nervous system echovirus infection, 957
primary; dinitrochlorobenzene contact sensitivity, 191
sex-linked; vaccine-associated poliomyelitis in child with, 2007
splenic suppressor cells, 1020
transient, in infancy, 1033

Aged
MR, manic-depressive, and schizophrenic; camping trip, 3508

Age factors
in parental assessments of the behavior problems of MR children, 747
paternal and maternal, in Down's syndrome; statistical method for detecting, 3094

Aggression
stability in PMR institutionalized male adults, 3247

Aging
MR, 2636
MR; services, 1651
pathological, of nervous system in xeroderma pigmentosum; DNA repair processes, 344

Aglossia-adactylia syndrome: *see under* **Abnormalities, multiple**

Albumins
bilirubin displacement from, by furosemide, 2053
bilirubin displacement from, in neonatal jaundice, 2054
neonatal serum; gentamicin effect on bilirubin binding capacity, 1009
serum, as prognostic indicator in edematous malnutrition, 229

Alcohol drinking
during pregnancy; effect on offspring, 1867

Alcohol, ethyl
and magnesium sulfate in prevention of premature labor, 3136
maternal intravenous, in prevention of respiratory distress syndrome, 3, 46

Alcoholism
chromosome aberrations, 3047
fetal alcohol syndrome, 75, 152, 986, 1866, 2812
fetal alcohol syndrome; altered sex ratio, 150
fetal alcohol syndrome, followed by adrenal carcinoma, 2807
fetal alcohol syndrome; lead levels of alcohol, 984
fetal alcohol syndrome; renal anomalies, 947
fetal alcohol syndrome; withdrawal symptoms in newborn infant, 1992
maternal disulfiram treatment and limb reduction anomalies in infants, 2806

Ale-Calo syndrome: *see* **Multiple exostoses-mental retardation syndrome**

Alexander's disease: *see under* **Brain diseases**

Alkaline phosphatase
serum levels and weight gain in malnourished infants treated with total parenteral nutrition, 225

Alleles
embryonic mechanisms and multiple abnormalities, 375

Allied health personnel
continuing education; genetic counseling, 1533
genetic counseling, 1738

Alpha 1 antitrypsin
in amniotic fluid and cord blood of preterm infants with respiratory distress syndrome, 2294

Alpha fetoproteins
amniocentesis, 70
amniotic fluid levels in multiple pregnancy, 1803, 1818
amniotic fluid levels; routine testing, 26, 54, 64
amniotic fluid levels in Turner's syndrome, 317, 334, 844, 2203, 2206
amniotic fluid levels in twin pregnancy, 1851
in anencephalus, 839, 2266, 2267
congenital hydrocephalus, 355
congenital nephrosis diagnosed by raised levels in maternal serum, 818
diagnostic reagents, 53
differential diagnosis of hepatobiliary disease in infants, 1829
extra-fetal origin, in women with hydatidiform mole, 2747
false positive amniotic fluid levels, 896
fetal distress assessment in toxemia of pregnancy, 1945
high levels and dark brown amniotic fluid, 1850
maternal; indicator of low-birth-weight infant, 1213, 1232
mechanisms for increase in fetal abnormalities, 346
neural tube defects, 839, 2267, 3099, 3102
omphalocele, 352
prenatal diagnosis, 1805
racial differences in maternal values, 29
raised levels and exomphalos, 362
raised levels and gastroschisis, 831
standardization of assays, 55

Alpha thalassemia: *see under* **Thalassemia**

Alzheimer's disease
trisomy 21 and myeloproliferative disorders, 3060

Amaurotic familial idiocy
genetic screening; carrier and non-carrier attitudes, 876
hair roots in screening and diagnosis, 1090
juvenile neuronal ceroid-lipofuscinosis; skin punch biopsy vs. leukocyte peroxidase assay, 2979
malpractice suit for failure to provide genetic counseling, 2770
mass screening, 860
mass screening; demographic data use, 251
neuronal ceroid-lipofuscinosis; cellular pathology, 2937
physician-family relations, 263
and related storage diseases; family planning, 2995

Amebic liver abscess: *see* **Liver abscess, amebic**

American Academy of Pediatrics Task Force on Genetic Screening, 45

Amino acid metabolism, inborn errors (*see also* **Metabolism, inborn errors**)
argininemia, 2168
aspartylglucosaminuria in northern Norway, 268
cat's urine syndrome, 2150
citrullinemia; treatment, 676
dicarboxylic aminoacidemia, 2117
familial protein intolerance; hyperdibasicaminoaciduria and hyperammonemia, 2144
fish odor syndrome, 2150
glycine encephalopathy; a form of nonketotic hyperglycinemia, 2155
histidinuria and MR, 2957
hyperargininemia, 2167
hyperphenylalaninemia; carrier phenylalanine metabolism and intellectual functioning, 2130
hyperphenylalaninemia; dihydropteridine reductase deficiency, 247
hyperphenylalaninemia; mass screening in newborns; guidelines, 1863
lysinuric protein intolerance; prolonged coma and isoelectric electroencephalogram, 2164
oasthouse urine disease, 2150
rancid butter syndrome, 2150
sweaty feet syndrome, 2150
tyrosinemia; metabolic studies with deuterated tyrosine loads, 2980

Amino acids
aliphatic effect of milk protein intake on levels in low-birth-weight infants, 1222
free, in tissues of rats with experimentally induced phenylketonuria, 1098
glucogeneic amino acid utilization in dysmature rat pups treated with corticosteroids, 2125
plasma concentrations in infants of diabetic mothers, 2041

Amino acids, sulfur
levels in low-birth-weight infants; milk protein intake effects, 1224

Aminopeptidases
cystyl, in screening for twin pregnancies, 883
oxytocinase in pregnancy toxemias, 885

Aminophylline
apnea in premature infant, 401, 3162
transplacental toxicity in newborn infant, 1913

Ammonia
intoxication; argininemia, 2168

Amniocentesis (*see also* **Amniotic fluid**), **2737**
alpha fetoprotein assays in all samples, 70

in anencephalic pregnancies; low glucose concentrations, 3114
anti-Rh(D) immunoglobulin for Rh-negative mothers, 828
blood samples; diagnosing inherited and acquired fetal diseases, 2745
complications, 810
to determine risk of respiratory distress syndrome in repeat cesarean section, 1256
differentiating between amniotic fluid and maternal urine, 30, 879, 1810
in early pregnancy, 1830
failure to detect sex chromosomal mosaicism, 1817
ileal atresia and ileocutaneous fistula following, 1804
intrauterine amputations after, 2736
midtrimester, genetic; fetal exsanguination and other vascular injuries from, 2735
midtrimester, for prenatal diagnosis; safety and accuracy, 808
neural tube defects, 3096
outcome and abortion, 2738
prenatal detection of genetic defects, 2740
prenatal diagnosis of Down's syndrome, 28, 331
prenatal diagnosis of mosaicism, 3075
risks, 819, 840, 1806
Tay-Sachs disease and related storage diseases, 2995
ultrasound localization, 814

Amniotic fluid (*see also* **Amniocentesis**)
adherent cells and neural tube defects, 3100, 3101
alpha-fetoprotein and congenital hydrocephalus, 355
alpha-fetoprotein levels in multiple pregnancy, 1803, 1818
alpha-fetoprotein levels in Turner's syndrome, 317, 334, 844, 2203, 2206
alpha-fetoprotein levels in twin pregnancy, 1851
alpha-fetoproteins and omphalocele, 352
alpha-fetoproteins, routine testing, 26, 54, 64
analysis in fetal erythroblastosis, 1003
antiviral effects and cellular immunity impairment during pregnancy, 1876
cell counts; neural tube defects, 1188
cell culture; high spontaneous chromosomal aberration frequency, 3083
cortisol concentrations and lecithin-sphingomyelin ratios, 3159
dark brown; high alpha-fetoprotein levels, 1850
differentiating from maternal urine in amniocentesis, 30, 879, 1810
disaccharidase assay for imperforate anus, 1849
fetal lung surfactant; detection by sensitive method of selective oxidation, 3161
fibrin/fibrinogen degradation product levels and neural tube defects, 363
immunoassayable beta-endorphin; elevation in cases of fetal distress, 3164
lipid extract surface tension and pulmonary maturity prediction, 2305
macrophages in cell cultures, 65, 423
plasminogen, total protein, and surface active material in respiratory distress syndrome, 3144
prenatal diagnosis, 1820
Q-polymorphisms in karyotypes from cell cultures, 1157
somatomedin A and fetal central nervous system damage, 267

Amphetamine
hyperkinesis, 3242

Amphotericin B
Candida albicans meningitis in premature infant, 1972
and 5-fluorocytosine in *Candida albicans* meningitis, 981

Ampicillin
with chloramphenicol for *Haemophilus influenzae* meningitis; long-term outcome, 2856
dosage in bacterial meningitis, 1984
and gentamicin in group B streptococcal infections, 937
-resistant *Haemophilus influenzae*, epidemiology, 932
-resistant *Haemophilus influenzae* meningitis following ampicillin-sensitive bacteremia in infant, 968
-resistant *Haemophilus influenzae* pneumonia, 1969
-resistant *Haemophilus influenzae*; subdural empyema following treatment of apparently ampicillin-sensitive *H. influenzae* meningitis, 983
-resistant *Haemophilus influenzae*, type B; beta lactamase for detecting, 931

Amyloidosis
with agammaglobulinemia and plasma cell dyscrasia, 288

Anderson-Fabry's disease: *see* **Angiokeratoma corporis diffusum**

Anemia
magnesium deficiency induced, in rat fetus, 2111

Anemia, aplastic
Fanconi's; erythrocyte superoxide-dismutase deficiency in, 2896
Fanconi's, followed by terminal acute leukemia; somatic segregation mechanism, 1127
Fanconi's; simultaneous onset in siblings, 2043

Anemia, hemolytic
in Wilson's disease, with transient increase in hemoglobin A_2, 2999

Anemia, sickle cell
prenatal diagnosis, 194, 820, 881, 1018
prenatal diagnosis; abortion issue among blacks, 2891
toxoplasmosis after splenectomy, 1935

Anencephalus
alpha fetoprotein screening, 839, 2266, 2267
amniotic fluid cell counts, 1188
associated congenital malformations, 2256
epidemiology, 353
estriol excretion, 367
infantile, and/or spina bifida in clomiphene-treated mothers, 2808
low glucose concentrations in amniotic fluid, 3114
maternal serum copper levels and neural tube defects, 1212
prenatal diagnosis, 813
in rat fetus with corticosteroid deficiency; lung phosphatidylcholine synthesis and cholinephosphotransferase activity, 2313
risk to relatives of cases, 342

Anesthesia, obstetrical
effect on newborn infant, 138
regional, and newborn infant behavior, 2855

Aneuploidy
delayed fertilization and Down's syndrome, 3034

Angiokeratoma corporis diffusum, 1083
diagnosis with electron microscopy, 3080
urinary ultrastructure, 1135

Angiomatosis
cutaneomeningospinal, with hemangiomas, 2259
Sturge-Weber syndrome without port-wine nevus, 2184

Anorexia nervosa
MR convicted of manslaughter by neglect, 3476
Turner's syndrome, 321, 3057

Anosmia
associated with elevated leuteinizing hormone levels and congenital abnormalities, 2246

Anoxemia
Down's syndrome and Eisenmenger syndrome, 2213
Down's syndrome and pulmonary hypertension, 2214

Anoxia (*see also* **Fetal anoxia**)
familial depression of ventilatory response in respiratory failure, 426
vs. hypernatremia in intracranial hemorrhages in kittens, in experiment on etiology of hyaline membrane disease, 402
ischemic, and chronic brain damage, 2901
in newborn infants; tolazoline therapy, 440

Antibiotics
group B streptococcal infection in parturient women and their infants, 2854
meningitis, gram-negative enteric, 88

Antibodies
anti-U, in fetal erythroblastosis, 1021
to Epstein-Barr virus early antigen; unusual prevalence with ataxia telangiectasia, 2870
hepatitis A, in MR inpatients, 1903
measles virus IgM; subacute sclerosing panencephalitis, 1917
persistence after administration of monovalent and combined measles, mumps, and rubella vaccines, 1973
persistence after immunization with groups A and C meningococcal polysaccharide vaccines, 1934

Anticoagulants
oral, associated with multiple congenital anomalies, 3113

Anticonvulsants
childhood epilepsy, 1111
cleft lip and cleft palate, 86
fetal trimethadione syndrome, 1898
hypocalcemia in newborn infants after intrauterine exposure to, 1895
immunological side effects, 310
maternal use and cardiac defects in children, 307
multiple abnormalities, 114
and parenteral epilepsy in birth defect development, 364
teratogenicity, 1897

Antidiuretic hormone: *see* **Vasopressin**

Antiemetics
Bendectin use during pregnancy; teratogenic evaluation, 900
toxic encephalopathy in children, 2860

Antigen-antibody reactions
varicella-zoster virus antibodies in parturient women, 124

Antigens, bacterial
cerebrospinal fluid concentrations and prognosis in bacterial meningitis, 1000

Antipyrine
plasma half-life determining activity of microsomal enzymes in malnutrition, 1066

Anti-U: *see under* **Antibodies**

Anus, imperforate
deficient disaccharidase activity in amniotic fluid, 1849

Anxiety
and outer directedness in EMR, 2427

Apert's syndrome: *see under* **Acrocephalosyndactylia**

Apgar score
respiratory insufficiency, 1238

Aphasia
in childhood; cognitive structures, language, and social competence, 1311
communication alternatives, 2385
temporary; in mycoplasma infections, 942

Aplasia cutis congenita: *see under* **Abnormalities**

Apnea
continuous positive airway pressure, 419
home monitoring systems, 420
in infants with choanal atresia; glossoptosis as cause, 1242
in infants; respiratory syncytial virus infection, 1257
in low-birth-weight infant; caffeine treatment, 1240
in massive intracerebellar hemorrhage in low birth-weight infant, 398
in newborn infant; mechanisms of airway obstruction, 1247
in newborn infant; pathogenesis and therapy, 1241
in premature infant; aminophylline, 401, 3162
in premature infants; cardiovascular effects, 2331
in premature infant; obstruction of nares by eye shield, 404
in premature infant; theophylline, 389, 415, 416, 1595
REM sleep, and cardiac slowing influenced by phenobarbital in newborn infant, 958

sudden infant death, 2303, 2304

Aqueductal stenosis: *see under* **Cerebral aqueduct**

Arabinofuranosyladenine
Herpesvirus hominis encephalitis, 1908, 2021
Herpesvirus hominis encephalitis; experimental, 1966
herpesirus infections, 1894
subacute sclerosing panencephalitis, 1947

Architecture
sensory environment for multihandicapped children, 2730

Argininemia: *see under* **Amino acid metabolism, inborn errors**

Arnold Chiari deformity
type 2, with normal spine, in trisomy 18, 3069

Arousal
vigilance performance of MR, 2388

Art
programs and experiences for MR in Indiana, 1712
rubbings for MR, 1713

Art therapy
developmentally disabled, 3304
exceptional children, 3414
handicapped, 1566, 3447

Ascorbic acid
adjunct therapy of meningitis, 1892

Aspartylglucosaminuria: *see under* **Amino acid metabolism, inborn errors**

Asphyxia
intrapartum; late decelerations and brain tolerance to, in fetal monkey, 3152

Asphyxia neonatorum
fetal heart rate profiles, 897
inappropriate antidiuretic hormone secretion and diabetes insipidus, 2319
quality of survival, 3154

Aspirin
level determination in hyperbilirubinemia, 1019

Asplenia syndrome: *see under* **Abnormalities, drug-induced**

Ataxia telangiectasia
aberrant form; immunological studies, 1204
heat stable E-receptors on leukemic lymphoblasts, 2092
unusual prevalence of antibodies to Epstein-Barr virus early antigen, 2870

Atelectasis
in newborn infant, followed by inappropriate antidiuretic hormone secretion, 2322

Atherosclerosis
Down's syndrome, 1163

Atresia
extrahepatic biliary, and hepatitis in newborn infants; serum bile patterns, 2059

Atrioventricular conduction disturbance: *see* **Heart block**

Atropine
bradycardia in premature infant, 388

Attention
deficits and visual distraction; learning-disabled children, 1517
MR, 2384
relation to academic performance; emotionally disturbed children, 1419
selective; role of, in acquired dyslexia, 3191

Attitude
attribution theory and labeling effects, 798
of black and white university students toward MR, 782
of employers toward hiring handicapped, 1563
of EMR towards mathematics; instrument for measuring, 1474
of junior high school students toward MR, 794
of older siblings of MR adults, 1720
pre- and post-semester, of students in special education classes toward handicapped, 3343
of pupils toward MR children, 3479
of society toward MR; measuring instrument for evaluating, 703
toward mainstreaming MR, 616
toward MR; research paradigms, 702
toward MR, of social work students interacting with families of MR, 1724

Attitude of health personnel
to parents' desire to choose sex of their babies through genetic counseling, 852

Audiometry
visual reinforcement, with institutionalized PMR, 829

Auditory evoked potentials: *see under* **Evoked potentials**

Auditory perception
autism, 3197, 3198
deficiencies; remediation programs, 1488
disorders; teaching techniques, 1411
impairments in reading disabled children; neurological impress effects, 1423
language and learning disorders, 454
learning disorders, 2355, 3181, 3213

Auditory threshold
overload in learning disorders, 1309

Autism (*see also* **Autism, early infantile**)
in adolescents; language patterns, 461
bibliography, 2426
childhood; predicting successful outcome, 671
childhood; school-parent cooperation, 2449
cognitive processing and linguistic reference, 460
communication alternatives, 2385
counseling parents, 2690
electric shock therapy; board of inquiry findings, 18

group therapy; autistic/schizophrenic adolescents, 1573
intermittent punishment of self-stimulation, 3424
language patterns, 463
language patterns of adolescent, 1350
play behavior, 586, 588
relationship between therapist and family, 749
special education, 610

Autism, early infantile (*see also* **Autism**), **541, 554, 555, 556, 559, 560, 664**
adventitious movement characteristics, 543
alternation and sequencing behavior, and response to novelty, 3186
articulation and language performance, 3229
artistic idiot savant, 1396
Behavior Rating Instrument for Autistic Children, 3426
behavior therapy, 3420
behavior therapy for self-stimulation, 2608
and bleeding during pregnancy, 589
blood platelet monoamine oxidase levels, 551
case study, 3449
catecholamine screening, 549
catechol-O-methyltransferase activity in erythrocytes, 552
celiac autism, 558
cerebrospinal fluid immunoglobulin levels, 568
child; Rapid Eye Movement (REM) during sleep, 3180
cognitive structures, language and social competence in infantile autism and childhood aphasia, 1311
congenital rubella, 2845
consistent responding to auditory stimuli by "deaf" child, 3198
depressed lymphocyte responsiveness, 2844
dermatoglyphics, 544, 2923
differences between MR and normally intelligent autistic children, 3224
in dizygotic twins, 3196
dopamine-beta-hydroxylase and endogenous total 5-hydroxyindole levels, 550
double-bind theory; critique, 1860
echolalia, 1312
effects of fluorescent and incandescent illumination upon repetitive behaviors, 3199
electric shock therapy, 3425, 3427
electroencephalographic and clinical studies, 3220
epidemiology, 20
extra-therapy responding; difference between generalization and maintenance, 3431
familial component, 561
families of children with, 562
family training program, 2682
genetics and phenomenology; early onset and pubescent, 3261
handedness; etiological significance, 2922
hearing disorders, 2342
hyperserotonemia and amine metabolites, 2987
hyperuricosuria, 557
incidence in national groups in New South Wales, 17
incidence of physical anomalies, 449
language disorders, 542
minor physical anomalies, 545
mother-child relations, 590
negativistic behavior, 3263
neuroendocrinological studies, 448
New Horizons group activity program, 3430
norepinephrine levels and dopamine-beta-hydroxylase activity, 3177
parents' assistance seeking experiences, 3511
phonological performance, 3228
platelet monoamine oxidase activity, 3176
psycholinguistic disabilities, 1360
psychometrics, 546
selective responding to components of bidimensional visual and auditory stimuli, 3197
serotonin levels in blood platelets, 3175
short-term and serial, in autistic, MR, and normal children, 3195
sign language and multisensory input training, 3428
sign language for severely dysfunctional nonverbal child, 1299
speech elicitation through behavior modification, 3429
statutory definition of emotionally disturbed child by Rhode Island court, 1617
teaching prevocational and language skills, 3256
toilet training with operant conditioning techniques, 3407
undetectable hemagglutination-inhibition antibody titers despite previous rubella vaccination, 3262
vestibular stimulation effects on behavior, 3260
virus isolation, antibody and immunologic studies, 553
zinc and copper levels in serum, 548

Autonomic dysfunction
bethanecol treatment, 365, 366
dysautonomia, familial, in infant of non-Jewish ancestry, 444

Aversive therapy
MR; model consent form, 3468
for vomiting and rumination in SMR child, 2580

Azorean disease: *see under* **Nervous system diseases**

Bacteremia: *see* **Septicemia**

Bacterial infections
intramuscular iron-dextran and susceptibility of neonates, 2883

Bacterial meningitis: *see under* **Meningitis**

Bactrim: *see* **Trimethoprim**

Barbiturates
effect on fetal breathing *in utero*, 2307
paramidine; caution against use for treating hyperbilirubinemia, 1032
paramidine prevention of hyperbilirubinemia in preterm infants, 2029
prenatal, and rhesus hemolytic disease, 2035

Battered child syndrome (*see also* **Child abuse**)
negligent failure to diagnose, 696
Vietnamese cultural practices, 216

Bayes theorem
genetic counseling, 864

Beckwith-Wiedemann syndrome: *see under* **Gigantism**

Behavior (*see also* **Child behavior disorders**)
AAMD Adaptive Behavior Scale, 602, 1493, 2430
academic, and labeling; effects on low-income children's attitudes toward MR children, 2728
adaptive; concepts and trends in India, 1383
adaptive; development in MR, 1386
adaptive, in developmentally disabled, 1387
adaptive and maladaptive, in idiot savants, 573
adaptive, measured in Japan, 1384
adaptive, in MR; Adaptive Behavior Scales, 1388
adaptive, in PMR and SMR; self-help habit training evaluated, 2433
adaptive, in SMR; behavior therapy for self-help skills, 2569
adaptive, in SMR; Central Wisconsin Colony Scales of Adaptive Behavior, Battery A, 2442
adaptive, in special schools in Belgium, 1377
alternation and sequencing and response to novelty, in autism, 3186
analysis in developmental disabilities, 2560
analysis for severely handicapped, 1398
analysts; generalization technique for normalization, 1526
Behavior Rating Inventory for the Retarded, 2441
change in SMR; caffeine reduction, 1599
ecologies, congruence of; basis of special education programming model, 3317
failure to thrive, 2108
handicapped infants; attachment to mothers, 3253
independent, in MR; program to stimulate, 3302
interpersonal distance, of MR children, 575
maladaptive, and community placement of MR, 741
malnutrition and learning, 2951
management in MR; recurrent problems, 1736
MR; impact of institutional experience, 584
MR, in residential facilities; quantitative observations, 1683
negativistic, in autistic children, 3263
neurologic and academic variables related to, 2362
novel, and language development, 1348
predicting sheltered workshop productivity with Adaptive Behavior Scale, 2430
reduction programs for MR, 2701
and referral rating form for primary grade TMR, 1402
repetitive, in autistic children; effects of fluorescent and incandescent illumination, 3199
ruminating, in an infant, 3438
SMR and PMR; environmental influences, 3255
stereotyped; prevalence of rocking in SMR, 2432
stereotyped, in SMR, 1381
stereotyped, in SMR; physical restraint for body rocking, 2594
stereotyped, in SMR; reinforcement of incompatible behavior, 2596
stereotyped, in SMR and PMR; crib confinement as factor, 2595
stereotyped, in SMR and PMR; effects of tempo changes on rocking movements, 2593
territorial and aggressive, in PMR institutionalized male adults, 3247
the threatening stare; differential response latencies in mildly MR and PMR adults, 1374
violent, destructive and assaultive, in adult MR male, 3444
vocational; checklists, 1556
XY chromosome variation, 1131

Behavior modification: *see* **Behavior therapy**

Behavior therapy [*see also* **Aversive therapy; Extinction (Psychology); Punishment; Reinforcement (Psychology)**], **663, 1602, 2597, 2610**
affective disturbances and behavior problems, 2559
auditory reinforcement in multiply handicapped PMR children, 686
autism; extra-therapy responding, 3431
autism; toilet training, 3407
autism; speech elicitation, 3429
automated range of motion training with cerebral palsied MR, 1577
Behavior Rating Instrument for Autistic Children, 3426
controlled arm movement establishment in PMR, 684
early infantile autism, 3420
eating skills in MR, 2429
electric shock effects on autistic children, 3425
EMR; vicarious reinforcement and direction of behavior change in the classroom, 3406
encopresis, 2607
first graders; token reinforcement program, 1579
headstriking in MR; failure of overcorrection procedure, 3412
hyperkinesis, 650, 2601
hyperkinesis in preschool children, 2555
increasing SMR productivity with monetary reinforcement, 1598
intermittent punishment of self-stimulation in autistic child, 3424
learning disorders, 2554, 2606
lecture series for persons working with MR; evaluation, 1600
Lesch-Nyhan syndrome, 2962
mealtime behavior, 2579
mealtime tantrums and delay in self-feeding in multihandicapped child, 3413
medical ethics, 19
and medication to treat children with hyperkinetic syndrome, 3242
modeling in rapid token training of institutionalized MR, 1604
modification vs. feeling oriented therapy; emotionally and behaviorally disturbed children, 1546
MR, 1589, 2551, 2604, 3418
MR and children with behavior problems, to improve school performance, 1585
MR; contingency management effects on academic achievement and conduct, 3314
MR; contingency management promoting walking, 2571
MR; imitation training, 2557
MR; National Association of Superintendents of Public Residential Facilities, 1603
MR; research analysis, 1601
MR; toilet training, 1576
multiply handicapped adolescents, 1548
nonverbal PMR and SMR; music and exercise effects on self-help skills, 2583
by parents of handicapped children; antecedent and contingent modeling, 3520
PMR; for rumination, 3443
PMR; self-help skills, 2582
PMR; toilet training, 2584
primary school intervention program, 2537

program for families of autistic children, 2682
program implementation in an institution, 3416
reducing self-injurious behavior of MRs by facial screening, 3408
reduction of stereotyped behavior in PMR, 685
reduction of stress between mothers and their preschool cerebral palsied children, 3515
for ruminations in an infant, 3438
self-control techniques, exceptional children, 2611
self-control techniques, MRs, 1555
self-injurious behavior in SMR, 3269
self-mutilation in Lesch-Nyhan syndrome, 2964
self-stimulation, 2608
sequential withdrawal of stimulants in hyperkinesis, 658
severely and multiply handicapped, program descriptions; bibliography, 2725
SMR, 2599
SMR; attention-seeking behavior, 2575
SMR; dressing behavior, 2581
SMR; frustration technique to reinstate speech, 2568
SMR; head-banging behavior, 2577
SMR; intensive habit-training unit, 2591
SMR; physical restraint for body rocking, 2594
SMR; self-help skills, 2569
SMR; teaching saw chain assembly, 3441
SMR; teaching work habits, 3439
SMR; territoriality, 2573
SMR; ward programming, 2592
SMR and PMR; crib confinement and stereotyped behavior, 2595
SMR and PMR; self-feeding, 2598
SMR and PMR; social maturation, 2588
SMR and PMR; toilet training, 2576, 2585, 2586
teaching dressing skills to blind, multihandicapped child,2467
teaching handicapped to swim, 1571
teaching self-medication to MR, 3365
toileting phobia in MR, 3437
training for parents of MR, 765

Bendectin: *see under* **Antiemetics**

Benzothiadiazides
neonatal hypoglycemia, 171

Betamethasone
effect on adrenal function in fetus and newborn infant, 2298
fetal growth and development in the monkey, 2810
in vitro metabolism by the human placenta, 2811
leukocyte function after prenatal administration to prevent respiratory distress, 2333
prior to early cesarean section in cases of severe rhesus isoimmunization, 2890
respiratory distress syndrome, 393, 2324, 3145, 3155
vs. cortisol for acceleration of fetal lung maturation in premature labor, 2316

Beta-thalassemia: *see under* **Thalassemia**

Bethanecol compounds
familial dysautonomia, 365, 366

Bibliography
affective disturbances, 2428
annotated; SMR and PMR, 2717
autism, 2426
behavior therapy for affective disturbances and behavior problems, 2559
child abuse, 2927
competency-based teacher education and evaluation, 2523
Down's syndrome, 3042
dyslexia, 2378
EMR curriculum, 2529
EMR education, 2528
EMR vocational education, 2544
gifted, handicapped, disadvantaged, and underachievers, 2716
handicapped, 2731
handicapped; selected non-print materials, 2732
hyperkinesis, 2913
learning disabilities; theory, assessment, and remediation, 3243
mainstreaming, 1479, 2524
normalization for MR, 2620
severely and multiply handicapped, 2724
sex education, 2525
special education for affective disturbances, 2526
teaching methods for affective disturbances, 2525

Bile
serum patterns in newborn infants with hepatitis and extrahepatic biliary atresia, 2059

Biliary tract diseases
in infants; alpha-fetoprotein levels, 1829

Bilirubin (*see also* **Hyperbilirubinemia**)
binding capacity of neonatal serum; gentamicin effect, 1009
binding capacity in newborn infants; influence of gestational age and clinical status, 2036
binding and flucloxacillin, 183
binding in hyperbilirubinemic newborn infants; antibiotic effects, 1008
binding; paraben preservative effect, 1010
concentration in newborn infant; maternal drug use effects, 126
displacement from albumin by furosemide, 2053
displacement from albumin in neonatal jaundice, 2054
effect of exchange transfusion on binding, 2042
intermittent phototherapy effect on levels in rats, 2026
maximum neonatal serum concentration and infant development during first year, 2034
transport development and metabolism in newborn rhesus monkey, 2055
transport in neonatal jaundice; influence of intravenous nutrients, 2898

Biofeedback (psychology)
cerebral palsy, 3409

Birth control: *see* **Family planning**

Birth injuries
breech delivery, 3134

Birth weight (*see also* **Infant, low birth weight**)

antenatal care and perinatal mortality, 47
definition of perinatal mortality, 868
folic acid in fetal erythroblastosis, 2045, 2046
heroin and methadone; differential effects of maternal use, 130
and intelligence in monozygotic twins and siblings, 3135
and mortality rates in black infants vs. white infants, 2290
and perinatal mortality during pregnancy; acetylsalicylic acid, 84
phenylketonuria, 274

Blacks
adolescent; social adjustment from psychiatric hospital to community, 3480

Blindness
congenital amaurosis of Leber; neurologic manifestations, 2278
cortical, following *Haemophilus influenzae* type B meningitis, 2011
and deafness after rubella; psychological assessment, 2847
and deafness; teaching signs, 1497
MR children; educational planning, 2457
multihandicapped child; teaching dressing skills, 2467

Blood
acid-base balance at birth in newborn infant after membrane rupture in labor, 1043
lead levels and lead in drinking water, 170, 2793
lead levels in MR children, 1869

Blood coagulation
abnormalities in Reye's syndrome, 2008

Blood group incompatibility
ABO, and neonatal hyperbilirubinemia; correlation with cord bilirubin levels, 2032

Blood platelets
Huntington's chorea; dopamine and 5-hydroxytryptamine uptakes, 2095
monoamine oxidase levels in early infantile autism, 551
serotonin levels in early infantile autism, 3175

Blood sugar
concentration in infants of diabetic mothers, 2041
maternal glucose intolerance and neonatal blood levels, 185

Blood transfusion (*see also* **Exchange transfusion**)
method for estimating amount of anti-RH_O(D) immune globin for postpartum mother, 2895
respiratory distress syndrome in newborn infant, 433

Blood transfusion, intrauterine
fetal erythroblastosis, 1004
Rh isoimmunization, 1024
Rh-Hr blood group system, 2037

Blood volume determination
hypervolemia in phenylketonuria, 2145

Bloom's syndrome: *see under* **Abnormalities, multiple**

Bone and bones
carpal; reticular pattern in Turner's syndrome, 323

Bone diseases
lesions in child with meningococcal meningitis and disseminated vascular coagulation, 1889

Bone marrow
Gaucher cells isolated from, 2166

Bowen's disease
after photodye therapy for herpes simplex, 1902

Bradycardia
premature infant; atropine therapy, 388

Brain
biological and biochemical changes in learning, 1282
body weight, activity, and learning ability compared in strains of mice, 3237
development; effect of reserpine on cell proliferation, 1977
development; polyunsaturated fatty acids, 1289, 2346
energy metabolism in human protein-calorie malnutrition, 2952
fetal; growth and fatty acids, 447
growth and nutrition, 2343
postnatal development in rats following maternal prednisone therapy, 1914
and skull malformations and MR, 3103
thymidine kinase and thymidylate synthetase for restorative growth, 2953
tolerance of fetal monkey to intrapartum asphyxia, 3152
waves and perception in hyperkinesis, 2907
weight, correlated with head circumference in fetus and newborn, 3171

Brain damage, chronic (*see also* **Minimal brain dysfunction**), 2905
age at injury and perceptual, cognitive, and social development, 2085
children of xanthinuric mothers, 1106
diagnosis and educational prospects, 2904
diagnosis and specific disorders, 2903
diphtheria-pertussis-tetanus vaccination, 2885
Doman-Delacato therapeutic techniques, 1567, 1568
eidetic imagery in children, 486
febrile convulsions in children, 2179
functional assessment, 204
hyperbilirubinemia; new techniques for estimating risk, 2028
hypertonic phosphate enema, 205
in infants, and bleeding during pregnancy, 1859
ischemic anoxia, 2901
in learning disability, 2369
MR, 2063
MR; neuropsychodiagnostic approach, 2906
neurological and psychometric studies in children surviving freshwater immersion, 1050
in newborn infant; neck extensor hypertonia as clinical sign of, 2075
occurrence of brain type creatine kinase isoenzyme in serum, 2902
parasites, 155
pertussis vaccine, 2886

Physical and Neurological Examination for Soft Signs (PANESS), 3286
in rhesus monkey fetus due to abruptio placentae, 2062
secondary to Coxsackie infection in infant, 1885
special education effects; follow-up study, 3348
in surviving twin of monozygotic twinship after *in utero* death of one, 2080

Brain diseases
Alexander's disease in 2-year-old boy, 2098
cerebral white-matter hypothesis, 2938
encephalopathy and acute liver disease mimicking Reye's syndrome, 1056
encephalopathy and hexachlorophene storage in burn patient, 1047
encephalopathy in rats due to lead poisoning, 2788
hypoxic-ischemic encephalopathy in newborn infant; parasagittal cerebral injury, 2323
organic brain syndromes; critical review, 2945
subacute necrotizing encephalomyelopathy (Leigh's disease); erythrocyte transketolase activity, 220
subacute necrotizing encephalomyelopathy (Leigh's disease); pyruvate dehydrogenase activity, 221
toxic encephalopathy; relation to antihistamine-barbiturate antiemetic medication, 2860

Brain edema
fatty acid metabolism of brain capillaries in Jamaican vomiting sickness and Reye's syndrome, 144
fontogram: noninvasive intracranial pressure monitor, 1843
therapeutic measures, 441

Breast feeding
incidence of *E. coli* infections in newborn nurseries, 1920
lithium carbonate levels in mother and infant, 960
premature infant; early growth, 1857
suppressing and reinitiating lactation in women with premature infants, 2285
transmission of group B streptococcal infections, 1981, 1982
underfeeding, 227, 228

Breech presentation
acute subdural hematoma following delivery, 1042

Bromocriptine: *see* **2-Bromoergocryptine**

2-Bromoergocryptine
therapy in sterility; cervical incompetence and premature delivery, 2024, 2339

Bucolome: *see* **Barbiturates**

Burkitt's lymphoma virus
infection and thrombocytopenia during late infancy, 916
unusual prevalence of antibodies to early antigen, with ataxia telangiectasia, 2870

Butyrylcholinesterase
dehydrogenase deficiency; new inborn metabolic error, 2140

Cadmium
levels in fetal death, 2796

Caffeine
effect on reaction time of hyperkinetic and normal children, 2068
reduction and behavior change in SMR, 1599
treatment of apnea in low-birth-weight infant, 1240

Calcinosis
vascular, of the brain (Fahr disease), coincident with phenylketonuria, 2133

Calcium
celiac disease in early infantile autism, 558
effects of continuous infusion to prevent neonatal hypocalcemia, 2153
marker (^{46}Ca); urinary and fecal excretion in low-birth-weight infant, 2287
-phosphate ratio in diet of low-birth-weight infant; absorption and endogenous fecal excretion of calcium, 2286

Camping: *see under* **Recreation**

Camptomelic syndrome: *see under* **Abnormalities, multiple**

Campylobacter fetus
septicemia and hepatitis in child with agammaglobulinemia, 2012

Cancer: *see* **Neoplasms**

Candida albicans
meningitis; amphotericin B and 5-fluorocytosine, 981, 1972

Capillaries
brain; fatty acid metabolism and cerebral edema in Jamaican vomiting sickness and Reye's syndrome, 144

Carbohydrate metabolism, inborn errors
fructose intolerance; sorbitol induced death in patient with, 2161

Carbohydrates
fetal metabolism; review, 1099

Carcinoma
adrenal gland, after fetal alcohol syndrome, 2807

Carolina Abecedarian Project: *see under* **Child development**

Carotene
and vitamin A values of institutionalized MR subjects with and without Down's syndrome, 1154

Carotid arteries
internal occlusion of, in *H. influenzae* meningitis, 1932

Carrier state
hepatitis B; transmission to newborn infants, 1922

Cataracts
with familial color blindness, sensorineural deafness, and hyperinsulinism, 2258

Catechol methyltransferase
activity in erythrocytes of children with early infantile autism, 552

Catecholamines
beta-adrenergic, in respiratory distress syndrome, 424
screening in early infantile autism, 549
urinary metabolites in hyperkinetic boys treated with dextroamphetamine, 1045

Cat-eye syndrome: *see under* **Chromosome abnormalities**

Cat's urine syndrome: *see under* **Amino acid metabolism, inborn errors**

Cebocephaly: *see under* **Abnormalities**

Celiac autism: *see under* **Autism, early infantile**

Cell division
in developing brain; effect of reserpine, 1977

Cells
organelle defect in Chediak-Higashi syndrome, 3121
splenic suppressor, in agammaglobulinemia, 1020

Central nervous system
delayed nerve conduction velocities in children in protein-calorie malnutrition, 224
fetal damage from somatomedin A in amniotic fluid, 267
injury in newborn infant; neck extensor hypertonia as clinical sign of, 2075
organic disorder in autism; EEG studies, 3220
pathological aging in xeroderma pigmentosum; DNA repair processes, 344

Central nervous system diseases
cyclic adenosine monophosphate in cerebrospinal fluid, 1949
Mycoplasma infections in newborn infant, 1993

Cerebellar ataxia
and hypergonadotropic hypogonadism in 2 kindreds, 2939

Cerebellar cortex
fine structure of, in Menkes kinky hair disease, 2966

Cerebellum
chronic stimulation of, and developmental reflexes in cerebral palsied, 2940

Cerebral anoxia
febrile convulsions in children, 2178, 2179

Cerebral aqueduct
aqueductal stenosis, X-linked, with hydrocephalus, 1182

Cerebral dwarfism: *see under* **Dwarfism**

Cerebral edema: *see* **Brain edema**

Cerebral gigantism: *see under* **Gigantism**

Cerebral palsy
behavior modification therapy for reduction of stress between mothers and palsied children, 3515
biofeedback, 3409
in brothers with glutaric aciduria, 2170
chronic cerebellar stimulation and developmental reflexes, 2940
developmental medicine, 1057
dysequilibrium syndrome; dopamine-beta-hydroxylase activity, 1051
hypnotic imagery to reduce athetoid movement, 3434
with MR; automated range of motion training, 1577
physical therapy, 657
preschoolers; intelligence measures, 593
Project Cope, 2688
rehabilitation, 2093
sexual counseling for adults, 3387
special care techniques in England, 3435

Cerebral sclerosis, diffuse
adrenoleukodystrophy; heterozygote with 2 clonal fibroblast populations, 1059, 2941

Cerebral white-matter hypothesis: *see under* **Brain diseases**

Cerebrohepatorenal syndrome of Zellweger: *see under* **Abnormalities, multiple**

Cerebro-oculofacio-skeletal syndrome: *see under* **Abnormalities, multiple**

Cerebrospinal fluid
acid-base status and lactate/pyruvate ratio after febrille convulsion, 2178, 2179
concentrations of bacteria and bacterial antigen and prognosis in bacterial meningitis, 1000
cyclic adenosine monophosphate central nervous system diseases, 1949
echo virus 5 and fever in newborn infant, 945
group C beta hemolytic streptococcus isolated from, 162
immunofluorescence detection of virus antigens in Herpesvirus hominis, 1874
immunoglobulin G and albumin dynamics in experimental allergic encephalitis and herpes simplex encephalitis in rabbits, 2822
immunoglobulin levels in childhood autism, 568
lactic acid levels in meningitis; diagnostic tests, 1814
monoamine metabolites in minimal brain dysfunction, 211
removal in transient hydrocephalus, 350
shunt-associated gram-negative infections in hydrocephalus, 1201

Cerebrum
inclusions in Reye's syndrome, 74

Ceroid-lipofuscinosis: *see under* Amaurotic familial idiocy

Certification
special education personnel; training program, 1729

Cervical incompetence
and risk of premature delivery; 2-bromoergocryptine therapy, 2024

Cesarean section
dexamethasone levels in mothers undergoing, and in their premature infants, 2320
early; administration of betamethasone in cases of severe rhesus isoimmunization, 2890
genital herpesvirus hominis, 148, 921
repeat; amniocentesis to determine risk of respiratory distress syndrome, 1256
and respiratory distress syndrome, 1239

Chediak-Higashi syndrome
cell organelle defect, 3121
microtubular defect, 343

Chemotherapy: *see* Drug therapy

Chickenpox
hepatitis, and Reye's syndrome, 1926

Child (*see also* Child, exceptional; Child preschool)
adverse reactions to immunization, 2873
air lead and blood lead levels, 941
autistic; alternation and sequencing behavior, and response to novelty, 3186
autistic; cognitive processing and linguistic reference, 460
autistic; negativistic behavior, 3263
autistic; neuroendocrinological studies, 448
autistic; play behavior, 588
autistic; statutory definition of emotionally disturbed by Rhode Island court, 1617
behavioral treatment of ruminations, 3438
behaviorally disturbed; cost benefit analysis of program for treating, 692
black, with hemoglobin Barts; hemoglobin alpha deficiency, 2892
blind and MR; educational planning, 2457
blind multihandicapped; teaching dressing skills, 2467
brain-damaged; diagnosis and educational prospects, 2904
brain-damaged; eidetic imagery, 486
brain-damaged; functional assessment, 204
capsular polysaccharide vaccine, type b, for *Haemophilus influenzae*, 1940
cardiovascular abnormalities in Beckwith-Wiedemann syndrome, 3125
cerebral motor dysfunction and strabismus, 1052
cerebral swelling after head injury; identification with computerized tomography, 2909
chorea in systemic lupus erythematosus, 2946
chronic lymphoglandular enlargement and toxoplasmosis, 2018
with congenital rubella; educational placement, 1503
convulsions; computerized axial tomography, 301
culturally disadvantaged; System of Multicultural Pluralistic Assessment, 2437
cystinotic and normal; patterns of cystine reduction by fibroblasts, 2960
deafness after bacterial meningitis, 1916
death; socioeconomic factors, 59
deficient language acquisition strategies, 505
delayed nerve conduction velocities in protein-calorie malnutrition, 224
developmentally delayed; early intervention, 3432
developmentally disabled; hospitalization considerations, 2714
disadvantaged elementary school; nutritional supplement, 452
disadvantaged; summary of Canadian theses and dissertations, 3289
Down's syndrome; dichotic verbal processing, 515
Down's syndrome; educability, 3201
Down's syndrome; parental education effect on mental development, 462
Down's syndrome; tracheomalacia with swelling of neck, 3043
dwarfism; psychoendocrinological studies, 2102
dyslexic, 482
dyslexic; cerebral evoked response asymmetry, 3188
dyslexic; reeducation program, 607
dyslexic; visual evoked potentials and reaction time, 3187
early intervention program; Developmental Infant Program, 665
Early and Periodic Screening, Diagnosis and Treatment program, 1821, 1822, 1825, 1827, 2603
Early and Periodic Screening, Diagnosis and Treatment program; Mexican-Americans, 1826
educationally deprived; language stimulation program, 1466
effects of teacher labeling and abuse, 1534
efficacy of meningococcus group A capsular polysaccharide vaccine, 1998
elevated blood levels; effects on cognition, 962
EMR; language behavior, 2380
epilepsy in first 2 years, 308
epileptic; effect on family relationships, 3513
epileptic; immunological side-effects of anticonvulsants, 310
epileptic; management, 1111
epileptic; survival and quality of survival, 305
epileptic; treatment planning, 3009
factors affecting children's impressions of MR peers, 578
familial reading disabilities; auditory and visual evoked responses, 3221
febrile convulsions; CSF acid-base status and lactate/pyruvate ratio, 2178, 2179
febrile convulsions; diagnostic test evaluation, 2186
febrile convulsions; treatment, 1114
fresh water immersion survivors; neurological and psychometric studies, 1050
functionally impaired; incidence of physical anomalies, 449
hair; lead content, 925
handicapped; classroom assessment and prescription, 643
handicapped; Court Committee on Child Health Services Report, 800
handicapped; deinstitutionalization, 1666
handicapped; diagnostic evaluation, 640
handicapped; motor skill assessment, 450

handicapped; national planning conference on nondiscriminatory assessment, 3288
handicapped; parent attitude workshop, 748
hearing-impaired; home teaching program for parents, 2689
hyperactive; neurologic examination, 1046
hyperactive preschool; behavior problems, 564
hyperactive; psychotherapy or behavior therapy and adjuvant amphetamine therapy, 3242
hyperkinetic; behavior ratings from teachers, 3267
hyperkinetic; behavioral treatment, 2601
hyperkinetic; food additives, 2911
hyperkinetic; psychotropic drug therapy, 1575
hypothyroidism due to ectopy in siblings, 2971
hypothyroidism; head circumference, 1097
hypothyroidism; serendipitous diagnosis, 287
immunization procedures, 2867
with infection and malnutrition; therapy with parent's lymphocyte transfer factor, 236
influenza A2 virus infections with febrile convulsions and gastrointestinal symptoms, 2022
ingestion of lead from printed matter, 2794
intellectual function and socioeconomic status, 2407
intelligence testing; McCarthy Scales of Children's Abilities, 3273, 3274, 3275, 3276, 3277, 3278, 3279, 3280, 3281, 3282
language- and speech-disordered; neurologic and behavioral study, 2410
laterality-reading pattern development, 471
of lead worker; lead poisoning, 899
learning-disabled; drug therapy, 680
Lesch-Nyhan syndrome; immunology, 244
with leukemia; intellectual development, 2406
Listeria monocytogenes infection, 2849
low-income; attitudes towards MR children, 2728
low-level lead absorption, 2795
malnourished; effect of zinc on thymus, 2955
malnourished; persistent measles infection, 954
malnourished; sudden death during recovery, 2954
mass screening for cholesterol levels; behavioral, legal and ethical considerations, 809
massive generalized cytomegalovirus infection and islet cell dysfunction, 2881
measles encephalitis in immunized, 166
minority; mainstreaming, 2501
minority, in special education; report on discrimination, 1422
monosodium glutamate and neurologic manifestations, 131
MR; attitude of pupils toward, 3479
MR; cognitive ability patterns, 2413
MR; damaged by vaccination; compensation, 917
MR; immunization status, 802
MR; increasing intelligence level, 1334

judges' evaluations of paintings by MR, 500
training EMR children, 638

Cri-du-chat syndrome
dermatoglyphics, 1141

Crime
and MR, 10, 537, 538, 1379, 1784
XXY and XYY syndromes, 3058

Criminal law
in California; MR and developmentally disabled, 690

Crohn's disease: *see under* **Enteritis, regional**

Cryptococcus
meningitis; cerebrospinal fluid immunoglobulins, 1918

Cryptorchidism: *see* **Cryptorchism**

Cryptorchism
bilateral; human chorionic gonadotropin test before surgery, 2271
with hypospadias, 376
inheritance patterns, 380
treatment with intranasal LH-FSH releasing hormone, 1172
treatment with synthetic LH-FSH releasing hormone, 1208, 1211
in twins, with hypospadias and Wilms' tumor, 2281

Curriculum
design in special education for handicapped, 3333
development, for the MR; criteria for goal selection, 3320
school for handicapped; Lee Deeg's Wurzburger Lehrplan, 3319

Cyanidanol
effects on lysosomal enzymes of I-cell fibroblasts, 347

Cystathionine beta-synthase: *see under* **Hydro-lyases**

Cystinosis
chronic salt and water loading effects on tubular defects, 293
factors controlling nonprotein cystine content of fibroblasts, 2996
infantile nephropathic; dithiothreitol therapy, 2984
primary hypothyroidism, 2132
reduction patterns by fibroblasts, 2960

Cysts
choledocal, 1015

Cystyl aminopeptidases: *see under* **Aminopeptidases**

Cytogenetics
laboratory contributions, 3081
methadone-managed and heroin-addicted pregnant women and their newborn infants, 3093
MRs with multiple congenital anomalies, 3024
studies performed on couples with history of reproductive loss, 3082
10-year history of research in the chromosomal etiology of MR, 3095

Cytological technics
DNA cytophotometry in prenatal diagnosis, 823

Cytomegalic inclusion disease, 911
active, in young children and their mothers; specific cell-mediated immune defect, 1887
after renal transplantation, 959
after renal transplantation, prevention, 1929
congenital; immune responses in children and their mothers, 2833
congenital; isolation from cerebrospinal fluid, 2835
congenital; liver calcification, 1989
congenital; outcome for subsequent siblings, 2002
congenital; specific cellular immunity defect, 1900
congenital; symptomatic and subclinical, auditory and visual defects, 2834
congenital; transfer-factor treatment, 2836
convulsions in infants, 135
cord serum IgA, 987
immunization, 912
in infant with immunodeficiency, 2837
infantile spasms, 172
infants with perinatal infection, 2020
massive generalized infection in a child with islet cell dysfunction, 2881
MR, 2838
and myoclonus with *Herpesvirus hominis* infection, 1910
pneumonitis in infant; perinatally acquired, 101

Cytomegalovirus infection: *see* **Cytomegalic inclusion disease**

Cytophotometry: *see under* **Cytological technics**

Day care (*see also* **Child day-care centers**)
MR; legislation in Maryland and Oregon, 3456

Deafness
and blindness after rubella; psychological assessment, 2847
and blindness; teaching signs, 1497
genetic counseling, 862
sensorineural, with familial color blindness, cataracts, and hyperinsulinism, 2258

Death
perinatal, and aspirin during pregnancy, 84

Decision making
by adult MR group, 3203
quality of care in residential facilities, 1690

Deferoxamine
in thalassemia, 2989

Deinstitutionalization, 2652
advocacy for the handicapped and politics, 1637
affective disorders, 2665
community responsibility, 1686
developmental disabilities programs, 715
developmental foster homes for MR children; Iowa, 1640
developmentally disabled; housing needs, 3496

state advisory councils, 1614
state council member characteristics, 1739
student counselor; and employer perceptions of employability, 2718

Dexamethasone
effects on ovine maternal and fetal hemodynamic states and fetal oxygenation, 2804
in vitro metabolism by the human placenta, 2811
levels in women undergoing cesarean sections and their premature infants, 2320
respiratory distress syndrome, 422

Dextroamphetamine
in hyperkinesis, 660
hyperkinesis in dogs, 2917
in hyperkinesis; effects on growth, 1048
in hyperkinesis; effects on growth hormone secretion, 206
in hyperkinesis; urinary catecholamine metabolites, 1045

Diabetes insipidus
and inappropriate antidiuretic hormone secretion in asphyxia neonatorum, 2319

Diabetes mellitus: *see* **Pregnancy in diabetes**

Diagnosis (*see also* **Diagnosis, laboratory; Prenatal diagnosis**)
brain damage and specific disorders, 2903
of Down's syndrome at birth, 1174
early; hydrocephalus with progressive focal motor deficits secondary to porencephalic diverticulation, 2947
genetic diseases responsible for MR, 3023
hand pattern profile analysis, 2742
hypothyroidism, in early neonatal period, 2968
juvenile neuronal ceroid-lipofuscinosis; skin punch biopsy vs. leukocyte peroxidase assay, 2979
MR, 2750
obscure syndromes, 830
organic brain syndromes; critical review, 2945

Diagnosis, laboratory (*see also* **Diagnosis**)
bacterial meningitis, 1812
cells that adhere to glass or plastic, as evidence of neural tube defects, 3100
congenital adrenal hyperplasia, 2162
first febrile convulsions in children; test evaluation, 2186
growth hormone deficiency; hypoglycemia during testing, 289
Haemophilus influenzae, type b countercurrent immunoelectrophoresis, 1802
hypothyroidism, congenital, 242
inborn metabolic errors; dinitrophenylhydrazine test, 248
inherited and acquired diseases, through fetal hemoglobin samples, 2745
meningitis; cerebrospinal fluid lactic acid levels, 1814
Menkes' kinky hair disease, 877
phenylketonuria, 2974
pyogenic meningitis, 121
SMR, 812
virus infections, 73, 173
Wilson's disease, 877

Dialectic Teaching System: *see under* **Education, special**

Diarrhea
red diapers and child abuse, 1041

Diazepam
cleft lip and cleft palate, 86
intrauterine exposure; withdrawal symptoms in newborn infant, 164, 2805
maternal use and floppy infant syndrome, 1884, 1952

Diazoxide
effects on diphenylhydantoin metabolism, 306

Dicarboxylic aminoaciduria: *see under* **Amino acid metabolism, inborn errors**

Diet therapy
abetalipoproteinemia, 3007
hyperkinesis, 200, 201, 652, 1040
ketonic diet for pyruvate dehydrogenase deficiency, 674
phenylketonuria; acid-base status, 2120
phenylketonuria; low serum tyrosine values, 1109
phenylketonuria; new mineral and trace metal supplement, 2151
Prader-Willi syndrome, 673, 3122
very low-birth-weight infants (less than 1.3kg), 1071

Dietary fats
brain development, 1289

Diethylstilbestrol
urogenital tract abnormalities in boys, 133

DiGeorge syndrome
in association with glioma and 2 kinds of viral infection in a neonate, 2864

Dihydropteridine reductase: *see under* **NADH, NADPH oxidoreductases**

Dihydroxycholecalciferols: *see under* **Hydroxycholecalciferols**

Dilatation, pathologic
ventricular, preceding rapid head growth following neonatal intracranial hemorrhage, 2908

Dinitrochlorobenzene: *see under* **Nitrobenzenes**

Diphenylhydantoin: *see* **Phenytoin**

Dipropyl acetate: *see under* **Valerates**

Disaccharidases
amniotic fluid assay for imperforate anus, 1849

Discrimination: *see* **Prejudice**

Discrimination learning
frequency judgments of MR and non-MR, 3185
sequential contrast effects with MR subjects after, 3193
SMR; easy-to-hard discrimination procedures, 1305
visual, in MR adolescents; cue value and instruction effects, 2386

Disgerminoma
in gonadal dysgenesis; cytogenetic studies, 1168

Disseminated intravascular coagulation
and brain damage in surviving twin of monozygotic twinship after *in utero* death of one, 2080
and meningococcal meningitis in child with bone lesions, 1889

Disulfiram
treatment of alcoholic mothers causing limb reduction anomalies in infants, 2806

Dithiothreitol
infantile nephropathic cystinosis, 2984

Diuretics, mercurial
intoxication; peritoneal dialysis, 1974

DNA
cytophotometry in prenatal diagnosis, 823
mammalian; possible mutagenic effects of ultrasonics, 109
photochemical lesions; peroxidase technique for detecting, 2894
repair processes and pathological aging of nervous system in xeroderma pigmentosum, 344

Doman-Delacato therapeutic techniques: *see under* **Brain damage, chronic**

Dominance, cerebral (*see also* **Laterality**)
dyslexia, 466, 469, 470, 3192
learning disabilities, 467, 468
minimal brain dysfunction, 2921

Dopamine
dopaminergic excess and impaired prolactin release in Huntington chorea, 2090
and 5 hydroxytryptamine uptake; Huntington's chorea blood platelets, 2095
metabolism in neuropsychiatrically disturbed children, 3178

Dopamine beta-hydroxylase
activity im primary autism, 3177
disequilibrium syndrome, 1051
and endogenous total 5-hydroxyindole levels in early infantile autism, 550
low activity and diminished response to stress and posture, 2963

Down's syndrome, 3054, 3065
acceleration and maintenance of developmental gains, 605
acute hemiplegia and cortical blindness due to moyamoya disease, 3037
age related trends in averaged evoked responses, 2389
associated with hypothyroidism in a neonate, 3028
atherosclerosis and ischemic heart disease, 1163
bibliography, 3042
cellular immunity, 3031
chromatin structure, 314
congenital heart disease, 330
counseling parents, 767
deinstitutionalization as function of interagency planning; case study, 1701
delayed fertilization and aneuploidy, 3034
deletion of short arms of a G chromosome, 3029
dermatoglyphics, 337
development of male and female children, 1164
diagnosis at birth, 333, 1174
diagnostic index, 1179
dichotic verbal processing in children, 515
due to partial trisomy 21q, 3035
educability, 3201
in Egypt; incidence in newborn babies, 3070
fatty acid composition of lipids in cerebral myelin and synaptosomes, 3027
fluorescence polymorphism association, 3033
growth patterns, stature and extremities; longitudinal study, 1120
hypothyroidism, 315
hypoxemia and Eisenmenger syndrome, 2213
immunologic characteristics, 3032
infants with and without; verbal and nonverbal interaction with mothers, 2412
language development, 1117
and maternal age, 311, 327, 329
maternal age in Japan, 1177
maternal linguistic environment, 2399
mental age changes in institutional residents, 3200
mental development; parental education effects, 462
mosaic; human cell interphase chromatin structure, 1116
mosaic and trisomy 21; mental development, 464
myeloproliferative disorders, and Alzheimer's disease, 3060
myoclonus in children receiving 5-hydroxytryptophan, 300
normal rate of sister chromatid exchange, 1126
in one triplet, 1161
parental mosaicism as cause, 2225
partial trisomy 21, 1145, 3035
paternal and maternal age factor; statistical methods for detecting, 3094

patients, institutionalized. and presence of antibody to hepatitis A antigen, 2880
plasma cholinesterase polymorphism, 3066
predicted potential incidence in older women, 332
prenatal diagnosis, 3036
prenatal diagnosis; amniocentesis, 28
prenatal diagnosis; genetic investigations preceding amniocentesis, 331
primary trisomy 21; familial balanced translocation 4pt/17q- suggested as cause, 2212
prolonged survival, 1129
pseudocholinesterase, 1121, 1122
pulmonary hypertension and hypoxemia, 2214
reciprocal translocation, 2208
recurrence in sibships, 1152, 2226
retroperitoneal lipoma, 1169
seasonality, 2200, 3026
stress deficiency of T-lymphocytes, 2215
thyroid dysfunction, 1171
topographic method for analysis of palm crease variants, 2211
tracheomalacia with swelling of neck in 2.5-year-old child, 3043
vitamin A and carotene values of institutionalized MR subjects with and without, 1154
t2q-/15q+ translocation, 3030
t (5p-;21q+) translocation in family with, 2191
21p/21q reverse tandem translocation, 1142
21q22, 1140

Drug interactions
pseudoephedrine phenylketonuria, 1076

Drug therapy (*see also* specific drugs), 23
bilateral diffuse nephroblastoma, 2280
convulsions, 2185
Haemophilus meningitis, 1957
hyperkinesis, 651, 1593, 2077, 2915
hyperkinesis and convulsions in children, 3448
hyperkinesis and minimal brain dysfunction, 678, 679
learning disorders, 680
minimal brain dysfunction; 2082
MR, 2602, 2604
pregnancy toxemias, 1961
randomizing first patient, 1258
streptococcal meningitis, group B, 935

Drug withdrawal symptoms
in newborn infant; diazepam, 164, 2805
in newborn infant; fetal alcohol syndrome, 1992
in newborn infant; management with paregoric, 905
in newborn infant; maternal glutethimide addiction, 2001
in newborn infant; maternal methadone ingestion, 1911, 2009, 2803
in newborn infant; maternal narcotic addiction, 1115, 1955
in newborn infant; maternal pentazocine addiction, 2809
in newborn infant; serum-ionized calcium level effects, 2000

Duchenne muscular dystrophy: *see under* Muscular dystrophy

Ductus arteriosus, patent
indomethacin; randomizing the first patient, 1258
in premature infant, 397
in preterm infant with respiratory distress syndrome; continuous positive airway pressure, 3153
in respiratory distress syndrome, 438, 439, 2327

Due process: *see under* Education, special

Dwarfism
achondrogenesis; prenatal diagnosis, 1816
achondroplasic and hypopituitary; psychiatric aspects, 2976
cerebral; metabolic responses to human growth hormone, 1065
Lenz-Majewski hyperostotic, 2230
with pigmentation, 3168
psychoendocrinological studies in childhood and adolescence, 2102
psychosocial, in child abuse, 214
Saldino-Noonan; prenatal diagnosis, 1815
thanatophoric, 2114

Dysautonomia, familial: *see* Autonomic dysfunction

Ehlers-Danlos syndrome
with infantile polycystic disease, 348

Eisenmenger complex
Down's syndrome and hypoxemia, 2213

Electrocardiography
fetal changes as sign of hypoxia, 431
monitor artifacts in neonatal intensive care unit, 1842
monitoring newborn infant, 37

Electrodes
fetal scalp; hazards, 38, 52, 58, 1854, 2779
fetal scalp; Surgicraft Copeland model, 63

Electrodes, implanted
convulsions, 3018

Electroencephalography
autism, 3220
averaged evoked potentials in Down's syndrome; aging effects, 2389
correlates of prism adaptation in MR, 488
focused arousal deficit in learning disability, 481
herpes simplex encephalitis, 2824
hypothyroidism in newborn infant, 1093
isoelectric EEG with prolonged coma in lysinuric protein intolerance, 2164
learning disabilities, 455
prognostic value in first febrile seizure in children, 1113
Reye's syndrome; correlations with biochemical abnormalities, 2817, 2819
Reye's syndrome; significance of positive spike bursts, 2818
use and abuse in pediatric practice, 837

Electromagnetic interference (EMI) brain scan: *see under* **Technology, medical**

Electromyography
biofeedback training for reading disabled, 502

Electron microscopy: *see* **Microscopy, electron**

Electronics
devices to aid mentally and physically handicapped, 3411

Electroshock therapy: *see* **Shock therapy, electric**

Ellis-van Creveld syndrome
fetoscopy, 816, 817
fetoscopy and ultrasound, 2262

Elwyn Institute: *see under* **Residential facilities**

Embryo
mechanisms of multiple abnormalities, 375
neural crest injuries and mendelian ectodermal dysplasia syndromes, 374
radiography and neoplasms, 118

Emotional disorders: *see* **Affective disturbances**

Emotions
personality development of MR, 1369

Empyema
ampicillin-resistant *H. influenzae* subdural, following treatment of apparently ampicillin-sensitive *H. influenzae* meningitis, 983

Encephalitis
brain-stem; herpes simplex, 992, 2823
brain-stem; herpes simplex symptoms, 1948
chronic and localized viral hemiplegia, hemiconvulsions, and epilepsy, 2826
experimental allergic and herpes simplex, in rabbits; cerebrospinal fluid immunoglobulin G and albumin dynamics comparison, 2822
herpes simplex; adenine arabinoside, 2021
herpes simplex; characteristic EEG changes, 2824
herpes simplex; with cytomegalovirus infection and myoclonus, 1910
herpes simplex; experimental; adenine arabinoside derivative, 1966
herpes simplex in newborn infant; multicystic cerebral degeneration, 924
herpes simplex virus antigens in cerebrospinal fluid detected by immunofluorescence, 1874
herpesvirus type 2, 985
measles; in children with immunosuppression, 991
measles; in immunized child, 166

St. Louis; epidemic in Mississippi, 2865

Encephalopathy: *see under* **Brain diseases**

Encopresis, 662
behavior therapy, 2607

Enemas
hypertonic phosphate; brain damage following, 205

Energy metabolism
of brain, in protein-calorie malnutrition, 2952

Enteritis, regional
Crohn's disease; metronidazole and chromosome aberrations, 322

Enterocolitis, acute
necrotizing, and enterotoxigenic *Escherichia coli* in infants; lack of association, 1888
necrotizing, and fatal Coxsackie B_2 viral infection, 2882

Enterovirus infections
in newborn infant, 94

Environment
child development; interactional model, 1361
enriched; effects on SMR, 2395
indices for human behavior genetic analysis, 3235
influence on behavior of SMR and PMR, 3255
physical; effects on learning of MR, 3241
physical and social, for feeding SMR and PMR, 2733
sensory, for multihandicapped children, constructed by architecture students, 2730

Enzymes
glycolytic; activities in Reye's syndrome, 218
microsomal, in malnutrition, as determined by plasma half-life of antipyrine, 1066
replacement therapy in adenosine deaminase deficiency, 284

Epidemiology
achondroplasia, 1194
anencephalus, spina bifida, and hydrocephalus, 353
autism, early childhood, 20
autism, infantile, in New South Wales, 17
echovirus 16, 2830
hereditary diseases, 786
hyaline membrane disease and respiratory distress syndrome, 428
infections caused by ampicillin-resistant *Haemophilus influenzae*, 932
MR; Colchester Survey, 3050
SMR in Aarhus, Denmark, 3
SMR in northern Swedish county, 789
seasonality in Down's syndrome, 3026
spina bifida, 2260
trisomy, 2207

Epilepsy (*see also* **Epilepsy, focal**), **3010**
in children; survival and quality of survival, 305
effect on family relationships, 3513
in first 2 years of childhood, 308
and hereditary coproporphyria, 3011
immunological side effects of anticonvulsants, 310
intractable status epilepticus; rectal sodium valproate, 2177
lithium, 3012
management, 302, 675, 1111, 2185
in MR; clonazepam, 2174
parental, and anticonvulsants in birth defect development, 364
predictors in children with febrile convulsions, 3014
temporal lobectomy and intellectual skills, 473
teratogenic activity of antiepileptic drugs, in mice, 3016
treatment planning, 3009

Epilepsy, partial: *see* **Epilepsy, focal**

Epilepsy, focal
complex symptoms and occipitoparietal lesions; value of tachistoencephalographic examination, 3013

Epstein-Barr virus: *see* **Burkitt's lymphoma virus**

Erotomanic delusions: *see under* **Psychoses**

Erythroblastosis, fetal (*see also* **Jaundice, neonatal**)
accurate amniotic fluid analysis from bloody tap, 1003
anti-U antibodies, 1021
betamethasone, 2890
continuous-flow plasmapheresis management, 1031
folic acid influences on birth weight and growth, 2045, 2046, 2047
imbalance of globin chain synthesis after exchange transfusion, 2888
intrauterine fetal transfusion, 1004
maternofetal hemorrhage, 182
plasmapheresis, 2033
premature infant; intravascular pressures in first hour of life, 189
prenatal screening, 872
prevention through immunization, 2887
promethazine; immunosuppressive effect on newborn infants, 188
racial difference in frequency of ABO hemolytic disease, 2058
ultrasound as an aid to intrauterine transfusion, 1027

Erythrocytes
catechol methyltransferase activity in early infantile autism, 552
synthesis of inosine 5′-phosphate in Lesch-Nyhan syndrome, 2961
transketolase activity in Leigh's disease, 220

Escherichia coli
enterotoxigenic, and necrotizing enterocolitis in infants; lack of association, 1888
identification, 2016

Escherichia coli infections
with galactosemia in newborn infant, 2852
incidence in newborn nurseries; breast feeding, 1920
meningitis; association with congenital tuberculosis in an infant, 2862
meningitis; isolation of 2 serotypes, in infant, 2005
meningitis; K1 antigen in newborn infant, 1906
meningitis; from single K1 serotype, in newborn infants, 163

neonatal sepsis and necrotizing enterocolitis, 105

Esophagus
atresia with oligohydramnios and renal dysplasia, 349

Estriol
and 15-hydroxyestriol as indicators of pregnancy complications, 1838
unconjugated, in maternal vein and artery serum in pregnancies complicated by intrauterine growth retardation, 1067
unconjugated plasma values in high-risk pregnancy, 869
urinary; fetal distress assessment in toxemia of pregnancy, 1945

Estrogens
first trimester exposure, and congenital malformations, 2268
/progestogen exposure and congenital abnormalities, 361

Ethanol: *see* **Alcohol, ethyl**

Ethics, medical
abortion, 2773
afflicted PMR; right to die, 1794
behavior therapy, 19
decisions on pregnancy and childbirth, 2703
defective newborn, 783, 1793
defective newborn; intensive care, 1795
electric shock therapy, 18
experimentation on human subjects, 1, 2
hospital-based program for continuing education, 784, 785
MR research, 1788
the neonatal surgeon and the defective newborn, 768
passive euthanasia in spina bifida, 2251, 2252, 2253
pediatric surgery for severely impaired newborns, 2723
prenatal diagnosis and abortion, 799
reducing maladaptive responding of institutionalized MRs, 2701
responsibility for genetic screening, 2777
spina bifida, decision to treat, 1796
sterilization of MR child, 2729
sterilization of MR child, involuntary, 2721
therapeutic and nontherapeutic research in children, 1790

Eugenics
MR; political philosophy, 16

Euphenic nutrition: *see under* **Nutrition**

Euthanasia
MR, 788

Euthanasia, passive
quality of life considerations, 781
in spina bifida; medical ethics, 2251, 2252, 2253

Evoked potentials
auditory, and selective attention in formerly hyperactive adolescent boys, 1037
auditory and visual in children with familial reading disabilities, 3221
cerebral; response asymmetry in dyslexic children, 3188
in Down's syndrome; age-related trends, 2389
visual, and reaction time in normal and dyslexic children, 3187

Exchange transfusion
effect on bilirubin binding, 2042
effect on elimination of theophylline in premature infants, 2284
in low-birth-weight infants with and without respiratory distress syndrome, 399, 400
preceding imbalance of globin-chain synthesis in newborn infants, 2888

Extinction (psychology)
social competency skills in SMR and PMR, 2563

Extremities
limb development, neural crest, and thalidomide embryopathy, 146

Eye
gaze and dominance hierarchy in PMR, 572

Fabry's disease: *see* **Angiokeratoma corporis diffusum**

Facio-cardio-renal syndrome: *see under* **Abnormalities, multiple**

Factor VIII
fetal growth retardation, and toxemia, 1976

Fahr disease: *see under* **Calcinosis**

Familial protein intolerance: *see under* **Amino acid metabolism, inborn errors**

Family
of autistic child, 561, 562
of autistic child; therapist relationship, 749
of developmentally disabled adolescent; service needs, 766
dynamics in learning disorders, 530
economic depression and neurologic illness in children, 745
of epileptic child; stresses, 3513
factors in occurrence of MR in Warsaw, Poland, 756
Family Behavior Profile, 1719
of handicapped receiving special education; counseling by teachers, 753
isolation and child abuse, 1716
MR, 2681
of MR; attitudes of social work students towards MR after interacting with, 1724
of MR; educational program, 1723
of physically disabled MR; Piedmont Region Model for Family Involvement, 758
-professional relationship in developmental disabilities, 2683
of psychotic child; coping patterns, 1727
specific developmental dyslexia; cerebral lateralization patterns, 3230
of Tay-Sachs infant; relations with physician, 263

training program for early infantile autism, 2682

Family Behavior Profile: *see under* **Family**

Family planning
birth control and genetic changes in Chile, 34
clinics for MR, 540
hereditary diseases, 858
Tay-Sachs and related storage diseases, 2995

Family therapy
for prevention of MR; Milwaukee Project, 613

Fanconi syndrome
and cystinosis; chronic salt and water loading effects on tubular defects, 293

Fanconi's anemia: *see under* **Anemia, aplastic**

Fatty acids, essential
fetal brain growth, 447

Fatty acids, unsaturated
brain development, 1289, 2346

Febrile seizures: *see* **Convulsions, febrile**

Feingold diet: *see under* **Diet therapy**

Fertilization
delayed, and Down's syndrome, 3034

Fetal alcohol syndrome: *see under* **Alcoholism; Drug withdrawal symptoms**

Fetal anoxia
animal model, 409
electrocardiogram changes as sign of, 431
prediction; computer analysis of fetal monitor output, 1852

Fetal biopsy: *see under* **Prenatal diagnosis**

Fetal blood
sampling with sonographically directed placental aspiration, 2739

Fetal death
lead and cadmium levels, 2796
one member of monozygotic twinship; brain damage in surviving member, 2080
predicting risk, 40
prenatal diagnosis and macerated fetus, 332
tight nuchal cord and sepsis, 1954
vinyl chloride, 119, 120, 929

Fetal diseases (*see also* **Fetal anoxia; Fetal distress; Fetal growth retardation**)
fetal hydantoin syndrome, 72, 89, 1987, 3106
fetal hydantoin syndrome and glaucoma, 149
fetal hydantoin syndrome and neuroblastoma, 125
laboratory diagnosis; multiscan system for extracting blood sample from placental vessel, 2745

Fetal distress (*see also* **Fetal diseases**)
beta 2-sympathomimetic drug as temporizing treatment measure, 3156
correlated with elevation of immunoassayable beta-endorphin in amniotic fluid, 3164
fetal exsanguination and other vascular injuries from midtrimester amniocentesis, 2735
in toxemia of pregnancy; assessment by urinary estriol, human placental lactogen, and alpha fetoprotein levels, 1945

Fetal globulins
Meckel syndrome; prenatal diagnosis, 824

Fetal growth retardation (*see also* **Fetal diseases**)
beta 1 glycoproteins in maternal blood, 2115
effects of behavioral and medical variables, 3129
factor VIII, and toxemia, 1976
in lambs; hyperfibrinogenemia and polycythemia, 1073
maternal administration of immunosuppressive drugs, 2109
prenatal glucocorticoid injection effect on hypoglycemia in newborn rats with, 2048
total intrauterine volume in determination of, 2741
unconjugated estriol in maternal vein and artery serum at delivery, 1067

Fetal heart (*see also* **Fetal monitoring**)
acceleration rate; response to acoustic stimulation as measure of fetal well-being, 2772
rate profiles with and without fetal asphyxia, 897

Fetal hemoglobin
diagnosis of inherited and acquired fetal diseases, 2745

Fetal hydantoin syndrome: *see under* **Fetal diseases**

Fetal membranes
prolonged rupture of, and decreased frequency of respiratory distress syndrome and patent ductus arteriosus in preterm infants, 3137

Fetal monitoring (*see also* **specific technique**), 2776
acoustic stimulation and oxytocin challenge tests, 2772
aplasia cutis congenita mistaken for scalp electrode damage, 2235
computer-interpreted; discriminant analysis in predicting neurologic status at age 1, 806
EEG; infant outcome, 2758
gonococcal sepsis secondary to, 1938
hazards of scalp electrodes, 52, 58
heart rate, 871, 890
heart rate, cardiotocography, 888
heart rate, continuous in ambulant patient in labor, 57
heart rate, monitor for the ambulant mother, 891
heart rate, and well-being of newborn infant, 870
scalp abscesses, 38, 1854, 2779
systolic time intervals; changes with advancing gestational age and cardiovascular development, 2778
temperature gradient between fetus and mother, 1856
ultrasonics, 44, 60, 71, 880

Fetography: *see under* **Prenatal diagnosis**

Fetoscopy: *see under* **Prenatal diagnosis**

Fetus
abnormalities; estriol excretion, 367

abnormalities; mechanisms for increase of alpha fetoprotein, 346
acceleration of lung maturation in premature labor; betamethasone vs. cortisol, 2316
anemia and congenital malformations; maternal magnesium deficiency in the rat, 2111
anencephalic rat, with corticosteroid deficiency, lung phosphatidylcholine synthesis and cholinephosphotransferase activity, 2313
asplenia syndrome after warfarin exposure, 1943
attenuated rubella vaccine in early pregnancy; risk, 2842
brain damage caused by abruptio placentae in rhesus monkey, 2062
brain growth and fatty acids, 447
breathing movements; quantified ultrasonics analysis, 46
breathing *in utero;* effects of barbiturates and vagotomy, 2307
carbohydrate metabolism; review, 1099
central nervous system damage from somatomedin A, 267
diagnostic x-rays, 24, 25
Duchenne muscular dystrophy; muscle growth in tissue culture, 3165
effects of maternal smoking, 92, 113, 167, 2797, 2799, 2800
electrocardiogram changes as sign of hypoxia, 431
exomphalos and raised alpha fetoprotein levels, 362
-fetus interaction in spina bifida and microcephaly, 341
folates and neural tube defects, 3124
galactose-1-phosphate uridyltransferase and galactokinase activity, 2173
Goodwin's high-risk score and fetal outcome, 886
growth; effect of placental surface area reduction, 1855
growth and weight standards, 893
head circumference as index of brain weight, 3171
inhibition of lung maturation in rabbit by maternal phenobarbital treatment, 2317
intrapartum monitoring, 39
intravascular volume determinations and fetal outcome in hypertensive diseases of pregnancy, 884
lung development, 2330
lung maturity; amniotic fluid cortisol levels as index, 410
lung maturity; amniotic fluid lipid extract surface tension, 2305
lung maturity; hydrocortisone effects on lecithin/sphingomyelin ratio, 1255
lung maturity; lecithin/sphingomyelin ratio and surfactant phospholipid levels, 2311
lung maturity tests, 2296
malformations and defective folate metabolism, 2269
malformations due to amniocentesis, 2736
malnutrition; correlated factors, 2106
mercury poisoning, 2813
proteinuria, and congenital nephrosis detected by raised alpha fetoprotein levels in maternal serum, 818
radiography and neoplasms, 118
respiration, 2297
sphingolipid composition and catabolism in tissues, 3005
term; elective delivery as obstetrical hazard, 2780
trisomy 20 determined, 324
weight estimated by fetography, 887

Fever (*see also* **Convulsions, febrile**)
high, in infants; implications, 143
newborn infant; echovirus 5 in cerebrospinal fluid, 945

Fibrin
/fibrinogen degradation products; prenatal diagnosis of neural tube defects, 363, 1207

Fibrinogen
/fibrin degradation products; prenatal diagnosis of neural tube defects, 363, 1207
hyperfibrinogenemia; polycythemia and intrauterine growth retardation in fetal lambs, 1073

Fibroblasts
cofactor requirement and complementation in maple syrup urine disease, 1095
cystinotic; factors controlling nonprotein cystine content of, 2996
human beta-glucuronidase uptake; animal model for enzyme replacement studies, 2157
I-cell; cyanidanol effects on lysosomal enzymes, 347
methylenetetrahydrofolate reductase activity in inborn errors of folate metabolism, 2123
multiple ectoglycosyltransferase abnormalities in mucolipidosis 2, 2121
phenylketonuria phenotype detectable in, 257
trisomy 8 restricted to cultured, 2221

Financial management
special education; Iowa, 3359, 3361
special education; zero-based budgeting, 1611

Financing government
MR (1975), 1776

Fish odor syndrome: *see under* **Amino acid metabolism, inborn errors**

Flucloxacillin: *see under* **Cloxacillin**

Flucytosine
and amphotericin B in *Candida albicans* meningitis, 981
Candida albicans meningitis in premature infant, 1972

Fluorescent antibody technique
for herpesvirus hominis in tuberculous meningitis, 117
virus antigens in cerebrospinal fluid detected by immunofluorescence; herpesvirus hominis, 1874

5-fluorocytosine: *see* **Flucytosine**

Folate: *see* **Folic acid**

Folic acid (*see also* **Folic acid deficiency**)
defective metabolism in fetus and malformations, 2269
influence on birth weight and growth in fetal erythroblastosis, 2045, 2046, 2047
methylenetetrahydrofolate reductase in cultured human cells, 2123

methylenetetrahydrofolate reductase deficiency; genetic and biochemical studies, 2124
multiple abnormalities, 1882

Folic acid deficiency (*see also* **Folic acid**)
in intravenous nutrition, 2031
and neural tube defects, 2244, 3124

Fontogram: *see under* **Technology, medical**

Food
physical and social environment for feeding SMR and PMR, 2733

Food additives
hyperkinesis, 2072, 2911
hyperkinesis and learning disabilities, 2071

Foster home care
abused children; long-term placement, 2926
MR, 3500
MR; characteristics of caregivers, 3524
MR, institutionalized; variables affecting placement, 3518
MR; obtaining consent of natural parents for placement, 755
MR; recruiting techniques, 3490

Fructose intolerance: *see under* **Carbohydrate metabolism, inborn errors**

FSH releasing hormone: *see* **LH-FSH releasing hormone**

Fucosidase
alpha-L; genetic control, 2136
alpha-L; skin fibroblast and amniotic fluid cell assay, 2126

Fucosidosis: *see under* **Metabolism, inborn errors**

Full Service Model Program: *see under* **Education, special**

Furosemide
bilirubin displacement from albumin by, 2053

Galactosemia
with *Escherichia coli* sepsis in newborn infants, 2852
false-positive screening, 1103
galactose-1-phosphate uridyltransferase and galactokinase activity in fetus, 2173
increased intracranial pressure, 2172
prenatal diagnosis, 1102

Gamma globulins
intravenous, with Fc activities in agammaglobulinemia, 2897

Ganglia
human trigeminal; isolation of herpes simplex virus, 2821

Gasoline
sniffing and cerebellar dysfunction, 1933

Gastric juice
foam stability test in respiratory distress syndrome, 2302

Gastric mucosa
gastric acid secretion in protein-calorie malnutrition, 2103

Gastroenteritis
in children; human reovirus-like infection in adult contacts, 1904
chronic, and marasmus in pyogenic meningitis, 1905

Gastrointestinal system
influenza A2 virus infections in young children, 2022

Gaucher's disease
Gaucher cells isolated from bone marrow, 2166
neuropathic, with normal 4-methylumbelliferyl-beta-glucosidase liver activity, 2991
treatment with liposome entrapped glucocerebroside: β-glucosidase, 2160

Gel diffusion tests
for estimating placental lactogen in pregnancies at risk, 882

Genetic counseling, 43, 62, 776, 845, 846, 855, 863, 1845, 1846, 1848, 2768, 2771
allied health personnel, 1738
appraisal, 848
Bayes theorem, 864
changing patterns in clinic, 853
continuing medical education (physicians and allied health personnel), 1533
counselors' attitudes to parents' desire to choose sex of their babies, 852
deafness, 862
Down's syndrome; factors influencing response, 851
evaluation, 854
families with syndromes associated with cleft palate, 3053
future needs, 867
genetic registers, 61
Hunter's syndrome, 48
linkage information, 866
malpractice suit for failure to provide, in Tay-Sachs disease, 2770
multiple abnormalities, 859
phenylketonuria, 1080
prevention of MR, 2764
by primary care physicians, 2769
psychological stress; coping process, 857
recurrence risk estimates, 865
regional program; community response, 850
review and critique of published studies, 847
role of social sciences, 856
spina bifida, 345
traveling genetic clinic; patient and physician response, 849
trisomy X, 3067
X-linked disorders, 861

Genetic disorders: *see* **Hereditary diseases** *and* **specific syndromes**

Genetic registers: *see under* **Genetic counseling**

Genetic screening (*see also* **Prenatal diagnosis**), 45
for Tay-Sachs; carrier and non-carrier attitudes, 876

Genetic technics
pedigree description and analysis method, 2765

Genetics
environmental mutagens, 1942

Genetics, behavioral
environmental indices for human behavior genetic analysis, 3235

Genetics, human, 3022
allelic restriction model for inherited congenital abnormalities, 360
alpha-L fucosidase, 2136
birth control and genetic changes in Chile, 34
Canadian College of Medical Geneticists, 1783
cytogenetic studies, 792
damage from diagnostic radiation, 3090, 3091
diagnosis of disorders with negative family history, 1173
dyslexia; segregation analysis, 3231
and euphenic nutrition in restoring disequilibrium between genotype and environment, 3445
handicapped, 2756
mapping genetic loci, 3079
mental defect study, 3050
minimal brain dysfunction, 2920
MR, 2752
MR, and genetic disorders, 3023
teaching in medical schools and hospitals, 1532
tuberous sclerosis, 2942
twins and siblings; concordance for school-age mental development, 3236

Genitalia
ambiguous, in Russell-Silver syndrome, 3116
ambiguous, in XX male children, 3045
herpesvirus hominis, type 1, 1901

Genitalia, female
abnormalities from thalidomide, 111

Genitalia, male
abnormal, in hydantoin embryopathy syndrome, 3106

Gentamicin
and ampicillin in group B streptococcal infections, 937
effect on bilirubin binding in hyperbilirubinemic newborn infants, 1008
effect on bilirubin binding in neonatal serum albumin, 1009

Georgetown Adolescent Intervention Team: *see under* **Juvenile delinquency**

Georgia Regional Institute of Social Welfare Research, 1666

Geriatrics
mental retardation, 6

Gestational age
definition of perinatal mortality, 868

Gesture Language Program: *see under* **Language development**

Gigantism
Beckwith-Wiedemann syndrome, 1069
Beckwith-Wiedemann syndrome; cardiovascular abnormalities, 3125
Beckwith-Wiedemann syndrome; hypertension and medullary sponge kidneys, 1068
cerebral; dominant inheritance, 2105
cerebral; hepatocarcinoma, 381
cerebral; somatomedin activity, 2116

Gilles de la Tourette's disease
purine phosphoribosyltransferase involvement, 304

Glioma
brain-stem; 13-year survival of untreated child, 2100

Globoid cell leukodystrophy: *see* **Leukodystrophy, globoid cell**

Glomerulonephritis
acute post-streptococcal, in thalassemia, 190

Glucagon
concentrations in small-for-gestational age infants; oral glucose and protein load effects, 3127

Glucocorticoids
prenatal injection effect on hypoglycemia in newborn rats with intrauterine growth retardation, 2048
respiratory distress prevention in premature infants, 3151

Glucose
continuous intravenous infusion in Down's syndrome, 1029
effects on plasma glucagon and insulin concentrations in small-for-gestational age infants, 3127
homeostasis in preterm rhesus monkey neonates, 2893
low cerebrospinal fluid, with *Mycoplasma pneumoniae* meningoencephalitis and transverse myelitis, 140
low concentrations in amniotic fluids from anencephalic pregnancies, 3114
maternal intolerance and neonatal blood sugar levels, 185
production rate in newborn infants of insulin dependent diabetic mothers, 175

Glucose, blood: *see* **Blood sugar**

Glucosephosphatase deficiency
glucose-6-phosphate activity in placenta; possible detection of heterozygote for, 1104
pathogenesis of hyperuricemia, 2959

Glucosephosphate dehydrogenase deficiency
aggravating factor in infectious hepatitis, 1927
in ethnic groups in Israel, 2988
in kernicterus, 186

neonatal jaundice in Greek infants, 2052
in neonatal jaundice; phototherapy, 1016

Glucuronidase
human beta-; animal fibroblast uptake studies, 2157
human beta-; animal organ uptake studies, 2156

Glutaric aciduria: *see under* **Metabolism, inborn errors**

Glutethimide
maternal addiction to, and withdrawal symptoms in newborn infant, 2001

Glycine
encephalopathy; glycine cleavage enzyme system, 2155

Glycogen storage disease type 1: *see* **Glucosephosphatase deficiency**

Glycoproteins
beta 1, in maternal blood, and intrauterine growth retardation, 2115

Goldenhar's syndrome, 3117

Gonadal dysgenesis: *see* **Turner's syndrome**

Gonadotropins, chorionic
test before surgery for bilateral cryptorchism, 2271

Gonadotropins, pituitary
deficiency in pre-pubertal males, with variable X-linked recessive hypopituitarism, 1094

Gonads
findings in X/XXX mosaicism, 3062
XY absence syndrome; pseudohermaphroditism, 2264

Gonorrhea
secondary to fetal monitoring, 1938

Goodwin's high-risk score: *see under* **Fetus**

Government
programs for MR; administrative problems, 1624

Grief
reaction in MR; management, 1394
reaction of parents of MR; counselor's role, 746

Group processes
group decision-making by MR adults, 3203

Group therapy: *see* **Psychotherapy, group**

Growth
of low-birth-weight infants receiving intensive care, 2341
patterns of stature and extremities; longitudinal study, 1120
postnatal, of 1.3kg-birth-weight infants; effects of metabolic acidosis, caloric intake, and calcium sodium and phosphate supplementation, 1071
stimulation of premature infant, 451

Growth disorders
atypical fetal growth patterns and postnatal growth, 234
idiopathic growth hormone deficiency; etiology, 3009
somatotropin-deficient children; improved micellar dispersal of dietary lipid by bile acids during replacement therapy, 2101
spondyloepiphyseal dysplasia congenita, 235

Growth hormone, pituitary: *see* **Somatotropin**

Growth retardation, intrauterine: *see* **Fetal growth retardation**

Haemophilus infections
ampicillin-resistant; epidemiology of, 932
pneumonia; ampicillin resistance, 1969
type b; countercurrent immunoelectrophoresis in diagnosis of, 1802
type b; incidence in infant day care center, 2878
type b meningitis; cortical blindness following, 2011
type b sepsis in infant and mother, 158
type b; spread within family, 964
type f meningitis, 1921

Haemophilus influenzae
rapid detection of chloramphenicol resistance, 2832
test for beta-lactamase producing strains, 909
type b; beta-lactamase test for detecting ampicillin-resistant strains, 931

Hair
lead content, in children, 925
root examination in protein-calorie malnutrition, 822
root examination in screening and diagnosis of Tay-Sachs disease, 1090

Hajdu-Cheney syndrome: *see under* **Abnormalities, multiple**

Haloperidol
hyperkinesis, 670
neurologic side effects, 3169

Halothane
hepatitis; hepatic coma treatment with hemocarboperfusion, 1924

Hamartoma
midline, confused with meningomyeloceles or teratoma in newborn infant, 1189

Hand
pattern profile analysis; new diagnostic tool, 2742
simian and Sidney palmar creases in hyperkinesis, 1039

Hand-foot syndrome: *see under* **Thalassemia**

Handedness: *see* **Laterality**

Handicapped
academic reinforcement through aquatics, 1425
adolescents; clinical group work, 1608
adolescents; training program, 1548

advocacy and politics, 1637
American Association for the Education of the Severely/Profoundly Handicapped, 1467
art therapy, 1566, 3447
attachment behaviors in infants, 3253
assessment; parent role, 750
attitude of employers toward hiring, 1563
boating activities, 1704
change model for formation of individualized education programs under Education for All Handicapped Children Act (Public Law 94-142), 3544
child abuse, 203
child development; interactional model, 1361
Child Find projects, 3486
children, American Indian; educational program, 1437
children; antecedent and contingent modeling by parents, 3520
children; applied behavior analysis in treatment of mealtime tantrums and delay in self-feeding, 3413
children with behavior disorders; educational personnel training program, 2517
children in Head Start staff training models, 2695
children; national planning conference on non-discriminatory assessment, 3288
children; parent attitude workshop, 748
children, preschool; normalization through day care, 3494
children; residential facilities, 2663
children; sensory environment constructed by architecture students, 2730
children and youth; community health services survey, 2628
Civilian Health and Medical Program of the Uniformed Services, 2663
classroom assessment and prescription, 643
community health and mental health services, 1639
competitive swimming programs, 1703
continuing education programs, 1516
counseling parents, 2684, 2687, 2691, 2692, 2699
Court Committee on Child Health Services Report, 800
deinstitutionalization, 1666, 2489
delivery of health services, 701
delivery of health services; ecological model, 1578
early childhood programs, 2632
early intervention programs, 611
early intervention programs; nonhandicapped peers as educational and therapeutic resources, 50
early intervention programs; resource guide, 1652
education, 1481
educational diagnosis, 640
Education for All Handicapped Children Act (Public Law 94-142), 1439, 1634, 2615, 2616, 2618, 2627, 3352, 3457, 3470, 3471, 3472
educational media and materials, 1438
education costs in New York City, 2496
education; Headstart, Economic Opportunity, Community Partnership Act of 1974, 1612
education and service programs, 1418
emotionally, or mildly MR; rural program, 1366
federal commitments to vocational education and employment, 3465
federal programs for training educators, 1613
fostering positive attitudes toward, in regular classroom, 3363
free public education; class action suit in California, 3452
funding priorities and the impact of Public Law 94-142, 2618
gifted, handicapped, disadvantaged, and underachievers; bibliography, 2716
guide to social services, 3459
Handicapped Children's Early Education Program, 1504
Head Start recruitment guide, 3482
human genetics, 2756
industrial arts education, 2499
infant; development of motor behavior, 1281
infant; home-based early intervention, 1591
infant; Total Milieu Approach Program, 2757
Intra-Community Action Network (ICAN) system, 1641
learners; speech pathologist's role, 1574
learning activities for the young child, 1430
least restrictive, most appropriate educational program, 3323
as leisure class, 742
mainstreaming, 1506, 2531, 2532
mainstreaming; Chapel Hill Model for training Head Start personnel, 3375
mainstreaming in community and school swimming programs, 1711
mainstreaming strategies, 633
mainstreaming vocational education in California secondary schools, 2500
mentally and physically; electronic devices, 3411
mentally and physically; physical education, 3497
mentally and physically; short-stay facility, 3492
mentally and physically; societal attitudes toward, 3249
Meyer Children's Rehabilitation Institute, 2664
Mildly Handicapped Program; teacher training model, 1469
mildly; intervention strategies for mainstreaming, 3330
mildly; mainstreaming at secondary level, 1450
modification of regular vocational programs and development of applicable curriculum materials in Wisconsin, 3404
motor skill assessment, 450
museum exhibit depicting needs, 2713
National Center for Law and the Handicapped, 1633
Navajo tribe; deinstitutionalization, 1448
neurologically; ANSUA (Australia) programs, 2552
parents and siblings of, as co-therapists, 2558
perceptually; guidebook for teaching children, 1511
physical therapy and vocational rehabilitation, 1586
physically; education, 606
physically; health education literature for parents, 3519
planning future programs for parents, 2685
pre- and post-semester attitudes of students in special education classes, 3343
preschool children; affective behavior, 2420, 2421
preschool children; certification for teachers of, 1483
preschool children; play behavior and social interaction with nonhandicapped children, 1362
preschool children; integrating with nonhandicapped, 693
preschool children; Lexington Developmental Scale, 595
preschool children; representation in Head Start, 694
preschool children; teacher training program, 2468
preschool children and their families; training pedia-

tricians for effective involvement, 3364
preschool curriculum guide, 3376
preschool education project evaluation, 1431, 1432
Project KIDS model program, 3334
psychoeducational appraisal, 632
receiving special education; family counseling by teachers, 753
recreation, 743, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674
Region IV Head Start Program, 1507
rehabilitation, 1625
resource rooms and itinerant teaching, 2478
respiratory emergencies and artificial respiration, 1570
right-to-education movement, 1433
rural preventive special education service, 3341
school curriculum; Lee Deeg's Wurzburger Lehrplan, 3319
school placement; legal and ethical considerations, 1632
selective bibliography, 2731, 2732
severely; Adult Developmental Activity Program, 3405
behavior analysis, 1398
severely; education and services in Madison, Wisconsin secondary schools, 2504
severely; establishing services in public schools, 2631 2631
severely; identifying competencies in teachers, 1529
severely; motor skills curriculum, 1527
severely predictive value of infant intelligence scales, 600
severely and profoundly; special education, 3309
severely; selected bibliography on educating children and youth, 3380
severely and multiply; bibliography, 2724, 2725
sexual counseling, 587
social acceptance by nonhandicapped preschool children, 1365
social services through Title 20 of Social Security Act (Mississippi), 3460
special education, 1480
special education; curriculum design, 3333
special education; educational radio broadcast, 1508
special education expenses; bill to amend IR Code of 1954, 2471
special education; Full Services Model Program, 1509
special education; learning resources, 3300
special education; legal reforms, 2520
special education; Montessori approach, 3342
special education; in Oregon, 2469, 2470
special education; services delivery system model, 3329
swimming benefits, 1706
swimming instruction, 1571, 1702, 1707, 1708, 1709
swimming instruction; facilities and equipment, 1710
swimming instruction; movement exploration approach, 1572
swimming instruction; program personnel and training procedures, 1733
swimming techniques manual, 1705
teacher attitudes toward regular classroom integration of, 2459
teacher training, 644, 1407, 2463
teaching associates, 1470
teaching in least restrictive environment; teachers' manual, 3368
"vaccine victims"; government compensation, 1759
vocational education, 3399, 3401
vocational education; needs assessment, 3397
vocational instruction; model training plans, 2521
vocationally oriented school planning, 3403
vocational rehabilitation, 2546
young children; toy play curriculum, 2535

Handicapped Children's Early Education Program: *see under* **Handicapped**

Handwriting
minimal brain dysfunction; methylphenidate effects, 2083

Hartnup disease
New South Wales, Australia, 2152

Head
-banging in SMR; behavior therapy, 2577
circumference in hypothyroid children, 1097
circumference; index of brain weight in fetus and newborn, 3171
circumference measurements in newborn infants, 446
growth velocity during perinatal period, 2344
maximum growth rate in low-birth-weight infant; factors influencing timing, 2345
postnatal shrinkage in small infant, 1226

Head injuries
acute posterior fossa epidural hematoma following, 217

Head Start: *see under* **Education, special**

Health education
literature for parents of physically handicapped children, 3519

Health services (*see also* **Child health services; Community health services**)
MR rights; hospital and community care and treatment, 3410
personnel structure effects on patient treatment, 3526

Hearing
sensitivity in MR; prediction from acoustic reflexes, 458

Hearing disorders
early infantile autism, 2342

Hearing tests, 1287
Minimal Auditory Intensity Differential, in learning disorders, 1297

Heart (*see also* **Fetal heart**)
slowing, apnea, and REM sleep influenced by phenobarbital in newborn infant, 958

Heart block
during parenteral feeding, from misplaced catheter, 2329

Heart defects, congenital
in Down's syndrome, 330
from maternal anticonvulsant use, 307

Heller's syndrome
neuroendocrinological studies, 448

Hemangioma
hereditary cutaneous, with spinal arteriovenous malformation, 2259
thrombocytopenia syndrome; surgical excision, 384

Hematoma, epidural
acute posterior fossa, following head injury, 217

Hematoma, subdural
following breech delivery, 1042

Hemoglobin
alpha chain deficiency in Black children with hemoglobin Barts, 2892

Hemoglobinopathies
prenatal diagnosis, 1018

Hemolytic disease of newborn: *see* **Erythroblastosis, fetal**

Hemoperfusion
hepatic coma treatment; halothane hepatitis, 1924

Hemorrhage
acute, in nephroblastosis, 1053
adrenal gland, producing neonatal hyperbilirubinemia, 1025
intracerebellar, massive, in low-birth-weight infant, 398
intracerebellar, in very low-birth-weight infant, from positive pressure ventilation, 387
intracranial; diagnosis in infant using computerized tomography, 835
intracranial, in kittens; experiment on etiology of hyaline membrane disease, 402
intraventricular; in respiratory distress syndrome, 434, 1244
intraventricular; timing of, in low-birth-weight preterm infants, 3143

Hemorrhagic disease of newborn
vitamin K prophylaxis, 1005

Hemothorax
respiratory distress in newborn infant, 1249

Hepatic coma
halothane hepatitis; hemocarboperfusion treatment, 1924
Reye's syndrome; hypothermic total body washout and intracranial pressure monitoring in stage 4, 1990, 1991

Hepatitis (*see also* **Hepatitis A; Hepatitis B**)
and *Campylobacter fetus* septicemia in child with agammaglobulinemia, 2012
chickenpox, and Reye's syndrome, 1926
chronic active, and Wilson's disease, 2163, 2998
and extrahepatic biliary atresia in newborn infants; serum bile patterns, 2059
fulminant, in Wilson's disease, 2990
maternal, and fetal outcome, 2004

Hepatitis A
antibody in institutionalized MRs, 1903, 2880
with excessive hyperbilirubinemia; glucose-6-phosphate dehydrogenase deficiency, 1927

Hepatitis B
neonatal, 1922

Hepatitis, infectious: *see* **Hepatitis A**

Hepatoadrenal necrosis: *see under* **Adrenal glands**

Hepatobiliary disease: *see* **Biliary tract diseases**

Hepatolenticular degeneration, 255
and chronic active hepatitis, 2163, 2998
corneal copper quantitation, 246
dermatoglyphics, 243
fulminant hepatitis, 2990
hemolytic anemia in, with transient increase in hemoglobin A_2, 2999
heterogeneity in Israel, 2997
intravascular hemolysis and acute liver failure, 3000
D-penicillamine-induced IgA deficiency, 255
penicillamine treatment during pregnancy, 273
screening method, 877

Hereditary diseases (*see also* **specific diseases**), **359**
epidemiology, 786
family planning, 858
and MR, 338
national genetic-disease program, 69
prenatal diagnosis, 31, 810
X-linked disorders; genetic counseling, 861

Hermaphroditism
serologic detection of Y-linked gene, 328

Heroin addiction
maternal; cytogenetics of mothers and their newborn infants, 3093
and methadone; differential effects of maternal use on birth weight, 130

Herpes simplex
adenine arabinoside derivative, 1966
after blow-out fracture; activation hypothesis, 76
corticosteroid responsiveness, 82
disseminated, with hepatoadrenal necrosis in lymphocytic leukemia, 948
encephalitis; adenine arabinoside, 2021
encephalitis, brain-stem, 992, 1948, 2823
encephalitis; characteristic EEG changes, 2824
encephalitis, with cytomegalovirus infection and myoclonus, 1910
encephalitis in newborn infant; multicystic cerebral degeneration, 924
experimental; antigens in cerebrospinal fluid detected by immunofluorescence, 1874
functional adequacy of antibody-dependent cellular cytotoxicity in newborn infants, 999
genital, 134
genital; cesarean section, 148, 921
levamisole failure, 1965
in meningeal tuberculosis; false-positive immunofluorescence test, 117

photodye therapy; Bowen's disease, 1902
prostaglandin role in recurrence, 93
recurrent, 168
type 1; genital herpes, 1901
type 2; encephalitis, 985
vidarabine, 1894

Herpes simplex virus: *see* **Herpesvirus hominis**

Herpesvirus hominis
compared to varicella zoster viruses, 112
isolated from human trigeminal ganglia, including ganglia from a multiple sclerosis patient, 2821
and rubella in pregnancy; antiviral effect of amniotic fluid, 1876
type 2; titration of specific antibodies in human sera with enzyme-linked immunosorbent assay, 2825

Herpesvirus hominis infections: *see* **Herpes simplex**

Heterozygote
advantage in phenylketonuria, 2129, 2993
detection in phenylketonuria, 2973

Hexachlorophene
staphylococcus control in newborn infants, 2013
storage and encephalopathy in a burn patient, 1047

Hexoprenaline
treatment of acute fetal distress, 3156

Hexosaminidases
phenotype indicators, 1084

Histidinuria: *see under* **Amino acid metabolism, inborn errors**

Histiocytes
foamy and sea-blue, in Niemann-Pick disease, 264

Histiocytosis X, 2250

History
special education, Iowa, 3355, 3356

Home Observation for Measurement of the Environment Inventory, 603

Homeostasis
glucose, in preterm rhesus monkey neonates, 2893

Homocystinuria
cystathione synthase deficiency, 295
due to methylenetetrahydrofolate reductase deficiency; nonresponse to folic acid, 2986
platelet survival time, 238
pyridoxine therapy, 1108

Hormones (*see also* **specific hormones**)
during pregnancy, and congenital malformations, 354
exposure to progestogen/estrogen and congenital abnormalities, 361
pregnancy tests and congenital limb-reduction defects, 151
pregnancy tests and multiple abnormalities, 357

Hospital personnel
increased risk of spontaneous abortion, 3170

Hospitals
virus cross-infections in children's wards, 87

Human experimentation
medical ethics, 1, 2

Human growth hormone: *see* **Somatotropin**

Human rights
of developmentally disabled; Pueblo State Home and Training School Ethical Review Board, 1691
guardianship and protective services for MR, 1758

Hunter's syndrome: *see* **Lipochondrodystrophy**

Huntington chorea
impaired prolactin release and dopaminergic excess, 2090
platelet uptake of dopamine and 5-hydroxytryptamine, 2095

Hurler's disease: *see* **Lipochondrodystrophy**

Hyaline membrane disease (*see also* **Respiratory distress syndrome**)
acidosis at birth in premature infants, 425
continuous positive airway pressure, 2328
continuous positive airway pressure and positive end-expiratory pressure, 436
epidemiology, 428
and group B streptococcal infection in newborn infant, 969
hyperoxia, pulmonary superoxide dismutase activity, and role of plasma or serum, 430
intracranial hemorrhages in kittens; hypernatremia versus hypoxia, 402
and neonatal cerebral intraventricular hemorrhage in respiratory distress syndrome, 1244
in newborn infant, 1242
in premature infant, 3163
in premature infant; pulmonary pseudocysts and continuous distending airway pressure, 1251
prevention with plasminogen, 3147
yellow hyaline membranes, 411, 413

Hydantoins
fetal hydantoin syndrome, 72, 89, 3106
fetal hydantoin syndrome and glaucoma, 149
fetal hydantoin syndrome and neuroblastoma, 125
growth deficiency in fetal syndrome, 1987
as teratogens, 1985, 1986

Hydroamnios
oligo-, in intra-abdominal pregnancy, 351
oligo-, with renal dysplasia and esophageal atresia, 349

Hydranencephaly
gyrated scalp associated with, in newborn infant, 1181

Hydrocephalus
congenital; amniotic fluid alpha fetoprotein, 355
diagnosis; quantitative estimation of intraventricular pressure vs. computerized tomography, 2748
epidemiology, 353

gram-negative cerebrospinal fluid shunt-associated infections, 1201
with progressive focal motor deficits secondary to porencephalic diverticulation of lateral ventricle; early diagnosis, 2947
reovirus type 1; pathogenesis, 2831
sex-linked, 3111
transient; isosorbide, 350
transient; lumbar peritoneal percutaneous shunt, 358
transient, in premature infant; lumbar puncture treatment, 1597
with X-linked aqueductal stenosis, 1182

Hydrocortisone
effects on lecithin/sphingomyelin ratio, 1255, 3159
fetal lung maturation index, 410
in vitro metabolism by the human placenta, 2811
in meconium aspiration syndrome, 437
respiratory distress syndrome prevention, 2324
vs. betamethasone for acceleration of fetal lung maturation in premature labor, 2316

Hydro-lyases
cystathionine beta-synthase deficiency; vitamin B_6 therapy, 2958

Hydroxycholecalciferols
1,25-dihydroxycholecalciferol; metabolic fate in hypothyroidism, 269
1,25-dihydroxycholecalciferol; therapy in hypoparathyroidism, 2149
1α-hydroxyvitamin D in neonatal hypocalcemia, 2147

Hydroxyindoles
5-, endogenous total; levels in early infantile autism, 550

5-Hydroxytryptamine: *see under* **Serotonin**

Hydroxytryptophan
5; myoclonus in children with elevated serotonin levels, 300

1α-hydroxyvitamin D: *see under* **Hydroxycholecalciferols**

Hydroxyzine
withdrawal syndrome in newborn infant, 922

Hyperactivity: *see* **Hyperkinesis**

Hyperarginemia: *see under* **Amino acid metabolism, inborn errors**

Hyperbilirubinemia, neonatal: *see* **Jaundice, neonatal**

Hyperdibasicaminoaciduria: *see under* **Amino acid metabolism, inborn errors**

Hyperfibrinogenemia: *see under* **Fibrinogen**

Hyperglycemia
nonketotic, in newborn infant; Leucovorin therapy failure, 297

Hyperkinesis (*see also* **Brain damage, chronic; Learning disorders; Minimal brain dysfunction**), **197, 198, 202, 654, 655, 2073, 2609, 2914, 2919, 3267, 3446**
activity level patterns in Ritalin responders and nonresponders, 2912
behavior problems in preschoolers, 564
behavior therapy, 650, 658, 2601
bibliography, 2913
brain waves and perception, 2907
caffeine effect on reaction time in children, 2068
classroom observation technique, 2916
comprehensive treatment, 681
current medical practice, 209
dextroamphetamine, 660
dextroamphetamine effects in dogs, 2917
dextroamphetamine and methylphenidate effects on growth hormone secretion, 206
dextroamphetamine; urinary catecholamine metabolites, 1045
diet therapy, 200, 201, 652
drug therapy, 651, 678, 679, 1575, 1593, 2915, 3448
drug therapy; effects on growth, 1048
education, 630
Feingold diet, 1040
food additives, 2071, 2072, 2911
haloperidol, 670
and learning disability, 2369
medication to enhance concomitant psychotherapy or behavior therapy, 3242
methylphenidate, 206, 660, 670, 682, 1569, 1596
methylphenidate effect on learning ability, 2078
methylphenidate with or without thorazine, 659
neurologic examination, 1046
and nonhyperkinetic boys; longitudinal study, 2918
organic factors, 207
perceptual and cognitive factors, 479
pharmacologic management, 2077
Physical and Neuerological Examination for Soft Signs (PANESS), 3286
in preschool children; behavior therapy, 2555
rating scale; validity and norms, 3267
reflection-impulsivity and information processing, 199
simian and Sydney palmar creases, 1039
SMR; behavior therapy, 2570
symptoms and socioeconomic status-related factors, 210
teacher and physician ratings compared, 2074
teacher's role in the use of medication, 1583
thioridazine with or without methylphenidate, 659
transactional analysis, 667

Hyperoxia: *see under* **Lung**

Hyperparathyroidism
maternal primary, in pregnancy; parathyroidectomy, 3002
primary; autosomal dominant inheritance, 294

Hyperphenylalaninemia: *see under* **Amino acid metabolism, inborn errors**

Hyperserotonemia: *see under* **Serotonin**

Hypertension
and medullary sponge kidneys in Beckwith Wiedemann syndrome, 1068

Hypertension, portal
extrahepatic; multiple abnormalities, 2277

Hypertension, pulmonary
Down's syndrome and hypoxemia, 2214

Hyperthyroidism
detected in mass screening program for neonatal hypothyroidism, 2169
hypo-; defective parathyroid hormone, 1101
and juvenile lymphocytic thyroiditis; pathologic and immune factors, 950
in newborn infant, 949
in newborn infant; associated with hyperviscosity syndrome, 290
in newborn infant; attempted prevention, 1078, 1110
surgical treatment, 81, 258

Hyperuricemia: *see under* **Uric acid**

Hyperuricosuria: *see under* **Uric acid**

Hypervitaminosis: *see under* **Orthomolecular therapy**

Hypervolemia: *see under* **Blood volume determination**

Hypnosis
reduction of athetoid movement in cerebral palsied child, 3434

Hypocalcemia
idiopathic neonatal; magnesium sulfate therapy, 1091
neonatal; 12-hydroxyvitamin D therapy, 2147
neonatal; intrauterine exposure to anticonvulsants, 1895

Hypogammaglobulinemia: *see* **Agammaglobulinemia**

Hypoglycemia
in children in surgery, 282, 283
corticosteroids in dysmature rat pups; glucogenic amino acid utilization, 2125
in infant; nesidioblastosis and studies with somatostatin, 147
methylmalonic aciduria, 2143
neonatal, 260
neonatal; benzothiadiazides, 171
neonatal; continuous intravenous glucose infusion, 1029
neonatal; nesidioblastosis, 2994
neonatal; total pancreatectomy, 1014
in newborn rats with intrauterine growth retardation; effect of prenatal glucocorticoid injection, 2048
organic aciduria, and fatty-acid metabolic error, 2140
in small-for-dates newborn infants, 262

Hypogonadism
associated with elevated leuteinizing hormone levels and congenital abnormalities, 2246
hypergonadotropic, and cerebellar ataxia in 2 kindreds, 2939
hypergonadotropic, with Marinesco-Sjogren syndrome; linkage studies, 1180
hypogonadotropic, with Klinefelter's syndrome, 1167

Hypomelanosis of Ito: *see* **incontenentia pigmenti** *under* **Abnormalities, multiple**

Hypoparathyroidism
1,25-dihydroxycholecalciferol metabolic fate, 269
1,25-dihydroxycholecalciferol therapy, 2149
oculocraniosomatic neuromuscular disease, 2970

Hypophosphatasia
prenatal diagnosis, 245, 843

Hypopituitarism
and achondroplasia dwarfs; psychiatric aspects, 2976
variable X-linked recessive with gonadotropin deficiency, in two pre-pubertal males, 1094

Hypospadias
with cryptorchidism, 376
in twins, with cryptochidism and Wilms' tumor, 2281

Hypothyroidism, 2969
after radioiodine therapy of thyrotoxicosis, 253
congenital, and congenital adrenocortical hyperplasia in newborn infant, 276
congenital; early treatment and intelligence, 2127
congenital, in The Netherlands, 272
congenital rubella, 136
congenital; screening, 242, 256, 2131
congenital; serum thyrotrophin determination on day 5 of life, 2128
congenital; technetium 99m pertechnetate scans, 292
diagnosis during childhood, 287
diagnosis in early neonatal period, 2968
in Down's syndrome, 315, 3028
due to ectopy in siblings, 2971
head circumference in children with short stature, 1097
electroencephalography, 1093
neonatal; screening, 265, 277, 821, 2169
neonatal; thyroid function, 240
primary, in cystinosis, 2132
reverse triidothyronine in screening, 271, 281
surgery, 280
temporary, after surgery for thyrotoxicosis, 258

Hypoxanthine phosphoribosyltransferase
genetic heterogeneity of, in fibroblasts of 3 families, 1085

Hypoxemia: *see* **Anoxemia**

Hypoxia: *see* **Anoxia**

Iatrogenic disease
beta thallassemia, 2025

I-cell disease: *see* **Mucolipidosis**

Idiot savant: *see under* **Mental retardation**

Iduronidase
alpha-L, deficiency; Hurler's syndrome without, 2992

IgA
cord serum, in cytomegalovirus infections, 987
deficiency associated with presumptive +i(18p), 1138
deficiency, D-penicillamine-induced, in Wilson's disease, 255

IgB
deficiency in association with placental edema, 2141

IgM
cord blood, and congenital rubella, 913, 967

Ileum
atresia and ileocutaneous fistula following amniocentesis, 1804

Illinois Regional Resource Center Diagnostic Teaching Model: *see under* **Learning disorders**

Imipramine
in hyperkinesis; effects on growth, 1048

Imitative behavior
in MR, 1393

Immunity
depressed, in protein-calorie malnutrition; alterations in lymphocytes, 1074
factors in juvenile lymphocytic thyroiditis and hyperthyroidism, 950
offered by recombinants of influenza virus, 2859

Immunity, cellular
Down's syndrome, 3031
impaired, during pregnancy; antiviral effect of amniotic fluid, 1876
impaired, in newborn infant; physiologic basis, 1907
specific defect, in active cytomegalovirus infection of young children and their mothers, 1887
specific defect, in congenital cytomegalovirus infection, 1900

Immunization
accessibility for developmentally disabled children in public clinics, 801
adverse reactions in children, 2873
in children; procedures, 2867
cytomegalovirus, 912
measles; epidemic after, 1891
rubella; adolescent females, 2003, 2843
status of MR children, 802

Immunodiffusion: *see* **Gel diffusion tests**

Immunoelectrophoresis
countercurrent, in diagnosis of *Haemophilus influenzae* type b infection, 1802

Immunofluorescence technique: *see* **Fluorescent antibody technique**

Immunogenetics
etiology of eclampsia/pre-eclampsia, 1979

Immunoglobulins
anti-Rh(D) in amniocentesis for pregnant mothers, 828
anti-Rh_0(D); method for estimating amount for postpartum mother, 2895
cerebrospinal fluid; cryptococcal meningitis, 1918
measles virus-specific response in subacute sclerosing panencephalitis, 1875
Rh, in Rh-hemolytic disease, 1013

Immunologic deficiency syndromes
acrodermatitis enteropathica, 233
adenosine deaminase deficiency; enzyme replacement therapy, 284
chronic progressive poliomyelitis, after vaccination in immunodeficient child, 1968
infant intellectual and social development following protective isolation, 511
nucleoside phosphorylase and adenosine deaminase deficiencies, 285
purine nucleoside phosphorylase deficiency, 237

Immunologic techniques
ataxia telangiectasia, aberrant form, 1204
detection of phenylalanine hydroxylase in phenylketonuria, 259

Immunology
Down's syndrome, 3032
immunoparesis and outcome in measles, 1881
Lesch-Nyhan syndrome, 244
studies and antibody studies in early infantile autism and virus isolation, 553

Immunosorbent technics
titration of herpes simplex virus type 2 specific antibodies in human sera, 2825

Immunosuppression
anticonvulsant effects in epileptics, 310
autism; depressed lymphocyte responsiveness, 2844
measles encephalitis in children with, 991

Immunosuppressive agents
maternal use and fetal growth retardation, 2109

Incest
and MR, 2775

Income
maintenance in MR and developmental disabilities, 1623

Incontinentia pigmenti: *see under* **Abnormalities, multiple**

Indians, North American
handicapped children; educational program, 1437

Indomethacin
respiratory distress syndrome; randomizing the first patient, 1258

Infant (*see also* **Infant, low birth weight; Infant, newborn; Infant, postmature; Infant, premature; Infant, small for gestational age**)
ampicillin-sensitive bacteremia; ampicillin-resistant, *Haemophilus influenzae* meningitis following, 968
antibody response to meningococcal vaccination in pregnancy, 1997
apnea; respiratory syncytial virus infection, 1257
apnea; theophylline, 1595
beta hemolytic group C infection in horse and, 971
brain damage secondary to Coxsackie infection, 1885
Brookline Early Education Project, 2722
choanal atresia; glossoptosis as cause of apneic spells, 1243
congenital cytomegalovirus infection; transfer-factor treatment, 2836
cytomegalovirus infection; convulsions, 135

cytomegalovirus infection and immunodeficiency, 2837
cytomegalovirus pneumonitis, perinatally acquired, 101
developmentally delayed; object-construct intervention, 3316
diagnosis of intracranial hemorrhage, 835
early intervention program; Developmental Infant Program, 665
Epstein-Barr virus infection, 916
extrahepatic biliary atresia; management, 2040
group B beta-hemolytic streptococcal meningitis; sequelae, 1931
Haemophilus influenzae type b infection; incidence in day care center, 2878
handicapped; attachment to mother, 3253
handicapped; home-based early intervention, 1591
handicapped; Total Milieu Approach Program, 2757
hepatobiliary disease; alpha fetoprotein levels, 1829
high fever; implications, 143
at high risk for developmental disability; assessment system, 597
high-risk; intellectual consequences of early education intervention, 507
icteric, preterm and fullterm, treated by phototherapy; sister chromatid exchange, 3084
immunization failure in measles vaccination at 12 months, 951
immunocompromised, with penicillin-resistant pneumococcal meningitis, 2014
infectious illness during first year, 997
intellectual and social development following protective isolation, 511
intervention programs; continuous measurements, 3173
Listeria monocytogenes infection, 2849
long-term effects of dysfunctional labor, 895
low socioeconomic level; results of Bayley Mental Development Index, 3217
low socioeconomic level; stimulation program, 1552
malnourished; total parenteral nutrition, weight gain, and alkaline phosphatase serum levels, 225
maternal mental illness and birth outcome, 445
maximum neonatal serum bilirubin concentration and development during first year, 2034
measles vaccine, 2874
meningococcal bacteremia, 141
-mother interaction and early developmental outcome, 3259
-mother interaction; gender differences and cognitive development, 3218
of mother with malignant melanoma; chromosome abnormalities, 2217
mothers' verbal and nonverbal interaction with infants with and without Down's syndrome, 2412
multihandicapped; development of motor behavior, 1281
of non-Jewish ancestry, with familial dysautonomia, 444
normal and risk; language development, 1355
perinatal cytomegalovirus infection, 2020
perinatal mortality and induction of labor, 42
phenytoin disposition; pharmacokinetic observations, 2183
postnatal growth, 234
prenatal addiction; behavioral concomitants, 95
prolonged apnea during sleep, and sudden infant death syndrome, 2303
respiratory syncytial virus; circulating antibody and severity of infection, 1928
respiratory syncytial virus infection, 100
retrolental fibroplasia, 1210
seizure management, 675
severely handicapped; predictive value of intelligence scales, 600
subacute sclerosing panencephalitis, 944, 1983
transient hypogammaglobulinemia, 1033

Infant health services: *see* **Child health services**

Infant, low birth weight (*see also* **Infant, premature**)
absorption and retention of magnesium, zinc, and copper from breast milk, 2283
apnea; caffeine treatment, 1240
calcium/phosphate ratio in diet; absorption and endogenous fecal excretion of calcium, 2286
consequences in neonatal period and in later life, 3142
crystalline amino acid mixture for parenteral nutrition, 3130
device for reducing insensible water loss, 1225
effects of continuous calcium infusion to prevent neonatal hypocalcemia, 2153
effects of metabolic acidosis, caloric intake, and calcium, sodium, and phosphate supplementation, 1071
exchange transfusion, with and without respiratory distress syndrome, 399, 400
factors influencing timing of maximum growth rate of head, 2345
high-risk pregnancy, 1219
impact on parents during preschool years, 2680
improved prenatal care to reduce incidence of, 2763
intracerebellar hemorrhages from positive pressure ventilation, 387
massive intracerebellar hemorrhage, 398
maternal alpha fetoproteins; screening, 1231, 1232
maternal behavioral and medical variables, 3129
maternal malnutrition, 231
maternal smoking effects, 2797, 2798, 2801
milk protein intake, 1220, 1221
milk protein intake; effects on aliphatic amino acid levels, 1222
milk protein intake; effects on sulfur amino acid levels, 1224
milk protein intake; effects on tyrosine and phenylalanine levels, 1223
nasojejunal feeding and malabsorption, 1217
nutritional needs, 1064
phototherapy effects on growth, 1235
pneumoperitoneum, 3133
postnatal head shrinkage, 1226
pulmonary function after feeding, 3141
receiving intensive care; growth and development, 2341
respiratory distress syndrome; pulmonary function tests, 1234
retrolental fibroplasia and PaO_2 levels, 2337
significance of seizures, 3128
socioeconomic factors, 386
survival rates, 2282
timing of intraventricular hemorrhage, 3143
umbilical hernia and respiratory distress syndrome, 2289

urinary and fecal excretion of marker calcium (^{46}Ca), 2287
urine solute excretion, 1216
vitamin E deficiency, 2291
vitamin levels, 3139

Infant mortality
obstetric care, 1840
perinatal, definition; gestational age and birth weight, 868
premature infant, 395
rates in black infants vs. white infants of similar birth weight, 2290

Infant, newborn (*see also* **Infant; Infant, low birth weight; Infant, premature**)
abnormalities associated with maternal D-penicillamine treatment, 99
accelerated neurologic maturation in high-risk pregnancy, 3179
acute subdural hematoma following breech delivery, 1042
aminophylline transplacental toxicity, 1913
apnea; mechanism of airway obstruction, 1247
apnea; pathogenesis and therapy, 1241
auditory and visual defects resulting from symptomatic and subclinical cytomegaloviral and *Toxoplasma* infections, 2834
bacterial meningitis; gram-positive organisms, 1873
Bacteroides fragilis meningitis, 918
behavior, and regional obstetric anesthesia, 2855
betamethasone; differentiation of fetal organs and lung in the rhesus monkey, 2810
bilateral phrenic nerve palsy, 1237
bilirubin-binding capacity; influence of gestational age and clinical status, 2036
birth asphyxia; quality of survival, 3154
blood transfusion in respiratory distress syndrome, 433
breast-fed; failure to thrive, 227, 228
centronuclear myopathy causing severe respiratory distress, 1254
cholestasis in alpha-1-antitrypsin deficiency, 1022
citrullinemia; treatment, 676
coliform meningitis, 129
computerized transverse axial tomography, 1809
congenital adrenocortical hyperplasia and congenital hypothyroidism, 276
continuous positive airway pressure; effect on reflex control of respiration, 1236
craniosynostosis; subtotal calvariectomy, 2249
cytomegalovirus isolated from cerebrospinal fluid, 2835
defective; medical ethics, 783, 1793, 1795
diagnostic X-rays, 25
Di George syndrome in association with glioma, cytomegalovirus and ECHO virus, 2864
drug withdrawal symptoms; fetal alcohol syndrome, 1992
drug withdrawal symptoms; intrauterine exposure to diazepam, 164
drug withdrawal symptoms; maternal glutethimide addiction, 2001
drug withdrawal symptoms; maternal hydroxyzine hydrochloride, 922
drug withdrawal symptoms; maternal methadone ingestion, 1911, 2009
drug withdrawal symptoms; maternal narcotic dependence, 1955
drug withdrawal symptoms; urinary excretion of phenobarbital, 923
echovirus 5 in cerebrospinal fluid; fever, 945
echovirus 16, 2830
effect of direct and indirect fetal dexamethasone administration, 2804
effect of propranolol use during pregnancy, labor, and delivery, 972
electrocardiographic monitoring, 37
electroencephalography in hypothyroidism, 1093
enterovirus infections, 94
erythroblastosis fetalis; promethazine effect on immunologic function, 188
Escherichia coli meningitis associated with congenital tuberculosis, 2862
Escherichia coli meningitis from single K1 serotype, 163
Escherichia coli sepsis with galactosemia, 2852
fatal meningococcal meningitis from maternal *Neisseria meningitidis*, 1958
fatal pneumonia from echovirus 9, 2871
fatty acids of phospholipids in lung surfactant, 2308
floppy infant syndrome and maternal diazepam or nitrazepam, 1884
functional adequacy of antibody-dependent cellular cytotoxicity to herpes simplex viruses, 999
glucose levels; relationship to maternal glucose intolerance, 185
group B streptococcal infections, 1883, 2866
group B streptococcal infections and hyaline membrane disease, 969
group B streptococcal septicemia; radiographic findings, 990
gyrated scalp associated with hydranencephaly, 1181
Haemophilus influenzae; type B sepsis, 158
head circumference as index of brain weight, 3171
head circumference measurements, 446
head growth velocity, 2344
health insurance exclusion clause eradicated, in Ohio, 1787
Heimlich maneuver as an aid to endotracheal intubation, 3150
hemangioma thrombocytopenia syndrome; surgical excision, 384
hepatitis B, 1922
herpesvirus hominis encephalitis; multicystic cerebral degeneration, 924
hexachlorophene for control of staphylococcus, 2013
hydrops and respiratory distress associated with congenital heart block, 1215
hyperbilirubinemia; antibiotic effects on bilirubin binding, 1008
hyperbilirubinemia associated with parenteral alimentation, 1002
hyperbilirubinemia associated with phenol detergent, 184
hyperparathyroidism; autosomal dominant inheritance, 294
hyperthyroidism associated with hyperviscosity syndrome, 290
hyperthyroidism; attempted prevention, 1110
hypocalcemia after intrauterine exposure to anticonvulsants, 1895
hypocalcemia; 7α-hydroxy-vitamin D therapy, 2147
hypoglycemia, 260

hypoglycemia; continuous intravenous glucose infusion, 1029
hypoglycemia and nesidioblastosis, 2994
hypoglycemia in small-for-dates, 262
hypoglycemia; total pancreatectomy, 1014
hypothyroidism; screening tests evaluated, 265
hypothyroidism; thyroid function, 240
hypoxia and pulmonary vasospasm; tolazoline, 440
impaired cellular immunity; physiologic basis, 1907
inappropriate antidiuretic hormone secretion subsequent to pneumothorax or atelectasis, 2322
insulin-dependent diabetic mothers; glucose production rate, 175
intensive care units; electrocardiograph monitor artifacts, 1842
intensive care units; quality of survival, 1836
intracranial pressure assessment, 832
naloxone effects on pethidine-induced neonatal depression, 903, 904
jaundiced; phototherapy and lactase, 187
lack of phototherapy effects on oxygen dissociation curves and hemoglobin concentration *in vivo*, 1017
limb reduction anomalies after disulfiram treatment of alcoholic mothers, 2806
Listeria monocytogenes, 2848, 2851
Listeria monocytogenes infection in siblings, 2850
long-term neurobehavioral follow-up after fetal monitoring, 2758
mass screening for inborn metabolic errors, 1863
maternal anesthesia effects, 138
maternal diabetes; blood glucose and plasma amino acid concentrations, 2041
maternal drinking; congenital anomalies and growth and neurologic abnormalities, 2812
maternal drug use and bilirubin concentration, 126
maternal heroin addiction and methadone management; cytogenetics, 3093
maternal lithium carbonate levels and breast feeding, 960
meconium-stained; endotracheal aspiration, 432
membrane rupture in labor; blood acid-base balance at birth, 1043
meningitis from group C beta hemolytic streptococcus, 162
mepivacaine toxicity; ventricular tachycardia, 165
mercury poisoning, 2813
mercury poisoning from mercurochrome therapy of infected omphalocele, 2814
methylmalonic aciduria, 296
midline hamartomas confused with meningomyeloceles or teratomas, 1189
Mycoplasma central nervous system infections, 1993
naloxone reversal of narcotic respiratory depression, 1923
neck extensor hypertonia as indication of central nervous system insult, 2075
the neonatal surgeon and medical ethics, 768
nonketotic hyperglycemia; Leucovorin therapy failure, 297
normoblastemia associated with complex alpha-thalassemia-like syndrome, 1007
nosocomial infections; association with blood pressure cuff, 1971
palmar crease variants; clinical significance, 2734
parasagittal cerebral injury in hypoxic-ischemic encephalopathy, 2323
paregoric management of narcotic withdrawal syndrome, 905
pediatric surgery, 2723
persistence of fetal circulation syndrome, 408
pethidine effects, 85
phenytoin disposition; pharmacokinetic observations, 2183
pneumopericardium treatment, 443, 2321
posthemorrhagic ventricular dilation preceding rapid head growth, 2908
prevention of herpesvirus hominis infection, 148
propranolol effects, 973
pulmonary damage during resuscitation, 406
quality of care vs. mortality rate, 41
quantitative estimation of intracranial pressure vs. computerized tomography to diagnose hydrocephalus, 2748
relapsing *E. coli* K1 antigen meningitis, 1906
REM sleep, apnea, and cardiac slowing influenced by phenobarbital, 958
respiratory distress syndrome, 1242
respiratory distress syndrome; foam-stability test on gastric juice, 2302
respiratory distress syndrome; hemothorax, 1249
respiratory distress syndrome; lecithin/sphingomyelin ratio, 405, 407
respiratory distress syndrome; measurement of renal function, 1248
respiratory distress syndrome; neck mass, 1245
respiratory distress syndrome; phosphatidylglycerol absence in lung effluent, 2309
respiratory distress syndrome; pregnancy complications, 418
respiratory distress syndrome; shake test, 3157
rhesus monkey; bilirubin transport development and metabolism, 2055
risk of disease, in pregnancies among sexually active adolescent girls, 2010
Salmonella typhi meningitis, 142
scalp abscess following fetal monitoring, 2779
screening for hypothyroidism, 277, 821, 2131
screening, and 1-year follow-up; minor physical abnormalities and risk of behavior disorders, 1853
seizures associated with narcotic withdrawal, 1115
serum-ionized calcium level effects on narcotic withdrawal symptoms, 2000
with special problems; handbook for parents, 3521
streptococcal infections, 966
streptococcal septicemia, 108
Streptococcus pneumoniae, 965
thyrotoxicosis, 949
thyrotoxicosis; attempted prevention, 1078
timer for calculative postnatal age in hours, 1841
total parenteral nutrition, 3110
tracheal extubation, 1250
transient tachypnea distinguished from respiratory distress syndrome, 2293
well-being as affected by fetal heart monitoring, 870

Infant, postmature
developmental assessment, 1858

Infant premature (*see also* **Infant, low birth weight**)
acidotic; bicarbonate infusion treatment, 1229, 1230
apnea; aminophylline, 401, 3162
apnea; cardiovascular effects, 2331
apnea; obstruction of nares by eye shield, 404
apnea; sudden infant death, 2304

apnea; theophylline, 389, 415, 416
arterial blood pressure and blood volume relation, 1228
betamethasone-induced leukemoid reaction, 3155
birth injuries from breech delivery, 3134
birth weight less than 1,500 grams; improved outcome, 1227
bradycardia; atropine therapy, 388
breast feeding; early growth, 1857
bucolome for prevention of hyperbilirubinemia, 2029
Candida albicans meningitis; treatment with 5-fluorocytosine and amphotericin B, 1972
consequences in neonatal period and in later life, 3142
definition of preterm, 394
device for reducing insensible water loss, 1225
dexamethasone levels and total relative glucocorticoid activity, 2320
dexamethasone for respiratory distress syndrome, 422
exchange transfusion effect on elimination of theophylline, 2284
fetal erythroblastosis; intravascular pressures in first hours of life, 189
gastric aspirate shake test for pulmonary maturity, 2332
glucose homeostasis in preterm rhesus monkey, 2893
high-risk; rapid infusion of sodium bicarbonate and albumin, 1218
human milk, 3126, 3132
human milk in surgical short-gut syndrome, 3131
hyaline membrane disease and acidosis at birth, 425
hyaline membrane disease; pulmonary pseudocysts and continuous distending airway pressure, 1251
hyaline membrane disease risk, 3163
hydrocephalus; lumbar puncture treatment, 1597
improved prenatal care to reduce incidence of prematurity, 2763
inflammatory aqueductal occlusion in, after candidal septicemia, 2863
long-term pulmonary sequelae with and without respiratory distress syndrome, 2288
maternal behavioral and medical variables, 3129
maternal intravenous ethanol in prevention of respiratory distress syndrome, 3146
milk protein intake, 1220, 1221
mortality, 392, 395
mother-infant interaction, perinatal risk, and early developmental outcome, 3259
patent ductus arteriosus, 397
placenta, 3140
plasminogen to prevent hyaline membrane disease, 3147
prenatal glucocorticoids to prevent respiratory distress, 3151
prolonged rupture of fetal membranes, decreased frequency of respiratory distress syndrome, and patent ductus arteriosus, 3137
rachitic respiration disorder, 2326
respiratory distress syndrome, 393
respiratory distress syndrome; alpha 1-antitrypsin in amniotic fluid and cord blood, 2294
respiratory distress syndrome; echocardiographic assessment of cardiovascular function and pulmonary vascular resistance, 1246
respiratory distress syndrome with patent ductus arteriosus, 438, 439, 3153
respiratory distress syndrome and red cell superoxide dismutase enzyme levels, 2315
skull transillumination, 32
stimulation and growth, 451
suppressing and reinitiating lactation in mothers, 2285
thyroid function, 2292
thyroid function during recovery from respiratory distress syndrome, 2300
total parenteral nutrition, 390, 391
transient hydrocephalus; lumbar peritoneal percutaneous shunt, 358
twins; preventing premature birth, 889
vitamin E deficiency, 2291
vitamin E dosage and iron interaction, 396
yellow hyaline membranes, 411, 413

Infant, small for gestational age
oral glucose and protein, and effects on plasma glucagon and insulin concentrations, 3127
transitory thrombocytopenia; relation to maternal smoking, 1233

Infantile neurogenic muscular atrophy: *see under* **Neurologic manifestations**

Infantile polymyoclonus: *see under* **Myoclonus**

Infection (*see also* **specific infections**)
complement and host defense against, 982
frequency during first year of life, 997
gram-negative; cerebrospinal fluid shunt-associated in hydrocephalus, 1201
infant response to, following intrauterine malnutrition, 988
maternal, and MR in offspring, 2783
MR, 1946
neonatal nosocomial; association with blood pressure cuff, 1971
postnatal and childhood; association with MR, 2785
residential facilities, 738

Influenza
A2 virus infections with febrile convulsions and gastrointestinal symptoms, 2022
Reye's syndrome; diagnostic criteria, 1937
Reye's syndrome; epidemiological relationship, 1899

Influenza vaccine
A/H1N1 antibody after heterologous vaccination, 2829
teratogenicity, 1878

Information services
Educational Resources Information Center (ERIC), 1762

Iniencephalus
associated congenital malformations, 2256

Insemination, artificial, 1847

Insulin
concentrations in small-for-gestational age infants; oral glucose and protein load effects, 3127
fasting plasma levels in kwashiorkor, marasmic, and underweight children, 2948

Insurance, health
newborn exclusion clause eradicated, in Ohio, 1787

Intelligence (*see also* **Intelligence tests**), **12, 2381**
and birth weight in monozygotic twins and siblings, 3135
brain and body weight, activity, and learning ability compared in strains of mice, 3237
changes over time in MR, 1357, 1358
conservation of number in MR, 495
development in adopted children; genetic and socioeconomic factors, 1389
development in children with leukemia, 2406
effects of early treatment of hypothyroidism, 2127
EMR; visual perception training effects, 1477
environmental indices developed for human behavior genetic analysis, 3235
estimating IQ resemblance and heritability in identical twin transfusion syndrome, 3234
heredity vs. environment controversy, 2719
increasing levels of MR children, 1334
infant; development following protective isolation, 511
integrative process model, 1340
and lacunar skull deformity, 1202
learning theory and mental development research, 2411
measuring in exceptional children, 3245
and microcephaly, 1354
in mosaic and trisomy 21 Down's syndrome, 464
MR; contribution of phenotype, 1341
MR; education effects, 3346
MR; increasing through training, 1538
in phenylketonuria, 261
and reaction time in MR, 492, 494
skills in epileptics after temporal lobectomy, 473
socioeconomic status effects on, 2407
of treated myelomeningocele children, 1353
Turner's syndrome, 3238
twins and siblings; concordance for school-age mental development, 3236

Intelligence tests, 1403, 2443
assessment of MR; comparison of 3 tests, 3272
Bayley Mental Development Index scores of infants of lower socioeconomic background, 3217
Black Intelligence Test of Cultural Homogeneity, 2446
California Short Form Test of Mental Maturity, 2446
cerebral palsied preschoolers, 593
cumulative deficit hypothesis, 3287
habilitation model, 1404
infant; predictive value for severely handicapped children, 600
learning disorders, 598, 2439
McCarthy Scales of Children's Abilities, 3273, 3274, 3275, 3276, 3277, 3278, 3279, 3280, 3281, 3282
MR, 1399
Tower of Hanoi problem; performance of MR adolescents, 1400
Wechsler Adult Intelligence Scale (WAIS) and cognitive factor scores; familial resemblance, 3232
Wechsler Adult Intelligence Scale (WAIS) subject score distributions of institutionalized MRs, 3194
Wechsler Intelligence Scale for Children; performance of EMR, 2435

Intensive care units
defective newborns; ethics, 1795
growth and development of low-birth-weight infants in, 2341
newborn infants; electrocardiograph monitor artifacts, 1842
newborn infants; quality of survival, 1836

Intestinal absorption
development in neonatal rats; effects of maternal protein deprivation, 2104

Intracranial pressure
increased; in galactosemia, 2172
quantitative estimation of, vs. computerized tomography to diagnose hydrocephalus, 2748

Intrauterine growth retardation: *see* **Fetal growth retardation**

Intravenous nutrition: *see* **Parenteral feeding**

Intubation, intratracheal
of newborn infants; Heimlich maneuver, 3150

Iodochlorhydroxyquin
toxicity, 2858

Iron-dextan complex
intramuscular, and susceptibility of neonates to bacterial infections, 2883

Ischemia
anoxia and chronic brain damage, 2901

Isoenzymes
brain-type creatine kinase; occurrence in serum in acute cerebral disorders, 2902

Isosorbide: *see under* **Sorbitol**

Isoxsuprine
arrest of premature labor, 3138

Jamaican vomiting sickness: *see under* **Vomiting**

Jaundice
cholestatic and noncholestatic, 1006
folate deficiency after parenteral feeding, 2031

Jaundice, neonatal
in ABO incompatibility; correlation with cord bilirubin levels, 2032
algorithms in diagnosis, 1028
antibiotic effects on bilirubin binding, 1008
aspirin level determination, 1019
associated with parenteral alimentation, 1002
associated with phenol detergent, 184
bilirubin binding and flucloxacillin, 183
bucolome for prevention, 2029
caution against bucolome treatment, 1032
choledochal cyst, 1015
chronic brain damage; new techniques for estimating risk, 2028

diuretics; bilirubin displacement from human albumin, 2054
environmental factors, 1976
furosemide; risks, 2053
glucose-6-phosphate dehydrogenase deficiency in Greek infants, 2052
glucose-6-phosphate dehydrogenase deficiency; phototherapy, 1016
influence of intravenous nutrients on bilirubin transport, 2898, 2899, 2900
labor induction by amniotomy and oxytocin infusion, 1028
malpractice; negligence suit in Britain, 2030
maternally administered drug effects, 2056
oxytocin, 178, 179, 180, 181, 193, 2038
phototherapy, 1001, 2026, 2027
phototherapy-induced riboflavin deficiency, 177
phototherapy and lactase, 187
phototherapy and plasma cyclic AMP levels, 2061
secondary to adrenal gland hemorrhage, 1025
serum bilirubin binding; capacity and affinity, 2057
serum bilirubin concentrations, 2060

Jeune syndrome: *see under* **Abnormalities, multiple**

Juvenile delinquency
adaptive and learning skills, 1765
among learning-disabled; diagnostic study, 2445
developmental disabilities; Georgetown Adolescent Intervention Team, 2614
learning disorders, 1356
link with learning disabilities, 2422

Juvenile lymphocytic thyroiditis: *see under* **Thyroiditis**

Karyotyping
International Registry of Abnormal Karyotypes, 313

KBG syndrome: *see under* **Abnormalities, multiple**

Kernicterus
bilirubin-binding capacity in newborn infants; gestational age and clinical status influences, 2036
glucose-6-phosphate dehydrogenase deficiency, 186
induction by bucolome in rats, 1032
yellow hyaline membranes, 2318

Ketoglutarate dehydrogenase complex
dehydrolipoyl dehydrogenase deficiency in congenital lactic acidosis, 2154

Ketonic diet: *see under* **Diet therapy**

Kidney
anomalies in fetal alcohol syndrome, 947
complications from child abuse, 2924
cytomegalovirus infection from renal allograft, 959
cytomegalovirus infection from renal transplant, prevention, 1929
dysgenesis; preauricular pit syndrome with or without cervical fistulae, 2257
dysplasia with oligohydramnios and esophageal atresia, 349
function in idiopathic respiratory distress syndrome, 429
function measurement in newborn infant, 1248
infantile polycystic disease with Ehlers-Danlos syndrome, 348
medullary sponge, with hypertension in Beckwith-Wiedemann syndrome, 1068

Kinky hair syndrome, 1088
copper metabolism and long-term copper therapy, 2158
copper therapy, 2965
fine structure of cerebellar cortex, 2966
prenatal diagnosis, 252
screening method, 877

Kirshner Saroj Visual Perception Speed Test: *see under* **Dyslexia**

Klinefelter's syndrome, 3059
EEG, endocrine, and psychiatric status, 320
with hypogonadotropic hypogonadism, 1167
systemic lupus erythematosus, 325, 335
Y-linked gene, 328
48,XXXY, with nail patella syndrome, 3040

Klippel-Feil syndrome
consanguineous parents, 2265

Klippel-Trenaunay-Weber syndrome: *see under* **Abnormalities, multiple**

Krabbe's disease: *see* **Leukodystrophy, globoid cell**

Kufs' disease, 309

Kwashiorkor
fasting plasma insulin and growth hormone; concentrations in children, 2948
in infants, due to deliberate withholding of milk, 2112

Labeling, 1414
and academic behavior; effects on low-income children's attitudes toward MRs, 2728
effects on schoolchildren, 1534
effects on teachers of preschool MR, 624
factors affecting children's impressions of MR peers, 578
MR, 2622
MR children; effects on mothers' and graduate trainees' judgments, 2727
in special education classrooms, 1415

Labor
continuous fetal heart rate monitoring in ambulant patient, 57
dysfunctional; long-term effects on infant, 895
induced by amniotomy and oxytocin infusion, and neonatal jaundice, 1028
induction in high-risk pregnancy; prostaglandin E_2 vs. oxytocin, 894
propranolol during; effects on newborn infant, 972

Labor complications
blood acid-base balance in newborn infant after membrane rupture in labor, 1043

Labor, premature
arrest of, with isoxsuprine, 3138
complications, 1861
magnesium sulfate and alcohol in prevention of, 3136
risk of, and cervical incompetence; 2-bromoergocryptine therapy, 2024

Labyrinth diseases
diagnosis of vestibular disorders in learning-disabled children, 1811

Lactamase
beta-lactamase for detecting ampicillin-resistant strain, 931

Lactation
suppressing and reinitiating in women with premature infants, 2285

Lactic acidosis: *see under* **Metabolism, inborn errors**

Lacunar skull deformity: *see under* **Abnormalities**

Langer-Giedion syndrome: *see* **tricho-rhino-phalangeal syndrome, type II** *under* **Abnormalities, multiple**

Language
ability testing in dyslexics, 524
articulation in autistic children, 3229
behavior in autism, 460
EMR children, 2380
MR, 2397
paradigmatic language behavior and specific reading abilities in learning-disabled children, 2513
patterns in vulnerable and autistic children and their mothers, 463
stimulation program for educationally deprived children, 1466
teaching MR children, 1512
training of MR; linguistic and extralinguistic information, 1349
training of mute MR children; manual and oral, 1494

Language development
autism; behavior modification program, 3429
in autistic and MR children, 3228
cognitive structures and social competence in autistic and aphasic children, 1311
deficient acquisition strategies, 505
Down's syndrome, 1117
early childhood intervention with handicapped; nonhandicapped peers as educational and therapeutic resources, 50
EMR; visual perception training effects, 1477
Gesture Language Program for nonverbal institutionalized PMR, 1545
laterality and language skills in children with neurologic and ophthalmic disorders, 474
learning disorders, 501
maternal linguistic environment in Down's syndrome, 2399
MR, 3354
MR with autistic traits; contingent music to increase appropriate conversational speech, 3440
in normal and risk infants, 1355
novel behavior, 1348
residential facilities, 2393
SMR; level of performance demand imposed, 1347
SMR; skills development program, 2452
SMR; structured and unstructured training, 2394
TMR; vocational project for secondary school, 2547

Language disorders, 2392
auditory perceptual factors, 454
in autistic adolescents, 461
in disadvantaged youth, 2376
in early infantile autism, 542, 1360
MR preschool children; Minnesota Early Language Development Sequence, 1441
in MR; psycholinguistic strategy to ameliorate, 3189
neurologic and behavioral study of children with, 2410
social and attentional aspects of echolalia in MR, 2431
teaching techniques, 1408

Laterality (*see also* **Dominance, cerebral**)
in autism; etiologic significance, 2922
cerebral lateralization patterns in families with specific developmental dyslexia, 3230
dyslexia, 2360
language development in children with neurologic and ophthalmic disorders, 474
reading pattern development in children, 471
sex differences in, and skill development, 472

L-DOPA: *see* **Levodopa**

Lead
blood levels inversely related to serum thyroxine concentrations, 975
blood; MR children, 1869
content of painted handles of kitchen utensils, 2792
in drinking water, 90, 2793
environmental levels; determination using dried umbilical cords, 91
low blood levels and intelligence, 1870
and MR, 2787
in paint; legislation, 3475
in teeth, as determinant of long-term exposure to lead, 979

Lead poisoning, 96, 97, 910, 919, 920, 2015
air-lead and blood-lead levels in children, 941
analysis of children's hair, 925
blood lead-water lead associations, 122, 170
in children; effects on cognition, 962
children of lead workers, 899
children living near lead smelter, 914
Chinese herbal medication, 1959
combustion of leaded gasoline, 1872
contaminated health food, 1960, 2790, 2791
encephalopathy in rats, 2788
experimental; intestinal transport of glucose, amino acids, and sodium, 2789
gasoline sniffing, 1933, 1994
lead content in water and mortality rates, 926
lead levels of alcohol in fetal alcohol syndrome, 984
lead levels in fetal death, 2796

low-level absorption in children, 2795
and MR, 156, 1865, 1912
neighborhood pediatric clinic, 1871
in pregnancy; domestic water, 2023
from printed matter, 2794
screening, 2786
sources and effects, 137

Learning
Alabama Learning Resource Center, 2465
associative, in EMR, 3202
availability and accessibility of information in semantic memory of MR and non-MR adolescents, 3244
biological and biochemical changes in brain, 1282
concepts through modeling with institutionalized MR adults, 626
enhancement; Piracetam, 677
malnutrition and behavior, 2951
mediated learning experience, 1336
and memory in MR; cognitive efficiency, 3182
methylphenidate effect on, in hyperactive children, 2078
MR, 528, 2383, 2398
MR; physical environment effects, 1304, 3241
multiple-associate; facilitative effect of mnemonic strategies in EMR children, 3313
observational; and MR, 1294
PMR; acquisition of imitative responses, 3257
psychological extras within traditional ability assessment, 3226
rates; color coding and letter discrimination, 1490
rates of TMR; teaching strategy effects, 1540
remembering, in learning-disabled, 503
serial recall in MR, 2391
skills; juvenile delinquents, 1765
and social adjustment in SMR, 3265
TMR; effects of attributions for success and failure, 3246
TMR; reading retention and transfer, 491
word-object associations in MR, 497

Learning disabilities: *see* Learning disorders

Learning disorders (*see also* Dyslexia; Hyperkinesis; Minimal brain dysfunction), 477, 485, 517, 1314, 1359, 2359, 2365, 2366, 2368, 2370, 2372, 2374, 2375, 2414, 2720, 3207, 3209, 3215, 3227, 3419
accelerated learning materials in regular classroom, 3206
adjudicated delinquent boys and non-adjudicated school boys; diagnostic study, 2445
in adolescence, 529, 1307, 2354, 2358
and affective disorders, 2423, 2553
Argentina, 1315
assessment; collaborative planning by parents and teachers, 1310
assessment instruments, 1406, 2439, 2440
attention deficits and visual distraction, 1517

resource program for grades 4-8, 3324
right to special education; damage action against Chicago Board of Education, 1618
school-entry assessment, 519
school failure, 518, 520
school phobia, 2424
screening; McCarthy Scales of Children's Abilities, 3273, 3274, 3275, 3276, 3277, 3278, 3279, 3280, 3281, 3282
screening procedures for early detection, 2408
secondary school intervention program, 3349
sensorimotor development; home and school activities, 622
sensorimotor home training programs; survey of parents' usage, 3433
social and emotional sequelae, 566
socioeconomic status and diagnosis, 2419
South Africa, 1329
special education, 2472, 3348
specialists in Quebec, 2696
specialist's role and responsibilities, 1426
spelling retardation, 533
state secondary schools in New Zealand, 1295
symptoms and causes, 532
systems approach to evaluation, 3219
task analysis for parents, 764
teacher-consultant handbook, 1482
teacher training program, 2356
training parents of learning-disabled children in facilitative communication skills, 3514
transmitting medical information to school personnel, 778
United States, 1330
Virgin Islands, 1331
visual information processing training program, 2515
visual perceptual problems; teaching techniques, 1409, 1410
visual short-term memory; verbal coding effects, 3214
worksheet for program evaluation, 1520

Leber's amaurosis: *see under* Blindness

Lecithin
/sphingomyelin ratio in amniotic fluid and cortisol, 3159
/sphingomyelin ratio; fetal lung maturity, 2311
/sphingomyelin ratio and foam stability test; fetal lung maturity, 2296
/sphingomyelin ratio; hydrocortisone effects, 1255
/sphingomyelin ratio as index of pregnancy complications in diabetes, 1839
/sphingomyelin ratio in respiratory distress syndrome, 405, 407, 421
/sphingomyelin ratio in tracheal aspirate, 66, 417

Lee Deeg's Wurzburger Lehrplan: *see under* Curriculum

Legislation
abortion for SMR, 2704
affecting MR, 1626
ban on lead-containing paint, 3475
battered child syndrome; court cases, 696
case law decisions and pending suits in MR and developmental disabilities, 691
child abuse and neglect at Michigan MR institution, 3450
child abuse and neglect; model for states, 1636
class action suit for free public education for handicapped in California, 3452
commitment and treatment of developmentally disabled in New Mexico, 3454
day care provision for MR in Maryland and Oregon, 3456
deinstitutionalization of MR, 1615
developmental disabilities, 697
Developmental Disabilities Act (Public Law 94-103), 2619, 3473
Developmentally Disabled Assistance and Bill of Rights Act of 1975, 3466
distinction between MR and mental illness in England, 698
due process rights of handicapped, 1632
Education for All Handicapped Children Act (Public Law 94-142), 1610, 1621, 1634, 2615, 2616, 2618, 2627, 3352, 3470

England; Mental Health Act of 1959, 2626
England; MR, 3467
institutionalization proceedings for MRs; role of courts in assuring access to services in the community, 3464
legal issues in treatment and deinstitutionalization of MR, 2617
legal right to treatment and least restrictive alternative, 695
legal safeguards for MR and deinstitutionalization, 1673
MR, 689
MR bill of rights; Alabama, 3455
National Genetic Disease Act, 1629
pending, authorizing U.S. Attorney General to sue on behalf of institutionalized, 1661
physical education for impaired, disabled, and handicapped, 3497
special education for handicapped, 635, 1635, 3307
special education, Iowa, 3355, 3357, 3358, 3361, 3362
special education for MR in New Jersey institution, 3451
state authorized preschool services, 3463
state councils on developmental disabilities, 1614
suit seeking community placement for developmentally disabled in Ohio, 3453
Vocational Rehabilitation Act of 1973, 1621

Leigh's disease: *see* **subacute necrotizing encephalomyelopathy** *under* **Brain diseases**

Leisure activities
curriculum for developmentally disabled, 2675
instruction for MR, 3509

Lenz-Majewski dwarfism: *see under* **Dwarfism**

Lesch-Nyhan syndrome
behavior therapy, 2962, 2964
immunological observations, 244
low dopamine-beta-hydroxylase activity and diminished response to stress and posture, 2963
low hypoxanthine uptake in human fibroblasts, 1085
synthesis of inosine 5′-phosphate in the HGPRT-deficient erythrocyte, 2961

Leukemia
acute, after Fanconi's anemia; somatic segregation mechanism, 1127
intellectual development in children with, 2406
neurologic complications, 2338

Leukemia, lymphoblastic
heat -stable E-receptors on lymphoblasts in ataxia telangiectasia, 2092

Leukemia, lymphocytic
disseminated herpes simplex virus type 1 with hepatoadrenal necrosis, 948

Leukocytes
-associated viremia with type 2 adenovirus in infant with lower respiratory tract disease, 2872
function after prenatal betamethasone, 2333

Leukodystrophy, globoid cell
enzyme analyses, 2096
possible misdiagnosis, 2094

Leukodystrophy, metachromatic
parental enzyme profiles, 1089
prenatal diagnosis, 2091

Levamisole
failure in herpesvirus hominis, 1965

Levodopa
effects on growth hormone secretion in hyperkinetic children, 206
subacute sclerosing panencephalitis, 2857

Lexington Developmental Scale: *see under* **Child development**

LH-FSH releasing hormone
treatment of cryptorchism, 1172, 1208

LH releasing hormone: *see* **LH-FSH releasing hormone**

Limulus test
bacterial meningitis in newborn infant, 139

Linguistics
socio-; communication style and effectiveness in dyads of MR children, 1375

Lipid metabolism, inborn errors
abetalipoproteinemia; diet therapy, 3007

Lipids
fatty acid composition of, in cerebral myelin and synaptosomes in phenylketonuria and Down's syndrome, 3027

Lipochondrodystrophy, 279
genetic counseling, 48
mild and severe, within same sibship, 1075
prenatal diagnosis; iduronate sulfatase in amniotic fluid, 1081
without alpha-L-iduronidase deficiency, 2992

Lipoma
retroperitoneal, in trisomy-21 child, 1169

Listeria infections
in consecutive newborn siblings, 2850
in infants and children, 2849
in newborn infants, 2848, 2851
in pregnancy; effect on offspring, 1915

Lithium
carbonate, maternal; and breast feeding, 960
epilepsy, 3012

Liver
biopsy in Reye's syndrome, 223
calcification in congenital cytomegalic inclusion disease, 1989

Liver abscess, amebic
tinidazole, 2019

Logic
EMR; reasoning ability, 1346

Lumbar puncture: *see* **Spinal puincture**

Lung
complications in measles, 174
development in fetal primate, 2330
fetal; amniotic fluid cortisol levels as maturity index, 410
fetal; amniotic fluid lipid extract surface tension and maturity, 2305
fetal; betamethasone vs. cortisol for acceleration of maturation in premature labor, 2316
fetal; inhibition of maturation in rabbit by maternal phenobarbital treatment, 2317
fetal; maturity and lecithin/sphingomyelin ratio, 417
fetal; sensitive method for detection of surfactant in amniotic fluid samples, 3161
fetal; tests for maturity, 2296
function after feeding in low-birth-weight infant, 3141
hyperoxia of premature; pulmonary superoxide dismutase response, 430
long-term sequelae in premature infant, 2288
maturation in anencephalic rat fetuses with corticosteroid deficiency, 2313
maturity in premature infants; gastric aspirate shake test, 2332
pulmonary hypertension in perinatal aspiration syndromes, 1252
surfactant in newborn infant; analysis of fatty acids of phospholipids, 2308

Lupus erythematosus, systemic
childhood; isolated chorea as initial manifestation, 2946
Klinefelter's syndrome, 325, 335

Lymphatic system
chronic lymphoglandular enlargement in children with toxoplasmosis, 2018

Lymphocytes
alterations in, and depressed immunity in protein-calorie malnutrition, 1074
depressed responsiveness in autism, 2844
purine 5'-nucleotidase deficiency; agammaglobulinemia, 2044
T-; stress deficiency in Down's syndrome, 2215

Lysinuric protein intolerance: *see under* **Amino acid metabolism, inborn errors**

Lysosomes
storage disease; animal model for replacement therapy, 2156, 2157

Macrophages
in amniotic fluid cell cultures, 65, 423

Magnesium
absorption and retention in low birth weight infant fed breast milk, 2283

Magnesium deficiency
maternal, and fetal anemia and congenital malformations in the rat, 2111

Magnesium sulfate
and alcohol in prevention of premature labor, 3136
idiopathic neonatal hypocalcemia, 1091

Mainstreaming, 2464, 3325, 3344
approach to special education services, 3382
behavioral and political principles, 3378
bibliography, 1479, 2524
computer technology, 634
EMR; administrative problems, 2456
exceptional children, 639, 3310
handicapped, 633, 1506, 2531, 2532
handicapped, by Canadian administrators and teachers, 3332
handicapped children; Chapel Hill Model for training Head Start personnel, 3375
handicapped children; social acceptance by nonhandicapped preschool children, 1365
handicapped children; teacher attitudes toward, 2459
handicapped in community and school swimming programs, 1711
learning -disabled, 1412
learning -disabled vs. special class placement, 608
learning disorders, 2498
mildly handicapped; intervention strategies, 3330
mildly handicapped; at secondary level, 1450
minority child, 2501
model resource center program, 2519
MR, 1434, 1525, 1549, 3321, 3350
MR; attitudes toward, 616
neurologically impaired with learning disorders; resource room model and program evaluation, 3339
personnel training, 3541, 3542, 3543
preparing student teachers, 3326
Project IMPACT (Michigan), 3340
public school special education practices, 1413
resource guide for regular classroom teachers, 2507
Set, Information, Graph, and General System Model, 2530
special child, 3372
special education techniques for the regular classroom teacher, 1417
supervising teachers, 1472
training systems, materials, and resources, 1478
vocational education, 2510
vs. special education, 1541

Malnutrition: *see under* **Nutrition disorders**

Malpractice
failure to provide genetic counseling in Tay-Sachs disease, 2770
neonatal jaundice; lawsuit in Britain, 2030

Mannosidosis: *see under* **Metabolism, inborn errors**

Maple syrup urine disease
diagnosis, 2150
heterogeneity; cofactor requirement and complementation in fibroblasts, 1095

Marasmus: *see* **Protein-calorie malnutrition**

Marinesco-Sjogren syndrome
and hypergonadotropic hypogonadism; linkage studies, 1180

Maroteaux-Lamy syndrome: *see* **Mucopolysaccharidosis**

Marriage
rights of MR to, 1622

Mass screening
anencephalus and spina bifida, 2266
cholesterol levels in children; behavioral, legal, and ethical considerations, 809
congenital hypothyroidism, 242, 2131
developmental disorders; Prescreening Developmental Questionnaire, 3284, 3285
Down's syndrome, 3036
early identification of children with special educational or developmental needs, 2746
Early and Periodic Screening, Diagnosis and Treatment program, 898, 1821, 1822, 1823, 1825, 1827, 2603
Early and Periodic Screening, Diagnosis and Treatment program; Mexican-Americans, 1826
Early and Periodic Screening, Diagnosis and Treatment program; record confidentiality, 1824
lead poisoning, 2786
metabolic disorders in newborns, 1863, 2762
neonatal hypothyroidism; detection of thyrotoxicosis, 2169
neural tube defects, 3097
neural tube defects; alpha fetoprotein measurement, 2268, 3102
newborns and 1-year follow-up; minor physical abnormalities and risk of behavior disorders, 1853
phenylketonuria, 1080, 2975
spina bifida, 2261
Tay-Sachs disease, 860
Tay-Sachs disease; demographic data use, 251
thalassemia, 2050, 2139, 3006
transient hypothyroidism in newborn infant, 821

Maternal-fetal exchange
dexamethasone in the ovine pregnancy, 2804

Mathematics
arithmetic performance in EMR; music reinforcement, 504
EMR attitudes toward; instrument for measuring, 1474
motoric approach to teaching multiplication to MR, 1464
number conservation in MR children, 2350, 2451
quantitative abilities of EMR children, 1302
teacher ratings of EMR ability, 3331
teaching MR, 3301, 3222

Maturation, Assessment and Training Program: *see under* **Mental retardation**

McCarthy Scales of Children's Abilities: *see under* **Intelligence tests**

McCune-Albright syndrome: *see under* **Metabolism, inborn errors**

Measles
atypical; failure of attenuated vaccine, 1919
defective neutrophil motility, 102
encephalitis in children with immunosuppression, 991
encephalitis in immunized child, 166
epidemic after immunization, 1891
epidemic in highly vaccinated population, 145
immunoparesis and outcome, 1881
improving immunization levels, 2841
lung complications, 174
persistent infection in malnourished children, 954
and subacute sclerosing panencephalitis, 989, 1875, 1917
vaccination, 952, 970
vaccination failure in infant immunized at 12 months, 951

Measles vaccine, 977, 1909, 2869
attenuated; failure to prevent atypical measles, 1919
effectiveness; secondary attack rates during severe epidemic, 161
immunization program; current status, 160
for infant, 2874
live, given alone and preceded by killed vaccine; clinical trial, 1953
monovalent, and combined with mumps and rubella vaccines, 1973
revised recommendations, 955
and subacute sclerosing panencephalitis, 989

Meconium
aspiration syndrome; delivery room method for prevention and management, 1259
aspiration syndrome; hydrocortisone, 437
-stained newborn infants; endotracheal aspiration, 432

Mediastinal emphysema
transillumination in respiratory distress syndrome, 1260

Medicaid
impact on deinstitutionalization, 717

Medicare
impact on deinstitutionalization, 719

Megalencephaly: *see under* **Abnormalities**

Megavitamin therapy: *see* **Orthomolecular therapy**

Melanoma
malignant; chromosomal abnormalities in infant born to mother with, 2217

Memory (*see also* **Memory, short-term**)
eidetic imagery in brain-damaged children, 486
free recall in MR, 489, 506, 510, 1293
iconic, in MR; retinal locus and identification of tachistoscopically presented letters, 2387
and learning in MR; cognitive efficiency, 3182
metamemory in MR, 1337
MR, 2398
and rehearsal in MR, 2382
scanning and encoding of MR vs. non-MR adolescents, 490
serial recall in MR, 2391
span, and encoding speed in dyslexics, 523
thresholds and overload effects in learning disorders, 1309
transfer of associative-clustering tendencies in MR, 496
visual recognition in MR adolescents; cue value and

instruction effects, 2386

Memory, short-term (*see also* **Memory**)
auditory; learning-disabled children, 1306
MR encoding, 499
release from proactive interference in MR, 487
and serial, in autistic, MR, and normal children, 3195
visual; verbal coding effects, 3214

Meningitis (*see also* **Meningitis, haemophilus; Meningitis, meningococcal; Meningitis, pneumococcal; Meningoencephalitis**)
ascorbic acid adjunct therapy, 1892
aseptic; unusual pleocytosis, 2006
bacterial, 127
bacterial; as agent in seeding of cerebrospinal fluid, 2884
bacterial; ampicillin dosage, 1984
bacterial; cardiac pacing in atrioventricular block and fibrillation, 157
bacterial; cerebrospinal fluid concentrations of bacteria and bacterial antigens, and prognosis, 1000
bacterial; counterimmunoelectrophoretic detection of antigens, 1988
bacterial; gram-positive organism in newborn infant, 1873
bacterial; secondary to abscess of nasal septum, 2840
Bacteroides fragilis, in newborn infant, 918
Candida albicans; amphotericin B and 5-fluorocytosine, 981
Candida albicans, in premature infant; treatment with 5 fluorocytosine and amphotericin B, 1972
cerebrospinal fluid lactic acid levels; diagnostic tests, 1814
coliform, in newborn infant, 129
cryptococcal; cerebrospinal fluid immunoglobulins, 1918
deafness in children following, 1916
difficulties in diagnosis, 1812
Escherichia coli; isolation of 2 serotypes in infant, 2005
gram-negative enteric; antibiotic therapy, 88
group B beta-hemolytic streptococcal; sequelae, 1931
group C beta-hemolytic streptococcal, 162
lumbar puncture, 2182
in newborn infant; Limulus test, 139
pharmacologic evaluation of penicillin, 2853
Pseudomonas cepacia; trimethoprim-sulfamethoxazole, 1956
pyogenic, 169
pyogenic, in chronic gastroenteritis and marasmus, 1905
pyogenic; laboratory diagnosis, 121
relapsing *E. coli* K1 antigen, in newborn infant, 1906
Salmonella, in infants, 2876
Salmonella typhi, in newborn infant, 142
simultaneous bacterial and viral infections, 1880
from single *Escherichia coli*, K1 serotype, in newborn infants, 163
streptococcal, group B; drug therapy, 935, 939, 1996
streptococcal, group BIII; recurrence, 940
technique for differentiation of cases, 2868

Meningitis, Haemophilus
ampicillin-resistant; epidemiology of infections, 932
ampicillin-resistant; following ampicillin-sensitive bacteremia in infant, 968
ampicillin-resistant subdural empyema after treatment of apparently ampicillin-sensitive *H. influenzae* meningitis, 983
antibiotic treatment related to long-term outcome, 2856
cortical blindness following, 2011
drug therapy, 1957
internal carotid artery occlusion, 1932
morbidity prediction, 995
streptomycin and sulfisoxazole, 2875
type B, associated with hypopyon and orbital cellulitis, 1939
type e antigen, 974
type f, 1921

Meningitis, meningococcal (*see also Neisseria meningitidis*)
absence of sixth component of complement, 103
in child day-care centers, 994
and disseminated intravascular coagulation in child with bone lesions, 1889
Neisseria meningitidis; maternal cervical-vaginal colonization, 1958

Meningitis, pneumococcal
in children, 1930
mortality, 78
penicillin -resistant, 1970
penicillin -resistant, in an immunocompromised infant, 2014
penicillin-resistant organism (*Streptococcus pneumoniae*), 927

Meningitis, tuberculous: *see* **Tuberculosis, meningeal**

Meningococcal infections
A and C; comparative study in Nigeria, 2017

Meningococcal polysaccharide vaccines: *see under* **Vaccines**

Meningococcus: *see Neisseria meningitidis*

Meningoencephalitis
mycoplasma infection; raised mean cell volume, 1893
Mycoplasma pneumoniae, and transverse myelitis with low cerebrospinal fluid glucose, 140

Meningomyelocele (*see also* **Spina bifida**)
American Academy of Pediatrics guidelines for surveillance, 340
intellectual and perceptual-motor characteristics of treated children, 1353
rehabilitation, 3119

Menkes kinky hair disease: *see* **Kinky hair syndrome**

Mental health services
primary school intervention program, 2537

Mental retardation (*see also* **Education of mentally retarded**), **11, 13, 1742, 1743, 1745, 1746, 1747, 1748, 1749, 1754, 1781, 1782, 2623, 2706**
AAMD classification system, 2712
abortion; legal and ethical issues, 2704
abuse and neglect at Michigan MR institution, 3450

activity levels and circadian rhythm, 2349
adaptive behavior; development, 1386
Adaptive Behavior Scales, 1388
adjustment of MRs to community, 1549
adjustment and quality of life of the deinstitutionalized, 3254
adolescence, 1800
adoption agency policy towards, 1725
the adult in the community, 2635, 2638
Adult Training Center (Scotland), 1647
affective disturbances, 1378, 1587
aging, 2636
alternative residential facilities; cost effectiveness analysis, 726
antenatal and perinatal factors, 3054
Apert's syndrome, 379
art programs and experiences in Indiana, 1712
art project, 2677
art; rubbings, 1713
assessing and improving executive cognitive functions, 3183
attention, 2384
attitude of black and white university students toward, 782
attitude of pupils toward MR children, 3479
attitude of social work students toward, after interacting with families of MR, 1724
attitude toward, 702, 794, 1774
Australian Institute of MR, 2707
autistic idiot savant, 1396
with autistic traits; contingent music to increase appropriate conversational speech, 3440
automated range of motion training with cerebral palsied, 1577
aversive therapy; model consent form, 3468
balanced chromosome rearrangements, 3025
behavior disorders; evolution, 570
behavior management; recurrent problems, 1736
behavior management; research analysis, 1601
behavior modification, 2551, 3418
behavior modification lecture series for persons working with; evaluation, 1600
behavior problems of children; age factors in parental assessments, 747
Behavior Rating Inventory for the Retarded, 2441
behavior in residential facilities; quantitative observation, 1683
behavior therapy to improve school performance, 1585
behavior therapy for self-stimulation, 2608
behavior training on exercycle, 2566
behavioral effects of interinstitutional relocation, 709
behavioral genetics, 2752
behavioral research in rehabilitation, 1760
behavioral training for parents, 765
bill of rights in Alabama, 3455
biological causes, 1832
blood-lead levels in children, 1869
brain and skull malformations, 3103
camping trip for manic-depressive, schizophrenic and, 3508
cardiac and respiratory responses during visual search, 457
career development, 3394
career follow-up, 2540
case law decisions and pending suits, 691
characteristics associated with social adjustment, 1679
characteristics of primary caregivers in communities, 3524
childhood, 1799
child psychiatry, 688
Chinese-Americans, 1785
chromosome abnormalities, 2749
chromosome abnormalities; banding techniques, 1807
chromosome survey in the northeast of Scotland, 2210
chronic brain damage, 2063
civil rights, 1620
classification; incidence, 2654
classification, relative thinking, and transitivity performance, 508
clinical syndromes and multihandicapping conditions, 1835
clinicians' communications to parents, 772
clonazepam for epilepsy, 2174
clothing needs, 2715
cognition; Piaget's theory, 2396
cognitive ability patterns in MR children, 2413
Colchester Survey, 3050
commitment and treatment legalities in New Mexico, 3454
communication alternatives for nonspeaking MR, 2385
communication assessment, 1343
communication between EMR adolescents and their mothers, 1303
communication between health service personnel and parents, 3510
communication skills training, 3351
communication style and effectiveness in homogeneous and heterogeneous dyads of children, 1375
community attitudes toward group homes, 1648
community living arrangement staff, Pennsylvania, 3525
community residential facilities; satisfaction and activities, 1692
community skills program for adolescents, 3385
comparison of 3 intelligence tests for assessment of, 3272
compensation for children damaged by vaccine, 917
comprehensive treatment principles, 3388
computer assisted instruction, 1530, 1531
contextual cues and choice reaction time, 514
contingency management promoting walking, 2571
contribution of phenotype to intelligence, 1341
conviction of manslaughter by neglect in case of anorexia nervosa, 3476
counseling parents; treatment approach, 3512
counseling and psychotherapy, 3417
court cases, 2613
cranial malformations, 3104
crime, 10, 537, 538, 1379
criminal justice, 690, 1794
criteria for diagnosis, 1757
current issues, 1751, 1755
curriculum development for; criteria for goal selection, 3320
cytogenetic research in Kansas City hospital; 10-year history, 3095
cytomegaloviruses, 2838
decisional self-control, 571
definition, 1775
deinstitutionalization, 711, 712, 713, 735, 1662,

1663, 1664, 1672, 1675, 1684, 1687, 2637, 2652, 3501
deinstitutionalization; accountability, 1674
deinstitutionalization; community-institutional relations, 1667
deinstitutionalization; consumerism, 1676
deinstitutionalization; Councils of Government and citizen participation, 1671
deinstitutionalization; Developmental Disabilities Council, 1668
deinstitutionalization; follow-up studies, 1680
deinstitutionalization in Iowa; developmental foster homes, 1640
deinstitutionalization; legislation, 1615
deinstitutionalization; public awareness planning, 1670
deinstitutionalization; relocation syndrome, 1699
deinstitutionalization; state agency planning, 1669
deinstitutionalization; stigmatization and labeling as impediments, 1665
delivery of health care, 1606
delivery of health care; Australia, 1609
dental disease and level of dental health of adults, 3172
diagnostic approaches, 2750
differences between MR and normally intelligent autistic children, 3224
discharge of MR from residential facilities to care in the community, 3491
Doman-Delacato therapeutic techniques, 1567, 1568
drug therapy, 2602
early childhood programs, 2632
early intervention programs for prevention; the Milwaukee Project, 613
Eastern Nebraska Community Office of Retardation (ENCOR), 1645
eating skills training, 2429
echolalia; social and attentional aspects, 2431
ecological validity in experimental psychology, 790
economics, 1779
educational program for family, 1723
EEG correlates of prism adaptation, 488
effects of contingency management on academic achievement and conduct of Arab students, 3314
effects of labeling and academic behavior on low-income children's attitudes towards MR children, 2728
electronic devices, 3411
EMR; adult and peer model effects on children, 581
EMR; anxiety and outerdirectedness, 2427
EMR; creativity training, 638
EMR; cross-age helping in education, 3292
EMR; instrument for measuring attitudes toward mathematics, 1474

X-linked nonspecific, 3021
X-linked skeletal dysplasia, 1191, 3086

Mepivacaine
toxicity in newborn infant; ventricular tachycardia, 165

Merbromine
therapy of infected omphalocele; mercury poisoning, 2814

Mercurochrome: *see* **Merbromine**

Mercury
environmental levels; determination using dried umbilical cords, 91

Mercury poisoning, 1877
from mercurochrome therapy of infected omphalocele, 2814
pregnant woman, fetus, and newborn infant, 2813

Mesenchymoma
malignant, with cleft lip and palate, after prenatal exposure to phenytoin, 1868

Metabolism
bilirubin, in newborn rhesus monkey, 2055
fetal carbohydrate; review, 1099
rate and body composition in rats nutritionally deprived before or after weaning, 2107
response to somatotropin in cerebral dwarfism, 1065

Metabolism, inborn errors (*see also* **Amino acid metabolism, inborn errors; Lipid metabolism, inborn errors; Purine-pyrimidine metabolism, inborn errors**)
autosomal recessive genetic mechanisms, 2956
beta-galactosidase and macular cherry red spots, 3003
dinitrophenylhydrazine test; radiopaque dye interference, 248
fucosidosis, 2135
fucosidosis; antenatal diagnosis, 2126
fucosidosis; genetic variants, 239, 241
glutaric aciduria, 2170, 2171
hypoglycemia, organic aciduria, and fatty-acid metabolism defect, 2140
hypophosphatasia; prenatal diagnosis, 254
lactate acidemia, familial poliodystrophy, and mitochondrial myopathy, 3004
lactic acidosis; beta-methylmalonic aciduria associated with, 3001
lactic acidosis; congenital, from dehydrolipoyl dehydrogenase, 2154
mannosidosis; clinical presentation, enzyme studies, and carbohydrate analysis, 2981
mass screening in newborn infants, 1863, 2762
McCune-Albright syndrome, 249, 250
methylenetetrahydrofolate reductase deficiency; genetic and biochemical studies, 2124
methylmalonic aciduria, 296, 2118, 2143

prenatal diagnosis, 827
pyroglutamic aciduria (5-oxoprolinuria), 2134
pyruvate dehydrogenase deficiency; ketonic diet, 674
steroid sulfatase deficiency, 2977

Metacarpophalangeal joint
pattern profile analysis in acrocephalosyndactylia, 1199

Metachromatic leukodystrophy: *see* **Leukodystrophy, metachromatic**

Methadone
and heroin; differential effects of maternal use on birth weight, 130
late drug withdrawal symptoms in newborn infants of methadone addicts, 1911
maternal use; cytogenetics of mothers and their newborn infants, 3093
reduction of dosage late in pregnancy to decrease neonatal withdrawal incidence, 2803

Methotrexate
neurotoxicity, 2338

Methylenetetrahydrofolate reductase: *see under* **Folic acid**

Methylmalonic aciduria: *see under* **Metabolism, inborn errors**

Methylphenidate
hyperkinesis, 659, 660, 670, 682, 1596
hyperkinesis; effects on growth, 1048
hyperkinesis; hormone secretion, 206
hyperkinesis; effects on learning ability, 2078
hyperkinesis; responders' and non-responders' activity level patterns, 2912
hyperkinesis and learning disorders, 1569
hyperkinesis and minimal brain dysfunction, 678
minimal brain dysfunction; effects on handwriting, 2083

Methyltransferases
thymidylate synthetase and thymidine kinase for restorative growth, 2953

Metronidazole
chromosome aberrations, 322

Microcephaly
with cataracts in 4 siblings, 1200
and intelligence, 1354
sequential fetus-fetus interaction, 341

Microscopy, electron
diagnosis of Fabry's disease, 3080

Microsomal enzymes: *see under* **Enzymes**

Military personnel
rubella outbreak, 1978

Milk
withheld from infants, and kwashiorkor, 2112

Milk, human
absorption and retention of copper, magnesium, and zinc from, in low-birth-weight infant, 2283
premature infant, 3126, 3132
premature infant with surgical short-gut syndrome, 3131

Milk proteins
intake in low-birth-weight infants, 1220, 1221
intake in low-birth-weight infants; effects on aliphatic amino acid levels, 1222
intake in low-birth-weight infants; effects on sulfur amino acid levels, 1224
intake in low-birth-weight infants; effects on tyrosine and phenylalanine levels, 1223

Milwaukee Project: *see under* **Education, special**

Minerals
in supplement to low-phenylalanine diet in phenylketonuria, 2151

Minimal Auditory Intensity Differential: *see under* **Hearing tests**

Minimal brain dysfunction (*see also* **Brain damage, chronic; Hyperkinesis), 195, 2086, 2087, 3419**
absence of lateral dominance and handedness, 2921
adolescents who attempt suicide, 2084
auditory evoked potentials and selective attention in formerly hyperactive adolescent boys, 1037
biochemical basis, 1049
drug therapy, 678, 679, 2082
genetic studies, 2920
lack of effect of thyrotropin releasing hormone, 2079
and learning disability, 2369
methylphenidate; effects on handwriting, 2083
monoamine metabolites in cerebrospinal fluid, 211
orthomolecular therapy, 2076
symptoms and socioeconomic status-related factors, 210

Minnesota Child Development Inventory: *see under* **Child development**

Mongolism: *see* **Down's syndrome**

Monoamine oxidase
blood platelets in early infantile autism, 551, 3176
metabolites in minimal brain dysfunction, 211

Monochromatism: *see* **Color blindness**

Monocytes
monocytosis in congenital syphilis, 963

Monosodium glutamate
neurologic manifestations in children, 131

Monosomy
3p25, due to partial deletion of short arm of No. 3, 3072

Morbidity
prediction in *Haemophilus influenzae* meningitis, 995

Mortality
perinatal; obstetric care, 1840

perinatal; rates in Great Britain, 1970
rates; children, socioeconomic factors, 59
rates; lead content in water, 926

Mosaicism
parental, as cause of Down's syndrome, 2225
prenatal diagnosis, 1132, 3075
ring chromosome, and physical retardation, 3073
of sex chromosomes undetected by prenatal study, 1817
trisomy D; prenatal diagnosis, 807
trisomy 9, 1159
trisomy 20 determined in fetus, 324
and trisomy 21 in Down's syndrome; mental development, 464
Turner's syndrome; 45,X0/46,XX demonstrated only in streak gonad, 2224
in twin pregnancy, diagnosed after spontaneous abortion, 805
XO/XX; anorexia nervosa and gonadal dysgenesis, 321
X/XXX; prenatal diagnosis and gonadal findings, 3062
45,X/46,X,X-X terminal rearrangement in child with short stature, 1146
45,X/46,XY in male infant with Turner's syndrome stigmata, 1144
46,XX/46,XX,r(15), 3076
46,X,X-X terminal rearrangement/45,X in child with short stature, 3087

Mother-child relations
child development, 213
early infantile autism, 590
infant cognitive development, and gender differences, 3218
perinatal risk and early developmental outcome, 3259
social interaction implications for development, 3258

Motivation
self-perception of, in MR, 580
TMR; effects of attributions for success and failure, 3246

Motor-Free Visual Perception Test: *see under* **Visual perception**

Motor skills
assessment in multiply handicapped, 450
curriculum for severely handicapped, 1527
development in multihandicapped infants, 1281
MR; evaluation, 1452
perceptual-motor functioning in children with phenylketonuria, 531
perceptual performance scores; effects of repeated trials, 3174
physically handicapped MR; effects of 4 training procedures on increasing, 1285
testing manual for moderately MR, 2348

Movement disorders
adventitious, in early infantile autism, 543

Moyamoya disease: *see under* **Vascular diseases**

Mucolipidosis
fetal; morphology of the placenta, 2983
2; cyanidanol effects, 347
2; multiple ectoglycosyltransferase abnormalities in fibroblasts, 2121
2; placental morphology, 1086
4; prenatal diagnosis, 275, 2982

Mucopolysaccharidosis, 2146
prenatal diagnosis, 270
6; model of, in cat with arylsulfatase B deficiency, 1079

Multifamily therapy: *see under* **Psychotherapy, group**

Multiple exostoses-mental retardation (MEMR) syndrome, 368

Multiple sclerosis
herpes simplex virus isolated from trigeminal ganglia, 2821

Mumps vaccine
monovalent, and combined with measles and rubella vaccines, 1973

Muscular atrophy
spinal, type I (Werdnig-Hoffman disease); high incidence in Karaite community in Israel, 2334

Muscular diseases
transverse myelitis and Mycoplasma pneumoniae meningoencephalitis, with low cerebrospinal fluid glucose, 140

Muscular dystrophy
Duchenne; muscle growth in fetal tissue culture, 3165
Duchenne; muscle nuclear changes in fetus at risk for, 3166
Duchenne; prenatal diagnosis, 841, 842, 1828, 2767

Music therapy, 3422
developmental disabilities, 3423
EMR; reinforcement of arithmetic performance, 504
MR with autistic traits; increasing speech skills, 3440
perceptual-motor development in perceptually underdeveloped, 2347
reading disorders, 2556

Mycoplasma hominis: *see* **Mycoplasma infections**

Mycoplasma infections
central nervous system, in newborn infants, 1993
meningoencephalitis; raised mean cell volume, 1893
temporary aphasia, 942

Myelocele: *see* **Meningomyelocele**

Myeloproliferative disorders
Alzheimer's disease, and trisomy 21, 3060

Myklebust Learning Quotient: *see under* **Learning disorders**

Myoclonus
in children; 5-hydroxytryptophan induced, 300
herpes simplex with cytomegalovirus infection and, 1910
infantile polymyoclonus; occurrence in second cousins, 1058

Myotonia atrophica
immunoglobulin levels in, 3167

NADH, NADPH oxidoreductases
dihydropteridine reductase activity in phenylketonuria fibroblasts, 1105
dihydropteridine reductase deficiency in hyperphenylalaninemia, 247
dihydropteridine reductase activity in atypical phenylketonuria, 2142

Nager acrofacial dysostoses: *see under* Abnormalities, multiple

Naloxone
effect on pethidine-induced neonatal depression, 903, 904
reversal of narcotic respiratory depression in newborn infants, 1923

Narcotics (*see also* Drug withdrawal symptoms)
respiratory depression in newborn infants; naloxone reversal, 1923

National Association for Retarded Children: *see under* Voluntary health agencies

National Association of Superintendents of Public Residential Facilities: *see under* Residential facilities

National Genetic Disease Act: *see under* Legislation

National Institute on Mental Retardation (Canada): *see under* Mental retardation

Neisseria meningitidis (*see also* Meningitis, meningococcal)
group A vaccine; efficacy in children, 1998
groups A and C; vaccine efficacy, 1999
maternal infection and fatal meningococcal meningitis in newborn infant, 1958

Neoplasms (*see also* specific types)
congenital neurocutaneous syndromes, 2944
radiography in embryo and fetus, 118

Nephroblastoma
acute hemorrhage, 1053
bilateral diffuse; management with chemotherapy, 2280
brain metastasis; survival, 2097, 2943
and neurofibromatosis, 1054
orbital metastasis, 3118
and pigmented nevi, 2099
in twins, with hypospadias and cryptorchidism, 2281

Nephrosis
congenital; diagnosed by raised alpha fetoprotein levels in maternal serum, 818

Nerve growth factor
role in neuroblastoma, 1055

Nervous system diseases
Azorean disease, 1061, 1062, 1063, 1081

Nesidioblastosis
in hypoglycemia of infancy, 2994
in hypoglycemia of infancy; somatostatin studies, 147

Neural crest: *see under* Neuroanatomy

Neural tube defects (*see also* Abnormalities, multiple; specific defects)
adherent amniotic fluid cells, 2237, 2245, 3100, 3101
alpha fetoprotein screening, 3102
amniocentesis, 3096
epidemiology, 2260
folates, 3, 24
folic acid deficiency, 2244
prenatal diagnosis, 3098, 3099
rifampicin in pregnancy, 1951
screening, 3097

Neuroanatomy
neural crest injuries and mendelian ectodermal dysplasia syndromes, 374
neural crest, limb development, and thalidomide embryopathy, 146

Neuroblastoma
fetal hydantoin syndrome, 125
nerve growth factor role, 1055
sensitivity to neuroblastoma extracts, 222

Neurochemistry
research; child psychiatry, 2138

Neurofibromatosis
and Wilms' tumor, 1054

Neurologic examination
computerized axial tomography, 815, 826

Neurologic manifestations (*see also* specific diseases)
childhood leukemia, 2338
in children surviving mechanical ventilation in neonatal period, 2910
computerized tomography in evaluation, 826
congenital amaurosis of Leber, 2278
haloperidol, 3169
infantile neurogenic muscular atrophy with prolonged survival, 442
in infants with phenylketonuria, 2119
monosodium glutamate in children, 131
multicystic cerebral degeneration in neonatal herpes simplex, 924
related to behavioral and academic variables, 2362
soft; consistency over time, 1819

Neuromuscular diseases
associated with mitochondrial encephalopathies, 3004

Neuronal ceroid-lipofuscinosis: *see under* Amaurotic familial idiocy

Neurons
proliferation in mouse embryo cerebrum; maternal protein-calorie malnutrition effect, 2110

Nevus
pigmented, and Wilms' tumor, 2099
port-wine, absent in Sturge-Weber syndrome, 2184

Niemann-Pick disease
with foamy and sea-blue histiocytes, 264
type A; prenatal diagnosis, 2159

Nitrazepam
maternal use and floppy infant syndrome, 1884

Nitrobenzenes
dinitrochlorobenzene sensitivity in primary hypogammaglobulinemia, 191

Nitroblue tetrazolium
homozygous beta-thalassemia, 2051

Nomenclature
MR classifications, 2654

Norepinephrine
levels in primary autism, 3177

Normalization
Adult Training Center (Scotland), 1647
child development services, 1550
deinstitutionalized MR; adjustment and quality of life, 3254
developmentally disabled; housing needs, 3496
handicapped preschool children; day care, 3494
integration and socialization for MR, 2621
MR, 707, 735, 1554, 1644, 1646, 1650, 1685, 2634
MR; bibliography, 2620
MR; characteristics associated with social adjustment, 1679
MR; community care facilities, 732
MR; generalization technique for behavior analysts, 1526
MR; history, 2629
MR; journal of daily activities, 539
MR; program for developing competencies, 647
MR; promotion through institutional redesign, 2662
MR; survey measuring understanding of principle, 3499
predischarge unit in residential facility, 737
punishment relationship and its relevance in MR, 3442
special education teacher training project, 1459

North Carolina Conference on Children: *see under* **Child development**

Nucleotidases
purine 5'-; lymphocyte deficiency in agammaglobulinemia, 2044

Nurseries, hospital
breast feeding and incidence of *E. coli* infections, 1920

Nursing
developmentally disabled; advocacy role, 779, 780
developmentally disabled; guide for management, 687
developmentally disabled; intervention with adolescents, 777
role in MR, 769

Nutrition
assessing status; Harvard tables and percentage levels of median weight-for-age, 2113
brain growth, 2343
deprivation before or after weaning in rats; effects on metabolic rate and body composition, 2107
developmentally disabled adolescent, 629
euphenic; restoring disequilibrium between genotype and environment, 3445
nasojejunal feeding and malabsorption in low-birth-weight infants, 1217
nutritional requirement for low-birth-weight infant, 1064
supplement for disadvantaged elementary-school children, 452
total parenteral, weight gain, and alkaline phosphatase serum levels in newborn infant, 225

Nutrition disorders (*see also* **Kwashiorkor; Protein-calorie malnutrition**)
malnutrition; microsomal enzymes as determined by plasma half-life of antipyrine, 1066
malnutrition; persistent measles infection, 954
malnutrition; sudden death during recovery from, 2954
malnutrition, edematous; serum albumin as prognostic indicator, 229
malnutrition, fetal; correlated factors, 2106
malnutrition, infant; total parenteral nutrition, weight gain, and alkaline phosphatase serum levels, 225
malnutrition, infant; underfeeding at breast, 227, 228
malnutrition, learning, and behavior, 2951
malnutrition/malabsorption in acrodermatitis enteropathica, 233
malnutrition, maternal, and low birth weight, 231
undernutrition, maternal; placental morphometric and morphologic alterations, 2950
undernutrition; runche (crying syndrome), 1072

Oakwood Resident Movement Scale and Curriculum: *see under* **Education of mentally retarded**

Oasthouse urine disease: *see under* **Amino acid metabolism, inborn errors**

Obstetrics, 56
current status, 67
in Great Britain, 874
hazards of elective delivery of term fetus, 2780
perinatal mortality, 875, 1840

Omphalocele: *see* **Umbilical hernia**

Operant conditioning: *see* **Behavior therapy**

Ophthalmology
MR, 656

Orbit
Wilms' tumor metastases, 3118

Organelles: *see under* **Cells**

Organic brain syndromes: *see under* **Brain diseases**

Organization and administration
special education, Iowa, 3362

Orthomolecular therapy, 2562, 3421
childhood psychoses and learning disorders, 661, 3436
hypervitaminosis, 1962, 1963
minimal brain dysfunction, 2076

Orthomyxoviruses type A
in children, 2861
H1N1, in Hong Kong, 2828
H1N1; return of epidemic to USSR, 2827

Ovulation induction
multiple abnormalities after, 372

Oxandrolone
Turner's syndrome, 1165

Oxazepam
pre-eclampsia; floppy infant syndrome prevention, 1941

5-Oxoprolinuria: *see* **pyroglutamic aciduria** *under* **Metabolism, inborn errors**

Oxytocin
challenge test, 1837
neonatal jaundice, 178, 179, 180, 181, 193, 1028, 2038, 2056

Oxytocinase: *see under* **Aminopeptidases**

Paint
lead content; handles of kitchen utensils, 2792
lead content; legislation, 3475

Paired associate learning
as ability assessment device, 3226
dyslexia, 522
MR, 498

Pancreas
widespread cytomegalovirus infection involvement in a child with islet cell dysfunction, 2881

Pancreatectomy
neonatal hypoglycemia, 1014

Paramedics: *see* **Allied health personnel**

Paramidine: *see under* **Barbiturates**

Parasites
brain damage, chronic, 155

Parathyroid hormone
defective, in hypo-hyperthyroidism, 1101

Parent-child relations
antecedent and contingent modeling by parents of handicapped children, 3520
lonely parents and child abuse, 2678
offspring of alcoholics; risks in adulthood, 1866
parent training early intervention program, 3523

Parenteral feeding
folate deficiency, 2031
heart block during, from misplaced catheter, 2329
neonatal jaundice, 1002
newborn infant, 391, 3110
premature infants, 390

Parenteral hyperalimentation: *see* **Parenteral feeding**

Parents
ANSUA Centre (Australia), 1567
autistic children; assistance seeking experiences, 3511
autistic children; cooperation with schools, 2449
autistic children; psychoeducational treatment, 2690
of cerebral palsied; Project Cope, 2688
collaborative planning with teachers for assessment of learning and behavior disorders, 1310
communication with EMR adolescents, 1303
deciding to send MR child to residential school, 2694
of Down's syndrome child; counseling, 767
education to prevent child abuse, 2503
effects of education on mental development of Down's syndrome child, 462
emotional effects of placing MR child in independent living home, 2679
of exceptional children; counseling, 2686, 3516
fathers of MR and chronically ill; impact of child's deficiency, 757
of handicapped; assessment role, 750
of handicapped; counseling, 2684, 2687, 2691, 2692, 2699
of handicapped; planning future programs, 2685
of handicapped; workshop on attitudes, 748
of hearing-impaired child; home teaching, 2689
impact of very low-birth-weight infant on, during preschool years, 2680
of infants with special problems at birth; handbook, 3521
involvement in special education, 1445
of learning-disabled; directional learning assistance, 619
of learning-disabled; educational group, 1721
of learning-disabled; emotional reactions, 760
of learning-disabled; guidelines, 565, 566, 759, 761, 762
of learning-disabled; home education, 620
learning-disabled; home therapy, 763
learning-disabled; parent-clinician program, 2693
learning-disabled; self-perception of due process in special education, 1715
of learning-disabled; sensorimotor home training programs, 3433
of learning-disabled; task analysis, 764
of learning-disabled; teaching concept skills, 617, 618
of learning-disabled; teaching perceptual motor skills, 623
of learning-disabled; training in facilitative communication skills, 3514
measuring involvement in an early intervention project, 1728
minority; use of alternative living plans by developmentally disabled children, 1697
of MR; acting as teachers, 752, 754
of MR; behavioral training, 765
of MR; clinicians' communications, 772
of MR; communication with health personnel, 3510
of MR; counseling, 3512
of MR; grief reaction and counselor's role, 746
of MR; instruction manuals for teaching and raising their children, 751
MR; maltreatment of children, 2925

of MR; obtaining consent for foster home placement, 755
of MR; services needed, 1722
of MR; summer programs, 3517
participation in early intervention educational program for developmentally disabled, 2450
participation in pupil planning process, 1495
of physically handicapped children; health education literature, 3519
of PKU children; knowledge of the condition, 1096
reactions to quality of services for MR children, 1718
and siblings of handicapped as co-therapists, 2558
of SMR and PMR; Maturation, Assessment and Training Program, 1726
stress, and child abuse, 196
trained to teach communication skills to their MR children, 3522
verbal and nonverbal interaction of mothers with their Down's syndrome and nonMR infants, 2412
working in the printing industry and birth defects, 3120

Patent ductus arteriosus: *see* **Ductus arteriosus, patent**

Pediatricians: *see under* **Physicians**

Pediatrics
learning disabilities, 2698
surgery for severely impaired newborns, 2723
use and abuse of electroencephalogram, 837

Pedigree
computerized data storage, 1844
genetic analysis, 2765

Penicillamine
-induced IgA deficiency in Wilson's disease, 255
pregnancy in Wilson's disease, 273
teratogenic effects, 99, 2877

Penicillin
in group B streptococcal infections; failure to eradicate carrier state, 938
in group B streptococcal meningitis relapse, 939, 1996
purulent meningitis in children, 2853
-resistant organism in pneumococcal meningitis (*Streptococcus pneumoniae*), 927
-resistant pneumococcal meningitis, in an immunocompromised infant, 2014
-resistant pneumococcal meningitis, in an 8-month-old boy, 1970

Pentazocine
withdrawal syndrome in newborn infant, 2809

Pentosyltransferases
adenine phosphoribosyltransferase deficiency, 1107

People First: *see under* **Social clubs**

People's Republic of China
special education, 3338

Perception
and brain waves in hyperkinesis, 2907
channel-specific remediation for first-graders, 1580
EMR; decentering, 493
EMR reactions to perceptual contradiction, 509
factors in learning disabilities, 479
MR; temporal extrapolation of unimodal and multimodal stimulus sequences, 1291
perceptual-motor characteristics of treated myelomeningocele children, 1353
perceptual-motor development in perceptually underdeveloped; music therapy, 2347
perceptual-motor functioning in children with phenylketonuria, 531
perceptual-motor performance scores; effects of repeated trials, 3174
problems in learning disabilities, 453
speech development, 1344
word processing in MR, 527

Perinatology
MR, 2754
new health care delivery system created for pregnant women and newborns, 2703

Peritoneal dialysis
mercurial diuretic intoxication, 1974

Personal Adjustment Training: *see under* **Counseling**

Personality
characteristics of male EMR successful and unsuccessful in employment, 3400
factors in MR performance, 569
social adjustment of MR, 2418

Personality development
growth hormone deficient children, 1367
MR; acquiescence, 1370
MR; emotions, 1369
MR; helplessness, 1371
MR; Piagetian view, 536
MR; psychoanalytic interpretation, 535
MR; self-concept, 1372

Personnel
communication and cooperation problems, 3527
communication with parents of MR children, 3510
psychologist's role in MR, 3532, 3533
special education, Iowa, 3361
staff training deficit and rehabilitation of MR, 775
staff training in group homes for MR, 773
survey of community living arrangement staff, Pennsylvania, 3525
training for mainstreaming, 3541
training for mainstreaming; educational resource centers model, 3542
training for mainstreaming; instruction design, 3543
wardens in hostels for MR, 3528

Personnel, hospital
"mother system," 2697
rehabilitation specialists for MR, 1626

Personnel management
structural framework in health services, 3526

Pertussis vaccine
chronic brain damage, 2885

Pethidine
effects on newborn infant, 85

-induced neonatal depression; naloxone effects, 903, 904

Pfeiffer syndrome: *see* Acrocephalosyndactylia

Phenobarbital
febrile convulsions, 3015, 3017
inhibition of fetal rabbit lung maturation by maternal treatment, 2317
newborn infant; REM sleep, apnea, and cardiac slowing, 958
pyridoxine effect on serum concentration, 303
urinary excretion in newborn infant with withdrawal symptoms, 923

Phenobarbitone: *see* Phenobarbital

Phenols
detergent associated with neonatal hyperbilirubinemia, 184

Phenothiazines
use during pregnancy; teratogenic evaluation, 901

Phenotype
contribution to intelligence of MR, 1341

Phenylalanine
fasting serum, in institutionalized patients with phenylketonuria, 1092
hydroxylation in phenylketonuria, 278
levels in low-birth-weight infants; milk protein intake effects, 1223
no effect on dihydropteridine reductase activity in phenylketonuria fibroblasts, 1105

Phenylalanine hydroxylase
immunological detection in phenylketonuria, 259
plasma; in diagnosis of phenylketonuria, 2148

Phenylketonuria
allele; heterozygote advantage, 2129, 2993
atypical, with normal dihydropteridine reductase activity, 2142
atypical, with normal phenylalanine hydroxylase and dihydropteridine reductase activity *in vitro*, 2972
birth weight, 274
carrier phenylalanine metabolism and intellectual functioning, 2130
coincident with Fahr disease, 2133
detection test, 2974
diagnosis, 2150
diet therapy; acid-base status, 2120
diet therapy; low serum tyrosine values, 1109
diet therapy; new mineral and trace metal supplement, 2151
fasting serum phenylalanine; in institutionalized patients, 1092
fatty acid composition of lipids in cerebral myelin and synaptosomes, 3027
free amino acids in tissues of rats with experimentally induced, 1098
genetic counseling, mass screening, and treatment, 1080
heterozygote detection method, 1087, 2973
hypervolemia, 2145
immunological detection of phenylalanine hydroxylase, 259
intelligence assessment, 261
lack of phenylalanine effect on dihydropteridine reductase activity in fibroblasts, 1105
masked by low protein artificial feeds, 2137
mass screening, 2975
and neurological abnormalities, 2119
patients' and families' knowledge of condition, 1096
perceptual-motor functioning in children, 531
phenotype detectable in fibroblasts, 257
phenylalanine hydroxylation, 278
plasma phenylalanine hydroxylase in diagnosis, 2148
pseudoephedrine; drug interactions, 1076
status, and self-esteem, 1077
variant forms, 266

Phenytoin
disposition in newborn and young infant; pharmacokinetic observations, 2183
malignant mesenchymoma with cleft lip and palate, after prenatal exposure to, 1868
metabolism; diazoxide effects, 306
-monosodium glutamate ingestion; neurologic manifestations, 131
pyridoxine effect on serum concentration, 303
VACTERL syndrome after, 371

Phobias
school, in learning-disabled children, 2424
toileting, in MR; behavior therapy, 3437

Phosphatases
placental; in pregnancy toxemias, 885

Phosphates
calcium ratio in diet of low-birth-weight infants, 2286
hypertonic phosphate enema; brain damage following, 205

Phosphatidylcholines
synthesis in anencephalic rat fetuses with corticosteroid deficiency, 2313

Phosphatidylglycerols
absence in lung effluent of newborn infants with respiratory distress syndrome, 2309
fetal lung maturity, 2311

Phosphatidylinositols
fetal lung maturity, 2311

Phospholipids
changes during lung development in fetal primate, 2330
fatty acids of, in newborn infant lung surfactant, 2308
tracheal; composition in twins with respiratory distress syndrome, 2325

Phototherapy
effects on growth in low-birth-weight infant, 1235
glucose-6-phosphate dehydrogenase deficiency, 1016
hyperbilirubinemia, 2027
hyperbilirubinemia; adenosine cyclic-3'-5' monophosphate levels, 2061
-induced DNA lesions; peroxidase techniques for detection, 2894
intermittent; effect on bilirubin levels in rats, 2026
lack of effects on neonatal oxygen dissociation curves and hemoglobin concentration *in vivo*, 1017

neonatal jaundice, 187, 1001, 1016
treatment of infants causing sister chromatid exchange, 3084

Phrenic nerve
bilateral palsy in newborn infant, 1237

Physical education and training (*see also* **Education of mentally retarded; Education, special**)
impaired, disabled, and handicapped, 3497
MR; behavior training on exercycle, 2566
MR; evaluation of motor skills, 1452
SMR; promoting walking, 2572

Physical and Neurological Examination for Soft Signs, 3286

Physical stimulation
SMR and PMR; effects of cuddling and skin contact, 2542

Physical therapy
cerebral palsy, 657
handicapped, 1586

Physicians
continuing education; genetic counseling, 1533
the neonatal surgeon, 768
pediatricians; training for effective involvement with handicapped preschool children and their families, 3364
primary care; genetic counseling, 2769
relations with Tay-Sachs disease families, 263
screening for psychosocial problems, 563

Pica
behavior in MR; treatment strategy, 1590

Piedmont Region Model for Family Involvement, 758

Pierre Robin syndrome
nasoesophageal intubation, 1209

Piracetam
learning enhancement, 677

Placenta
aminophylline toxicity across, 1913
anterior; fetoscopy, 825
edema; IgG deficiency in association with, 2141
morphology in fetal I-cell disease, 1086, 2983
morphometric and morphologic alterations in maternal undernutrition, 2950
phosphatase in pregnancy toxemias, 885
premature infant, 3140
surface area reduction; effect on fetal growth, 1855
transfer of thyroid stimulating immunoglobulin and neonatal thyrotoxicosis, 2169

Placental lactogen
fetal distress assessment in toxemia of pregnancy, 1945
immunodiffusion for estimation in pregnancies at risk, 882
pregnancy toxemias, 885
vs. cystylaminopeptidase activity estimation in detecting twin pregnancies, 883

Plasma
exchange in rhesus incompatibility, 2049
unconjugated estriol values in high-risk pregnancy, 869

Plasmapheresis
continuous flow, in fetal erythroblastosis, 1031
treatment of fetal erythroblastosis, 2033
Rh isoimmunization, 1024

Plasminogen
hyaline membrane disease prevention, 3147

Play and playthings
group games in learning and behavior disorders, 1308
handicapped and nonhandicapped preschool children, 1362
MR, 2676
SMR and PMR; reinforcement of play to reduce stereotyped behavior, 2567

Play therapy
for handicapped, by nonhandicapped peers, 50
SMR, 2565

Pneumococcal infections
Streptococcus pneumoniae in newborn infants, 965

Pneumomediastinum: *see* **Mediastinal emphysema**

Pneumonia
H. influenzae; resistance to ampicillin, 1969

Pneumonia, viral
cytomegaloviruses, in infant; perinatally acquired, 101
fatal, in newborn infant, from echovirus 9, 2871

Pneumopericardium
newborn infant; pericardial catheter and drainage system, 443
newborn infant; treatment, 2321

Pneumoperitoneum
very low-birth-weight infant, 3133

Pneumothorax
in newborn infant, followed by inappropriate antidiuretic hormone secretion, 2322
respiratory distress syndrome, 427
transillumination in respiratory distress syndrome, 1260

Poliomyelitis
after oral vaccine, in child with sex-linked agammaglobulinemia, 2207
after oral vaccine, in immunodeficient child, 1968

Poliovirus vaccine
recommendations for national policy, 1967

Poliovirus vaccine, oral
poliomyelitis after, in child with sex-linked agammaglobulinemia, 2207
poliomyelitis after, in immunodeficient child, 1968

Politics
advocacy for handicapped, 1637

Polycythemia
with intrauterine growth retardation in fetal lambs, 1073

Polymorphism (genetics)
plasma cholinesterase, in Down's syndrome, 3066

Polysaccharides
meningococcal vaccines A and C; antibody persistence after immunization, 1934
type b capsular vaccine for *Haemophilus influenzae* in children, 1940

Porphyria
acute intermittent; prenatal diagnosis, 286
hereditary coproporphyria and epilepsy, 3011

Positive-pressure respiration, 2299
continuous; in apnea, 419
continuous; complication, 412
continuous distending; in respiratory distress syndrome, 435
continuous; in hyaline membrane disease, 2328
continuous; in newborn infant, 1236
continuous; optimum levels for tracheal extubation, 414
continuous; positive end-expiratory pressure, 436
continuous; in respiratory distress syndrome complicated by patent ductus arteriosus, 3153
continuous; in respiratory distress syndrome; optimal levels, 2295
continuous; tissue oxygen available as criterion for effectiveness, 2314
effects on regional blood flow; newborn lamb, 2306
mask-applied positive pressure in very low-birth-weight infant; intracerebellar hemorrhages, 387
in neonatal period; neurologic sequelae in survivors, 2910

Prader-Willi syndrome, 1070
complicated by obesity hypoventilation syndrome; progesterone treatment, 1186
metabolic aspects of dietary management, 673

Preauricular pit syndrome: *see under* **Kidney**

Pre-eclampsia: *see under* **Pregnancy toxemias**

Prednisolone
in vitro metabolism by the human placenta, 2811
prevention of respiratory distress syndrome, 2312

Prednisone
maternal therapy in rats and postnatal brain development, 1914

Pregnancy
acetylsalicylic acid, 110
acetylsalicylic acid; perinatal mortality and birth weight, 84
antenatal care, perinatal mortality, and birth weight, 47
attenuated rubella vaccination during, and risk to fetus, 2842
diagnostic x-rays, 24, 25
diagnostic x-rays and therapeutic abortion, 892
D-penicillamine treatment; neonatal abnormalities, 99
effects of behavioral and medical variables on fetal growth retardation, 3129
high-risk; low-birth-weight delivery, 1219
high-risk; plasma unconjugated estriol values, 869
high-risk; prenatal vs. postnatal referrals to intensive care units, 873
high-risk; prostaglandin E_2 vs. oxytocin for labor induction, 894
high-risk; relationship between accelerated pulmonary maturity and accelerated neurologic maturity, 3179
hormone tests and congenital limb-reduction defects, 151
hormone tests and multiple abnormalities, 357
hormones administered during, and congenital malformations, 354
hydantoin; and congenital glaucoma, 149
hydantoin; fetal risk, 72, 89
immunodiffusion of placental lactogen, 882
maternal and infant antibody response to meningococcal vaccination, 1997
maternal variables and congenital malformations, 2254
outcome among women in anesthetic practice, 976
outcome; social and medical correlates of, 2774
prednisone therapy and postnatal brain development in rats, 1914
prenatal care to prevent low birth weight and prematurity, 2763
promethazine therapy and neonatal immunologic functions, 188
propranolol during; effects on newborn infant, 972, 973
radiographic examination and birth defects, 3092
rifampin; neural tube defects, 1951
smoking; complications and perinatal mortality, 902
smoking; effect on fetus and child, 113, 2106, 2797, 2798, 2799, 2800, 2801
smoking; effect on maternal weight gain and fetal growth, 92, 167
teratogenic evaluation of Bendectin components, 900
teratogenic evaluation of phenothiazines, 901
warfarin as teratogen, 128

Pregnancy complications
alcohol abuse; effects on offspring, 1867
bleeding and brain damage in infancy, 1859
bleeding and congenital anomalies, 2270
bleeding and early infantile autism, 589
cytogenetics of methadone-managed and heroin-addicted women and their newborn infants, 3093
drinking associated with increased risks of congenital anomalies and neurologic abnormalities in infants, 2812
estriol and 15-hydroxyestriol as indicated, 1838
intra-abdominal; oligohydramnios, 351
intrauterine growth retardation; unconjugated estriol in maternal vein and artery serum, 1067
lead poisoning during; domestic water, 2023
maternal drug use and newborn infant bilirubin concentration, 126
maternal malnutrition and low birth weight, 231
maternal methadone ingestion and withdrawal syndrome in newborn infant, 2009
maternal primary hyperparathyroidism; parathyroidism, 3002
mental illness and birth outcome, 445
mercury poisoning, 2813

and MR in offspring, 2753, 2784
and respiratory distress syndrome of newborn infant, 418
Rh-sensitized; management, 1011, 1012
Wilson's disease treated with penicillamine, 273

Pregnancy complications, infectious
cellular immunity impairment; antiviral effect of amniotic fluid, 1876
follow-up serological screening for rubella during, 961
hepatitis and fetal outcome, 2004
Listeria monocytogenes; effect on offspring, 1915
and MR in offspring, 2783
parity of women contracting rubella during, and vaccination, 116
rubella in early pregnancy, 946

Pregnancy in diabetes
blood glucose and amino acid concentrations in infants, 2041
lecithin/sphingomyelin ratio as index of pregnancy complications, 1839
respiratory distress syndrome, 3148
respiratory distress syndrome, high incidence of, 3160

Pregnancy, multiple
amniotic fluid alpha fetoprotein levels, 1803, 1818
twin; diagnosis of mosaicism after spontaneous abortion, 805
twin; pre-eclampsia/eclampsia, 1980
twin; raised alpha fetoprotein concentrations, 1851

Pregnancy, prolonged
effects on infant development, 1858

Pregnancy toxemias
drug therapy, 1961
factor VIII, and fetal growth retardation, 1976
fetal distress assessment, 1945
intravascular volume determinations and fetal outcome, 884
placental lactogen, oxytocinase, and phosphatase, 885
pre-eclampsia/eclampsia; immunogenetic factors in etiology, 1979
pre-elampsia/eclampsia; in twin pregnancies, 1980
pre-eclampsia; oxazepam prevention of floppy infant syndrome, 1941
test to identify women at risk, 2879

Prejudice
report on discrimination against minority children in special education, 1422
social, towards MRs, 3488

Premature labor: *see* Labor, premature

Prenatal care
early; effect on pregnancy outcome, 2774

Prenatal diagnosis
achondrogenesis, 1816
acute intermittent porphyria, 286
alpha fetoprotein, 1805
alpha-thalassemia, 176
amniocentesis in early pregnancy, 1830
amniocentesis; risks, 819
amniocentesis; safety and accuracy, 808
amniotic fluid, 1820
anencephalus, 367
anencephalus and spina bifida, 813, 839
beta-thalassemia and sickle cell anemia, 820, 881
congenital adrenal hyperplasia due to 21-hydroxylase deficiency, 2985
congenital rubella, 838
DNA cytophotometry, 823
Down's syndrome, 3036
Down's syndrome; amniocentesis, 28
Duchenne muscular dystrophy; 842, 1828
Duchenne muscular dystrophy, using fetal serum-creatine-kinase activity levels, 2767
erythroblastosis, fetal, 872
ethics of abortion, 799
failure to detect sex chromosomal mosaicism, 1817
for families with history of reproductive loss, 3082
fetography to measure fetal weight, 887
fetoscopy, 1813
fetoscopy and anterior placentas, 825
fetoscopy; case of chondroectodermal dysplasia, 816, 817
fetoscopy; continuing pregnancies, 1813
fetoscopy; Ellis-Van Creveld syndrome, 2262
fetoscopy and fetal biopsy, 811
fucosidosis, 2126
galactosemia, 1102
genetic defects, 31, 1808
genetic defects; amniocentesis, 2740
genetic defects; sonographically directed placental aspiration, 2739
genetic investigations preceding amniocentesis in Down's syndrome, 331
genetic screening and counseling by personal physician; guidelines and problems, 2777
and gonadal findings in X/XXX mosaicism, 3062
hemoglobinopathies, 194, 1018
hereditary diseases, 810
Hunter's syndrome; iduronate sulfatase in amniotic fluid, 1081
Hurler's disease, 279
hypophosphatasia, 245, 254, 843
imperforate anus; disaccharidase assay, 1849
legal aspects, 68
Maroteaux-Lamy syndrome, 270
Meckel syndrome; fetal globulins, 824
Menkes' kinky hair syndrome; copper incorporation studies, 252
metabolism, inborn errors, 827
metachromatic leukodystrophy, 2091
minimizing amniocentesis risk, 840
mosaicism, 1132, 3075
mosaicism for trisomy D, 807
mosaicism in twin pregnancy, 805
MR arising from fragile sites on band Xq27 or 8 chromosomes, 1137
mucolipidosis IV, 275, 2982
muscle nuclear changes in fetuses at risk for Duchenne muscular dystrophy, 3166
neural tube defects, 3098
neural tube defects; adhering amniotic fluid cells, 2237, 2245, 3100, 3101
neural tube defects; amniotic fluid cell counts, 1188
neural tube defects; amniotic fluid fibrinogen degradation products, 1207
neural tube defects; equivocal amniotic fluid levels of alpha fetoprotein, 3099

neural tube defects; false-negative screen, 1187
Niemann-Pick disease, type A, 2159
placental sulfatase deficiency, 2978
Saldino-Noonan dwarfism, 1815
stillbirths and macerated fetus, 332
techniques used to rule out maternal cell contamination, 2766
thalassemia and sickle cell anemia, 2891
trisomy X; implications for genetic counseling, 3067

Prescreening Developmental Questionnaire: *see under* **Developmental disabilities**

President's Committee on Mental Retardation: *see under* **Mental retardation**

Preventive health services
MR, 2759, 2761
prenatal care to reduce prematurity and low birth weight, 2763

Preventive medicine
developmental disabilities, 1864
lifetime health-monitoring program, 51
MR; pharmacological intervention, 2755
national genetic disease program, 69
practiced by independent schools, 2846

Prisoners
percentage of MR, 3481

Privileged communication
large-scale assessment programs, 1824

Problem solving
quantitative abilities of EMR children, 1302
strategies in MR, 513

Progeria
Cockayne syndrome, 370
Cockayne syndrome; cellular sensitivity to ultraviolet light, 1197
new variant, 369

Progestogen: *see under* **Hormones**

Progesterone
in Prader-Willi syndrome complicated by obesity hypoventilation syndrome, 1186

Progress Assessment Chart of Social and Personal Development: *see under* **Socialization**

Project Cope: *see under* **Cerebral palsy**

Project HOLD: *see under* **Learning disorders**

Project IMPACT: *see under* **Mainstreaming**

Project KIDS: *see under* **Handicapped**

Project MEMPHIS: *see under* **Education, special**

Project PRICE: *see under* **Vocational education**

Project Scan: *see under* **Child abuse**

Project TELSTAR: *see under* **Developmental disabilities**

Prolactin
deficiency in pseudohypoparathyroidism, 299

Prolactin releasing hormone
impaired release and dopaminergic excess in Huntington's chorea, 2090

Promethazine
immunosuppressive effect on newborn infants, 188

Propranolol
during pregnancy, labor, and delivery; effects on newborn infant, 972
effects on newborn infant, 973

Prostaglandins
E_2; comparison with oxytocin for labor induction in high-risk pregnancies, 894
role in herpes simplex recurrence, 93
role in pathogenesis of respiratory distress syndrome in newborn delivered by cesarean section, 1239

Protein-calorie malnutrition, 226
BCG vaccination, 232
in children; therapy with parent's lymphocyte transfer factor, 236
and chronic gastroenteritis in pyogenic meningitis, 1905
delayed nerve conduction velocities in children, 224
effect of zinc on thymus, 2955
energy metabolism of brain, 2952
fasting plasma insulin and growth hormone concentrations in children, 2948
gastric acid secretion, 2103
hair root examination, 822
lymphocyte alterations and depressed immunity, 1074
maternal, and development of neonatal intestinal function in rats, 2104
maternal, and infant response to infection, 988
maternal, and neuron proliferation in mouse embryo cerebrum, 2110
thyroid hormone levels, 230

Proteins
effects of plasma glucagon and insulin concentration in small-for-gestational age infants, 3127
phenylketonuria masked by artificial feeds low in, 2137

Proteinuria
fetal, and congenital nephrosis detected by raised alpha fetoprotein levels in maternal serum, 818

Pseudocholinesterase: *see under* **Cholinesterases**

Pseudoephedrine: *see under* **Drug interactions**

Pseudohermaphroditism
due to XY gonadal absence syndrome, 2264
Leydig cell agenesis, 1130

Pseudohypoparathyroidism
cholecalciferol (1α-hydroxy- and 1,25-dihydroxy), 291
heterogeneous hormonal disorder, 298

prolactin deficiency, 299
variables within a family, 2967
vitamin D, 2165

Pseudomonas infections
Pseudomonas cepacia meningitis; trimethoprimsulfamethoxazole (Bactrim), 1956

Psychiatry
MR, 653, 666, 668, 688, 1581, 1584

Psychoanalysis
personality development in MR, 535

Psycholinguistics
analysis of oral reading errors in learning disorders, 2352
strategy to ameliorate language disorders in MR, 3189
use of rules of grammar by MR, developmentally backward, and normal children, 1345

Psychological tests
Adaptive Behavior Scale; predicting sheltered workshop productivity, 2430
Behavior Rating Inventory for the Retarded, 2441
learning-disabled, 1406, 2439, 2440
Minnesota Child Development Inventory, 2438, 3283
MR, 1399
Observational Checklists for Referral, 2447
pediatric screening for psychosocial problems, 547
SMR under 18, 1405
Social and Prevocational Information Battery, 601, 1376, 1401
system of multicultural pluralistic assessment (SOMPA), 596

Psychology
methodological issues in MR research, 2711

Psychology, experimental
ecological validity in studies of MR, 790

Psychometrics
early infantile autism, 546

Psychophysiology
cardiac and respiratory responses in MR during visual search, 457
parameters of attention in deficit readers, 476

Psychoses
childhood; coping patterns of families, 1727
childhood; intellectual characteristics of adolescents with high verbal ability, 1290
childhood; orthomolecular therapy, 661, 3436
erotomanic delusions in MR patient, 1390
MR, 585

Psychoses, manic-depressive
camping trip for patient, 3508

Psychosocial dwarfism: *see under* **Dwarfism**

Psychotherapy
and adjuvant amphetamine therapy to treat children with hyperkinetic syndrome, 3242
developmentally disabled, 669
learning disorders and affective disorders, 2553
MR, 1589, 2604, 3417

Psychotherapy, group
autistic/schizophrenic adolescents, 1573
MR adolescents, 1607
multifamily therapy, 2561

Psychotropic drugs
use in children, 1575

Public Law 94-142 (Education for All Handicapped Children Act): *see under* **Legislation**

Public relations
MR's professional role in public information, 771

Pulmonary superoxide dismutase: *see under* **Lung**

Punishment
electric shock effects on autistic children, 3425
exceptional children; classroom discipline, 3308
SMR; aggressive and destructive behavior, 2574

Purine nucleosides
-phosphorylase deficiency; immune dysfunction pathogenesis, 237

Purine 5'-nucleotidases: *see under* **Nucleotidases**

Purine-pyrimidine metabolism, inborn errors
adenine phosphoribosyltransferase deficiency, 1107
xanthinuria; brain damage in children of affected mothers, 1106

Purines
metabolism in Gilles de la Tourette syndrome, 304

Pyridoxine
effect on serum concentration of phenytoin and phenobarbitone, 303
therapy for cystathionine beta-synthase deficiency, 2958
therapy for homocystinuria, 1108

Pyroglutamic aciduria: *see under* **Metabolism, inborn errors**

Pyruvate carboxylase
Reye's syndrome, 2816

Pyruvate dehydrogenase complex
deficiency; ketonic diet, 674
deficiency in subacute necrotizing encephalomyelopathy, 221
dihydrolipoyl dehydrogenase deficiency in congenital lactic acidosis, 2154
Reye's syndrome, 2816

Quality of life
considerations in passive euthanasia, 781
formulation in terms of potential and environment, 2702

Rachitic respiration disorder: *see under* **Respiration disorders**

Racial stocks
ABO hemolytic disease; differences in frequency, 1030

Radiography
diagnostic; chromosome aberrations, 2205
diagnostic, and genetic damage, 3090, 3091
diagnostic, in pregnancy; and ultrasonics, 928
during pregnancy, 24
during pregnancy, and abortion, 892
during pregnancy, and birth defects, 3092
in late pregnancy and in newborn infants, 25
neoplasms, in embryo and fetus, 118
routine skull; febrile seizures of childhood, 2175
routine skull; recurrent convulsions in children, 2176
teratogenic potential and the 10-day rule, 80

Radioiodine
therapy for thyrotoxicosis; hypothyroidism after, 253

Rancid butter syndrome: *see under* **Amino acid metabolism, inborn errors**

Reaction time
and intelligence in MR, 492, 494
of MR; influence of contextual cues, 514
performance of MR adolescents, 512
and visual evoked potentials in normal and dyslexic children, 3187

Reading (*see also* **Dyslexia**)
abilities and paradigmatic language behavior in learning-disabled children, 2513
achievement and self-concept of EMR boys, 3211
color coding effect on letter discrimination, 1490
EMR; visual perception training effects, 1477
MR, 2379
pattern development in children; laterality effects, 471
performance; effect of auditory perceptual remediation program, 1488
retardation, 2409
retardation, in Denmark, 1501
retention and transfer in TMR, 491
and speech relationships in children, 465
strategy used by MRs, 3184
teaching adult MR through mental effectiveness training, 1543
teaching SMR, 1456, 1528
TMR children, 3295
verbal processing and reaction times in normal and poor readers, 3223

Reading disorders: *see* **Dyslexia**

Reading-Free Vocational Interest Inventory: *see under* **Vocational guidance**

Records
of MR in residential facilities; tracking system, 727

Recreation
art for MR, 2677
art for MR; rubbings, 1713
boating activities for the disabled, 1704
camping trip for manic-depressive, schizophrenic and MR patients, 3508
camping trip; self-concept of MR after, 3506
handicapped, 742, 743, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674
for MR adult, in community, 1714
puppetry for the exceptional child, 3507
SMR, 3505
toy play curriculum for young handicapped children, 2535

Reflex
development in cerebral palsied; effect of chronic cerebellar stimulation, 2940

Regional blood flow
positive-pressure respiration effect; newborn lamb, 2306

Rehabilitation (*see also* **Rehabilitation, vocational**)
cerebral palsy, 2093
handicapped and developmentally disabled, 1625
meningomyelocele, 3119
MR, 1643
MR; behavioral research, 1760
MR; integrated program, 1628
MR; professional staff training deficits, 775
MR; Rio Grande Valley program, 1461
MR; social, 1558
swimming benefits for the handicapped, 1706
swimming techniques and programs for the handicapped, 1705

Rehabilitation centers
adult MR, 2543
Adult Training Center, Scotland, 1647
Meyer Children's Rehabilitation Institute, 2664

Rehabilitation, vocational (*see also* **Rehabilitation; Sheltered workshops; Vocational education**), 645
Adult Training Center, Scotland, 1647
developmentally disabled adolescent, 649
employment status and social adjustment of MR special class graduates, 2475
EMR and SMR, 1560
handicapped, 1586, 2546
hiring MRs for repetitive jobs, 3389
MR, 648, 1558, 1559, 3398
MR; adult training centers, 2543
MR; deinstitutionalization strategy, 1557
personality characteristics of male EMR successful and unsuccessful in employment, 3400
SMR, in Israel; group approach, 1561

Reinforcement (psychology)
contingencies; effect on arithmetic performance in learning-disabled children, 1518
imitating MR children during imitation training, 2557
immediate and delayed reward preferences of TMR, 2390
management of classroom aggression, 2425
-modeling paradigm for teaching adolescent MRs to tutor SMRs, 2590
MR; total token economy program, 2889

SMR and PMR; long-term retention of self-help skills, 2587
SMR and PMR; reinforcement of toy play to reduce stereotyped behavior, 2567
SMR; prompting to promote positive social interaction, 2564
SMR; reducing hyperkinesis, 2570
SMR; for stereotyped behavior, 2596

Religion
education of mentally retarded, 3337

Remedial teaching
learning-disabled children, comic strips, 1519
task-analysis model vs. ability-training model, 3318

Renal allograft: *see under* **Kidney**

Renal anomalies: *see under* **Kidney**

Renal dysgenesis: *see under* **Kidney**

Renal transplant: *see under* **Kidney**

Reoviruses
infection in adult contacts of pediatric patients with gastroenteritis, 1904
type 1 hydrocephalus; pathogenesis, 2831

Research
behavioral; habilitation of MR, 1760
behavioral; SMR and PMR, 791
cognitive; education of MR, 1523
comparative; interpretation of interactions, 1789
deinstitutionalized MR, 1680
laboratory, on MR; validity, 796, 797
MR, 1756
MR; needs, 21
paradigms for attitudes toward MR, 702
therapeutic and nontherapeutic, in children; medical ethics, 1790

Research support
MR, 804

Reserpine
effect on cell proliferation in developing brain, 1977

Residential facilities
active programming implementation and documentation, 1695
affective disturbances, 1587
alternative for MR; cost effectiveness analysis, 726
Assessment/Program Tools, 1700
automated device for toilet training, 2576
behavior modification program implementation, 3416
community attitudes toward group homes for MR, 1648
community residential alternatives for developmentally disabled, 1649
deinstitutionalization of MR, 735
descriptive profile of residents, 708
developmentally disabled, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 3502
discharge of MR from, to community care, 3491
Elwyn Institute, 1677
environmental design effects on SMR and PMR adolescents in, 1698
expert witness testimony in right-to-treatment lawsuit, 716
federal standards for intermediate care facilities, 1657
group homes for developmentally disabled and MR adults, 3504
group home study; SMRs and PMRs, 1655
handicapped children, 2663
infections, 738
language development, 2393
least restrictive ruling in Ohio, 1660
mental age changes in Down's syndrome patients, 3200
MR, 734, 1678, 2651, 2660, 2661, 2666, 3503
MR; accident and injury costs, 1696
MR; alternative living plans and minorities, 1699
MR; architectural modifications to promote normalization, 2662
MR behavior; quantitative observations, 1683
MR; civil rights, 2657
MR; in community, 729
MR; coronavirus infections in, 1975
MR; effects, 728, 2655
MR; in England, 740
MR; freedom and constraint, 1626
MR; institutionalization as convenient solution, 3488
MR; institutional reform, 2658
MR; large and small units compared, 730
MR and mentally ill, 714
MR, in Michigan; abuse and neglect of children, 3450
MR, in New Jersey; special education suit, 3451
MR; psychological aspects, 3493
MR; satisfaction and activities, 1692
MR; social policy implications of research on effects on residents, 736
MR; status of services, 2656
MR; survey of cooperative programs with higher education institutions, 2462
MR, as therapeutic communities, 733
National Association of Superintendents of Public Residential facilities; position paper on behavior therapy for MR, 1603
normalization for MR, 1685
organizational characteristics and quality of care, 731
Outwood (Kentucky) State Hospital and School; Federal class action lawsuit against, 1658
parents' decision to institutionalize MR child, 2694
pending legislation authorizing U.S. Attorney General to sue on behalf of residents, 1661
predischarge units for normalization of MR, 737
psychiatric hospitalizations of MR children, 710
quality of care; decision making, 1690
relocation effects on behavior of MR, 709
resident characteristics and staff behavior in MR hospitals, 739
resident participation in institutional policy, 3495
SMR; experimental cottage, 2641
SMR and PMR, 2640
tracking system for residents' records, 727
transfer of Willowbrook residents, 1659
visual reinforcement audiometry for PMR, 829
WAIS scores of institutionalized MR, 3194
Willowbrook, 1688, 1689
Willowbrook; accelerated community placement schedule, 1656
workshop group for MR, 1694

Respiration
fetal, 2297
meconium aspiration syndrome; delivery room prevention and management, 1259
narcotic depression, in newborn infants; naloxone reversal, 1923
pulmonary damage during neonatal resuscitation, 406
tracheal extubation of newborn infant, 1250

Respiration disorders
failure associated with familial depression of ventilatory response to hypoxia and hypercapnia, 426
rachitic, in premature infant, 2326

Respiratory distress syndrome (*see also* **Hyaline membrane disease**), **1242, 1253**
alpha 1-antitrypsin in amniotic fluid and cord blood of preterm infants, 2294
amniocentesis to determine risk in repeat cesarean section, 1256
Apgar score and ventilatory measurements at birth, 1238
betamethasone; effect on adrenal function in fetus and newborn infant, 2298
betamethasone; effect on leukocyte function, 2333
betamethasone; leukemoid reaction in premature infant, 3155
blood transfusion in newborn infant, 433
cesarean section and prostaglandins; role in pathogenesis, 1239
centronuclear myopathy in newborn infant, 1254
cerebral intraventricular hemorrhage, 434
complicated by patent ductus arteriosus in preterm infant; continuous positive airway pressure, 3153
continuous distending pressure, 435
continuous positive airway pressure, 414
continuous positive airway pressure; complication, 412
corticosteroids and beta-adrenergic catecholamines, 424
decreased frequency of, prolonged rupture of fetal membranes, and patent ductus arteriosus in preterm infants, 3137
dexamethasone, 422
dexamethasone levels in mothers undergoing cesarean section and their premature infants, 2320
distinguished from transient tachypnea of newborn, 2293
early onset group B streptococcal infections, 936
echocardiographic assessment of cardiovascular function and pulmonary vascular resistance, 1246
epidemiology, 428
exchange transfusion in low-birth-weight infants with and without, 399, 400
foam stability test, 403, 3157
foam stability test on gastric juice, 2302
glucocorticoids for prevention in premature infants, 3151
high incidence in diabetic mothers with mature lecithin/sphingomyelin ratios, 3160
and hydrops fetalis associated with congenital heart block, 1215
indomethacin; randomizing the first patient, 1258
and Jeune syndrome, 2247
kidney function, 429
lecithin/sphingomyelin ratio; newborn infants, 407
lecithin/sphingomyelin ratio; sex incidence, 421
lecithin/sphingomyelin ratio; surfactant phospholipid levels, 2311
lecithin/sphingomyelin ratio; tracheal aspirate, 405
long-term pulmonary sequelae in premature infants with and without, 2288
in low-birth-weight infants; pulmonary function tests, 1234
maternal diabetes, 3148
maternal intravenous ethanol in prevention of, 3146
neck mass in newborn infant, 1245
neonatal cerebral intraventricular hemorrhage and hyaline membrane disease, 1244
newborn infant with hemothorax, 1249
newborn infant; measurement of renal function, 1248
newborn infant; pregnancy complications, 418
optimal continuous positive airway pressure, 2295
patent ductus arteriosus, 438, 439
persistent ductus arteriosus, 2327
phosphatidylglycerol absence in lung effluent, 2309
pneumothorax, 427
postnatal triiodothyronine concentrations in infants, 2301
predictive value of amniotic fluid lipid extract surface tension, 2305
premature infants, 393, 3163
prevention, 3145
prevention with betamethasone and cortisol, 2324
prevention with corticosteroids; hazards, 2310
prevention with prednisolone, 2312
red cell superoxide dismutase enzyme levels in premature infants, 2315
restoration of lung pressure-volume characteristics with surfactant, 3149
serum albumin concentrations, yellow hyaline membranes, and kernicterus, 2318
serum plasminogen and lung surfactant, 3144
synthetic steroid metabolism in human placenta, 2811
thyroid function in premature infants recovering from, 2300
tracheal phospholipid composition in twins, 2325
transillumination for pneumothorax and pneumomediastinum, 1260
treatment complicated by edema of the nasal mucosa, 3158
and umbilical hernia in low-birth-weight infant, 2289

Respiratory syncytial viruses
in early infancy; circulating antibody and severity of infection, 1928
infant infection, 100
infant infection and apnea, 1257

Respiratory tract diseases
lower respiratory tract disease with leukocyte-associated viremia and adenovirus type 2, 2872

Retinoblastoma
chromosome abnormalities, 1060

Retrolental fibroplasia, 1210
PaO_2 levels, 2335, 2336, 2337

Reye's syndrome, 123, 980, 1936
acetaminophen toxicity, 159
blood coagulation abnormalities, 2008
cerebral inclusions, 74
chicken pox hepatitis, 1926

deficient hepatic pyruvate dehydrogenase and pyruvate carboxylase, 2816
diagnosis and treatment protocols, 915
EEG correlations with biochemical abnormalities, 2817, 2819
exchange transfusions with Scribner shunt, 219
fatty acid metabolism of brain capillaries and cerebral edema, 144
hepatic ATP concentrations and glycolytic enzymes, 218
hypothermic total body washout and intracranial pressure monitoring in stage 4 hepatic coma, 1990, 1991
influenza B-associated; diagnostic criteria, 1937
influenza; epidemiological relationship, 1899
intracranial pressure monitoring, 978
Jamaican vomiting sickness, 2820
liver biopsy, 223
mimicked by acute liver disease and encephalopathy, 1056
positive spike burst significance, 2818
recurrence, 115
relapses and neurological sequelae, 993
therapy with urea cycle intermediates; potential hazards, 1995
viral ketoacidosis, 132
without initial hepatic involvement, 2815

Rh factors: *see* Rh-Hr blood-group system

Rh hemolytic disease: *see* Erythroblastosis, fetal; Rh-Hr blood-group system

Rh-Hr blood-group system
anti-Rh(D) immunoglobulin for Rh-negative mothers, 828
intrauterine blood transfusion, 2037
intrauterine blood transfusion and plasmapheresis, 1024
maternofetal hemorrhage and sensitization, 182
plasmapheresis in Rh hemolytic disease, 2049
prenatal barbiturate in Rh hemolytic disease, 2035
Rh immune globulins in Rh hemolytic disease, 1013
Rh sensitized pregnancy; management, 1011, 1012

Rifampicin: *see* Rifampin

Rifampin
in pregnancy; neural tube defects, 1951

Ritalin: *see* Methylphenidate

Roentgenography: *see* Radiography

Rubella
congenital, and autism, 2845
congenital; chromosomal abnormalities, 998
congenital; cord blood IgM, 913, 967
congenital; educational placement of children, 1503
congenital; growth hormone deficiency, 1886
congenital; hypothyroidism, 136
congenital; prenatal diagnosis, 838
congenital; rubella virus antigen identification in thyroid of child with chronic thyroiditis, 907
congenital; thyroiditis, 107
congenital; vaccination program in Australia, 1896
deaf-blind child; psychological assessment, 2847
in early pregnancy, 946
and herpesvirus hominis type 1 in pregnancy; antiviral effect of amniotic fluid, 1876
immunization among adolescent females, 2003
immunization; current status, 160
improving immunization levels, 2841
outbreak among military personnel, 1978
parity of pregnant women contracting, and vaccination, 116
susceptibility of adolescent girls, 2843
susceptible women offered vaccination when applying for oral contraceptives, 906
vaccination; follow-up serological screening in pregnant women, 961
vaccination policies, 1890
vaccination program of independent schools, 2846
vaccination, while taking oral contraceptives, 953

Rubella vaccine
attenuated, in early pregnancy; fetal risk, 2842
in autistic children; undetectable hemagglutination-inhibition antibody titers, 3262
Cendehill; serum antibodies 9 years after immunization, 2839
HPV-77 DE5 strain; failure to sustain antibody titers, 1944
live; teratogenicity, 1878
monovalent and combined with measles and mumps vaccines, 1973

Rubenstein-Taybi syndrome: *see under* Abnormalities, multiple

Runche (crying syndrome): *see under* Nutrition disorders

Russell-Silver syndrome, 3107
ambiguous genitalia, 3116
crossed asymmetry, 3068

Saethre-Chotzen syndrome: *see under* Abnormalities, multiple

Saldino-Noonan dwarfism: *see under* Dwarfism

Salmonella infections
meningitis, in infants, 2876

Sandhoff's disease
juvenile variety, 3112

Scalp
fetus; hazards of electrode monitoring, 38, 52, 58, 1854, 2235, 2779

Schizophrenia
camping trip for patient, 3508
chronic; cerebral atrophy and cognitive impairment, 3266
group therapy; autistic/schizophrenic adolescents, 1573

Schizophrenia, childhood, 1368
genetics and phenomenology; early onset and pubescent, 3261

Schools
autistic children; cooperation with parents, 2449
independent; rubella vaccination policy, 2846
nonpublic; costs of special education, 1487
role in dealing with child abuse, 2511

Sclerosteosis: *see under* **Abnormalities, multiple**

Screening: *see* **Mass screening**

Scribner shunt: *see under* **Technology, medical**

Seizures: *see* **Convulsions; Epilepsy**

Self concept
capacity among institutionalized PMR to recognize self in mirror, 3252
MR, 1372
MR; support through social work, 3386
MR young adults, after camping trip, 3506
phenylketonuria, 1077
and reading achievement of EMR boys, 3211
Sesame Street materials for fostering positive self-image in MR, 2538
TMR in a semi-integrated setting, 1395

Self esteem: *see* **Self concept**

Self mutilation
Lesch-Nyhan syndrome, 2964
by MRs; reduction by facial screening, 3408
in SMR; behavior therapy, 3269

Self stimulation
behavior therapy, 2608

Septicemia
ampicillin-sensitive, in infant; ampicillin-resistant *Haemophilus influenzae* meningitis following, 968
Campylobacter fetus, and hepatitis in child with agammaglobulinemia, 2012
group B streptococcal, in newborn infant; radiographic findings, 990
of meningitis; agent in seeding of cerebrospinal fluid, 2884
meningococcal, in infants, 141
neonatal candidal, preceding inflammatory aqueductal occlusion in prematures, 2863
streptococcal, in newborn infant, 108

Serotonin
elevated levels in children; myoclonus following 5-hydroxytryptophan, 300
5-hydroxytryptamine and dopamine uptake; Huntington's chorea blood platelets, 2095
hyperserotonemia and amine metabolites in autistic and MR children, 2987
levels in blood platelets in early infantile autism 3175
metabolism in neuropsychiatrically disturbed children, 3178

Sesame Street
for MR, 2538, 3335, 3336

Sex behavior
counseling handicapped, 587
MR, 1380
MR; psychosexual adjustment, 1373

Sex chromosome abnormalities, 1155
ambiguous genitalia in XX male children, 3045
band Xq27 or 8 fragile sites; prenatal diagnosis of MR, 1137
child development, 1160
dermatoglyphics, 1119
familial X-linked MR with an X chromosome abnormality, 3046
and fetal wastage in offspring of patients with Turner's syndrome, 1134
insertional translocation into X chromosome of a 46,XY male, 2192
mosaicism; undetected by prenatal study, 1817
nondisjunction of an unusual X chromosome, 2188
Wolf's syndrome (46,XX,del[4][pter→p15::p12→qter]9qh+), 1118
X chromosome inactivation; evolution, 318
X isochromosome-X syndrome [46 X,i(Xq)] vs. Turner's syndrome, 3089
X-linked etiology of MR, 2202
X-linked nonspecific MR, 3021
XXY and XYY syndromes and crime, 3058
X-Y interchange in XX male; possible evidence, 3078
XY variation and behavior, 1131
Y chromosome in criminals, 1125
Y-linked gene in XX males and XX true hermaphrodites, 328
YY syndrome in French security hospitals, 2197, 2198
47, XYY males; prevalence and personality characteristics study, 3056

Sex education
bibliography, 2525
counseling for adults with cerebral palsy, 3387
developmentally disabled adolescents, 627
exceptional children, 3311
MR, 1447

Sex ratio
altered in fetal alcohol syndrome, 150

Sheltered workshops
PMR and SMR, 2545
predicting productivity in, with Adaptive Behavior Scale, 2430
SMR, in Israel; group approach to improving behavior and productivity, 1561
SMR; operant conditioning for work habits, 3439
strengths and weaknesses, 2539
task analysis in prevocational training of SMR, 1564
vocational rehabilitation, 2539

Shock therapy, electric
autistic child; board of inquiry findings, 18
autistic children, 3425, 3427

Sickle cell anemia: *see* **Anemia, sickle cell**

Siemerling-Creutzfeldt disease: *see* **Cerebral sclerosis, diffuse**

Sign language
severely dysfunctional nonverbal autistic children, 1299

Silver-Russell syndrome: *see* **Russell-Silver syndrome**

Simian palmar crease: *see under* **Hand**

Skull
and brain malformations, and MR, 3103
transillumination in premature infants, 32

Sleep
prolonged apnea during, and sudden infant death, 2303

Sleep, REM
apnea, and cardiac slowing influenced by phenobarbital in newborn infant, 958
autistic and normal children, 3180

Smith-Lemli-Opitz syndrome: *see under* **Abnormalities, multiple**

Smoking
maternal; effects on size of newborn, 2801
maternal; fetal effects, 113, 2797, 2798, 2799, 2800, 2801
maternal; fetal effects and maternal weight gain, 92, 167
maternal; fetal malnutrition, 2106
maternal; pregnancy complications and perinatal mortality, 902
maternal; transitory thrombocytopenia in small-for-dates infants, 1233
risk factor in spontaneous abortion, 2802

Social adjustment
blacks referred to psychiatric hospital, 3480
deinstitutionalization, 1551
deinstitutionalized MRs, 3254, 3498
early childhood intervention with handicapped and nonhandicapped peers, 50
and employment status of MR special class graduates, 2475
exceptional children; sex education, 3311
and intellectual development in SMR, 3265
interpersonal competencies of MR; Piagetian perspective, 1382
mildly MR adults previously unidentified as MR, 1385
MR, 2418, 2434
MR in community; journal of daily activities, 539
normalized MR; characteristics associated with, 1679
pediatric screening examination for psychosocial problems, 547
post school, of MR, 3248
psychosexual, of MR, 1373
Social and Prevocational Information Battery, 601, 1376, 1401

Social behavior
assessment in handicapped children, 2535
developmentally disabled, 1364
social skill training for MR, 1553
teaching social responses to developmentally disabled, 2534

Social clubs
MR; People First, 1642

Social conditions
system of multicultural pluralistic assessment (SOMPA), 596

Social desirability
awareness of handicapping conditions by nonhandicapped preschool children, 1365

Social isolation
of family, and child abuse, 1716

Social planning
implications of research on effects of residential facilities on MR, 736

Social and Prevocational Information Battery: *see under* **Psychological tests**

Social problems
pediatric social illness, 1038

Social services: *see* **Social work**

Social work
fieldwork preparation of students for entrance into MR practice, 3531
handicapped; guide, 3459
for handicapped, through Title 20 of Social Security Act (Mississippi), 3460
improving self-image of MRs, 3386
multihandicapped adolescents; clinical group work, 1608
program impacts on deinstitutionalization, 721
role in genetic counseling, 856

Socialization
normalization and integration of MR, 2621
Progress Assessment Chart of Social and Personal Development, 1397

Socioeconomic factors
child development, 1286
cognitive development, 1286
in deaths of children, 59
in hyperkinesis/minimal brain dysfunction, 210
influence on adopted child's development, 1389
and intellectual function in children, 2407
learning disability diagnosis, 2419
low birth weight, 386
MR, 1831, 1834
MR in Warsaw, Poland, 756

Socioenvironmental therapy
behavior modification vs. feeling oriented therapy; emotionally and behaviorally disturbed children, 1546

Sodium valproate: *see* **Valerates**

Somatomedin
A in amniotic fluid, and fetal central nervous system damage, 267

cerebral gigantism, 2116

Somatostatin
studies in nesidioblastosis in infant hypoglycemia, 147

Somatotropin
deficiency in children; improved micellar dispersal of dietary lipid by bile acids during replacement therapy, 2101
deficiency in children; personality development, 1367
deficiency in congenital rubella, 1886
deficiency; etiology, 3009
deficiency; hypoglycemia during testing for, 289
deficiency and substitution; effect on blood volume and red cell parameters, 2949
dextroamphetamine and methylphenidate effects on secretion in hyperkinetic children, 206
and fasting plasma insulin levels in marasmic, kwashiorkor, and underweight children, 2948
metabolic response in cerebral dwarfism, 1065

Sorbitol
fatal infusion in patient with fructose intolerance, 2161
isosorbide in transient hydrocephalus, 350

Sotos syndrome: *see* **Gigantism**

Speech
of children with speech pathology; role of visual image and perception, 3225
maternal linguistic environment in normal and Down's syndrome children, 2399
perception; development, 1344
and reading relationships in children, 465
SMR; behavior therapy to reinstate, 2568

Speech disorders
in children; evaluation of, 3240
in children; neurologic and behavioral study of, 2410
Physicians' Developmental Quick Screen for Speech Disorders, 599
teaching techniques, 1408

Speech therapy, 3415
handicapped learners; pathologist's role, 1574

Sphingolipids
composition and catabolism in human fetal tissues, 3005

Sphingomyelins
/lecithin ratios; in amniotic fluid and cortisol, 3159
/lecithin ratio; fetal lung maturity, 2311
/lecithin ratio and foam stability test; fetal lung maturity, 2296
/lecithin ratio; hydrocortisone effects, 1255
/lecithin ratio; index of complications in pregnancy in diabetes, 1839
/lecithin ratio; respiratory distress syndrome, 405, 407, 421
/lecithin ratio; in tracheal aspirates, 66, 417
lipidosis; juvenile variant of Niemann-Pick disease, 264

Spina bifida (*see also* **Meningomyelocele**)
alpha-fetoprotein screening, 839, 2267
amniocentesis; relation to decreased incidence, 3096
amniotic fluid cell counts, 1188
and/or anencephaly in clomiphene-treated mothers, 2808
decision to treat; medical ethics, 1796
epidemiology, 353, 2260
false-negative screen, 1187
genetic counseling, 345
mass screening, 2261, 2266
midline hamartoma confused with meningomyelocele or teratoma, 1189
passive euthanasia; medical ethics, 2251, 2252, 2253
prenatal diagnosis, 813
risk to relatives of cases, 342
sequential fetus-fetus interaction, 341

Spinal puncture
in children with convulsions, 2180
meningitis, 2182
in transient hydrocephalus, 350

Spine
arteriovenous malformation with hereditary cutaneous hemangiomas, 2259
malformations and MR, 3105

Spleen
suppressor cells, in agammaglobulinemia, 1020

Splenectomy
toxoplasmosis after, in sickle cell anemia, 1935

Spondyloepiphyseal dysplasia: *see under* **Growth disorders**

Staphylococcal infections
in newborn infants; hexachlorophene, 2013

Stereotyped behavior: *see under* **Behavior**

Sterility, female
2 bromoergocryptine therapy; cervical incompetence and risk of premature delivery, 2024

Sterilization, sexual
MR; case study, 2721
MR; court case, 1616
MR; ethical issues and possible solutions, 2729

Steroid sulfatase deficiency: *see under* **Metabolism inborn errors**

Stickler syndrome: *see under* **Abnormalities, multiple**

Stillbirth: *see* **Fetal death**

Strabismus
accompanying cerebral motor dysfunction in childhood, 1052

Streptococcal infections
beta hemolytic group C in infant and horse, 971
glomerulonephritis after, in thalassemia, 190
group B; ampicillin and gentamicin, 937
group B beta-hemolytic streptococcal meningitis in infancy; sequelae, 1931
group B, early onset; respiratory distress syndrome, 936

group B; failure of penicillin to eradicate carrier state, 938
group B; hyaline membrane disease in newborn infants, 969
group B; in newborn infant, 1883, 2866
group B; in parturient women and their infants; antibiotic treatment, 2854
group B; possible breast milk transmission, 1981
group B; recurrence, 933, 934, 940, 1982
group B; relapse during penicillin treatment, 939
group C beta hemolytic; neonatal meningitis, 162
in newborn infants, 966

Streptomycin
Haemophilus meningitis, 2875

Stress, psychological
after genetic counseling; coping process, 857

Student Profile: *see under* **Educational measurement**

Sturge Weber syndrome: *see under* **Angiomatosis**

Subacute sclerosing panencephalitis, 77, 98
arabinofuranosyladenine, 1947
host blocking factor, 1925
infant, 1983
levodopa, 2857
and measles and measles vaccine, 989
measles virus IgM antibodies, 1917
measles-virus-specific immunoglobulin response, 1875
onset in infant under 1 year old 944

Sudden infant death
apnea home monitoring systems, 420
apnea in premature infant, 2304
prolonged apnea during sleep, 2303

Suicide, attempted
in adolescence; minimal brain dysfunction, 2084

Sulfatases
placental deficiency; prenatal diagnosis, 2978

Sulfisoxazole
effect on bilirubin binding in hyperbilirubinemic infants, 1008
Haemophilus meningitis, 2875

Superoxide dismutase
deficiency in erythrocytes in Fanconi's anemia, 2896
red cell enzyme levels in premature infants and respiratory distress syndrome, 2315

Supplemental Security Income Program: *see under* **Deinstitutionalization**

Surgery
hypoglycemia in children undergoing 283
for cryptorchism; chorionic gonadotropin test before, 2271
hypothyroidism, 280
parathyroidectomy for maternal primary hyperparathyroidism of pregnancy, 3002
pediatric; U.S. survey, 2723
thyrotoxicosis, 81

Sweaty feet syndrome: *see under* **Amino acid metabolism, inborn errors**

Swimming
benefits for handicapped, 1706
competitive activities for special groups, 1703
instruction for the handicapped, 1571, 1702, 1707, 1708, 1709
instruction for the handicapped; facilities and equipment, 1710
instruction for the handicapped; movement exploration approach, 1572
instruction for the handicapped; program personnel and training procedures, 1733
mainstreaming handicapped in community and school programs, 1711
programs for the handicapped to reinforce classroom learning, 1425
respiratory emergencies and artificial respiration, 1570
techniques and programs for handicapped, 1705

Sydney palmar crease: *see under* **Hand**

Sympathomimetics
beta 2, as temporizing measure in treatment of acute fetal distress, 3156

Synaptosomes
cerebral; fatty acid composition of lipids in, in phenylketonuria and Down's syndrome, 3027

Syndactylia
type II, 2236

Syndrome (*see also* specific syndromes)
classification, 2276
nomenclature systems, 1797

Syphilis, congenital
monocytosis, 963

Syringomyelia
associated with myotonic dystrophy and 2/13 translocation in one family, 3049

System of Multicultural Pluralistic Assessment, 2437

Systemic lupus erythematosus: *see* **Lupus erythematosus, systemic**

Tachycardia
ventricular, in newborn infant; mepivacaine toxicity, 165

Tay-Sachs disease: *see* **Amaurotic familial idiocy**

Teachers: see under **Education of mentally retarded; Teaching**

Teaching
associates for severely handicapped, 1470
Bureau of Education for the Handicapped personnel preparation programs for teachers of emotionally disturbed; review, 1737
coin summation to MR adolescents, 2448

community based professionals and paraprofessionals for MR, 3539
community skills to MR adolescents, 3385
consistency of staff in an MR institution, 1535
curriculum for MRs, 1436
disabled children in the regular classroom; special education techniques, 1417
dressing skills to blind multihandicapped child, 2467
handicapped; education program for teachers, 641, 644
handicapped; federal programs for training educators, 1613
handicapped, in least restrictive environment; teachers' manual, 3368
handicapped; mainstreaming strategies, 633
handicapped teacher training, 2463, 2468
human genetics, in medical schools and hospitals, 1532
institutionalized adult with learning disorders; handbook, 2357
itinerant, for handicapped, 2478
language to MR children, 1512
learning-disabled; handbook, 1482
methods in affective disturbances, 2527
Mildly Handicapped Program teacher training model, 1469
model for adapting instructional approaches, 1475
money skills; number line, 1496
motivation for learning-disabled children, 1514
MR; handbook for home economics teachers, 1424
multiplication to MR; motoric approach, 1464
perceptually handicapped children; guidebook, 1511
personnel dealing with MR to provide in-service program, 3537
personnel for handicapped; training consortium of institutions preparing, 1407
PMR and SMR; special techniques, 2497
preparatory training for special educators, 3299
preparing student teachers for mainstreaming, 3326
preparing teachers of MR, 1451
prevocational and language skills to autistic children, 3256
psychologist as change agent in providing in-service training to staff members serving school-aged SMRs, 3545
pupils with reading disorders; teacher-pupil interactions during oral reading, 2361
reading to SMR; basic prerequisites, 1528
role of the teacher in medication for hyperkinesis, 1583
school personnel needs assessment study, 3534
signs to deaf-blind; task analysis, 1497
SMR and PMR; teacher training, 3303
SMR reading skills, 1456
SMR; saw chain assembly, 3441
special child in regular classroom, 3372
supervising teachers of mainstreamed children, 1472
swimming to the handicapped, 1571, 1702, 1705, 1706, 1707, 1708, 1709
swimming to the handicapped; facilities and equipment, 1710
swimming to the handicapped; movement exploration approach, 1572
swimming to the handicapped; personnel training procedures, 1733
teacher certification trends, 770
Teacher Intern Performance Rating System, 1449
teacher reactions to EMR label, 1735
teachers of severely handicapped; identifying competencies, 1529
teachers of TMR; surveying competencies, 1471
training habilitators of MR, 3540
training program for learning disorders, 2356
use of timers to manage student behavior, 1513
utilizing children's questions in, 1485

Teaching materials, 1520
educational measurement methods, 1429

Technetium
99m pertechnetate scans in congenital hypothyroidism, 292

Technology, medical (*see also* specific techniques)
apnea home monitoring systems, 420
brain scanning; electromagnetic interference (EMI) vs. isotope scintigraphy, 27
cardiac pacing in bacterial meningitis with atrioventricular block and fibrillation, 157
device for reducing insensible water loss in premature infant, 1225
fetal heart rate monitoring in the ambulant patient, 891
fontogram; noninvasive intracranial pressure monitor, 1843
intracranial pressure assessment in newborn infant, 832
MR prevention, 793
pericardial catheter and drainage system in pneumopericardium, 443
peroxidase technique for detection of photochemical lesions in DNA, 2894
Scribner shunt for exchange transfusions in Reye's syndrome, 219
sonographically directed placental aspiration, 2739
timer for calculating postnatal age in hours, 1841

Television
as diagnostic tool for developmental disabilities; Project TELSTAR, 3271
facilitating instruction of the MR, 3312
Sesame Street, for MR; 2538, 3335, 3336
viewing habits of MR children, 1332

Teratogens
alcohol, 1867
anticonvulsants, 1897
antiepilepsy drugs in mice, 3016
hydantoins, 1985, 1986
influenza and rubella virus vaccines, 1878
oral anticoagulants, 3113
radiography; the 10-day rule, 80
penicillamine, 2877
D-penicillamine, 99
vinyl chloride, 929
warfarin; asplenia syndrome after fetal exposure, 1943

Territoriality
SMR; behavior therapy, 2573
stability in PMR institutionalized male adults, 3247

Tetracyclines
toxoplasmosis, 956

Thalassemia, 192
acute post-streptococcal glomerulonephritis, 190
alpha; associated with neonatal normoblastemia, 1007
alpha chain; Taiwan, 2889
alpha; prenatal diagnosis, 176
beta; iatrogenic, 2025
beta; nitroblue tetrazolium test, 2051
beta; prenatal diagnosis, 194, 820, 881, 1018
iron loadings; deferoxamine, 2989
major; defects of neutrophil chemotaxis and random migration, 1100
prenatal diagnosis; abortion issue among blacks, 2891
screening, 2050, 2139, 3006
sickle-cell beta; hand-foot syndrome, 2039

Thalidomide
congenital malformations and subsequent osteosarcoma, 930
embryopathy, limb development, and neural crest, 146
genital abnormalities in girls, 111

Thanatophoric dwarfism: *see under* **Dwarfism**

Theophylline
apnea in infant, 389, 415, 416, 1595
exchange transfusion effect on elimination of, in premature infants, 2284

Thioridazine
hyperkinesis, 659

Thrombopenia
transitory, in small-for-dates infants of smoking mothers, 1233

Thymidine kinase
and thymidylate synthetase for restorative growth, 2953

Thymidylate synthetase: *see under* **Methyltransferases**

Thymus gland
atrophy in protein-energy malnutrition associated with zinc deficiency, 2955

Thyroid diseases (*see also* **specific diseases**)
and congenital rubella, 107

Thyroid gland
abnormalities in children with Turner's syndrome, 2204
function in Down's syndrome, 315
function in neonatal hypothyroidism, 240
function in premature infant, 2292
function in premature infants recovering from respiratory distress syndrome, 2300
screening tests for neonatal hypothyroidism evaluated, 265

Thyroid hormones (*see also* **specific hormones**)
levels in protein-calorie malnutrition, 230
mass screening for deficiency in newborn infants, 1863

Thyroiditis
autoimmune, and Down's syndrome, 1171
juvenile lymphocytic, and hyperthyroidism; pathologic and immune factors, 950
rubella virus antigen identification in thyroid of child with congenital rubella, 907

Thyrotoxicosis: *see* **Hyperthyroidism**

Thyrotropin
estimates in suspected cases of neonatal hypothyroidism, 2127
serum determination on day 5 of life in congenital hypothyroidism, 2128

Thyrotropin releasing hormone
lack of effect in minimal brain dysfunction, 2079

Thyroxine
assay in neonatal hypothyroidism, 2127
serum concentrations inversely related to blood lead levels, 975

Tinidazole
amebic liver abscess, 2019

Toilet training
behavior therapy, 1576, 3437
PMR; behavior therapy, 2584
SMR and PMR; behavior therapy, 2576, 2585, 2586

Tolazoline
neonatal hypoxia and pulmonary vasospasm, 440

Tomography, computerized axial, 833, 834
in childhood convulsions, 301
in clinical pediatrics, 826, 836
diagnosis of hydrocephalus after ventricular hemorrhage in newborn infant, 2748
diagnosis of intracranial hemorrhage in infant, 835
diagnosis of post-hemorrhagic ventricular dilatation in neonates, 2908
head injury in children, 2909
in neurologic disorders of children, 815
in newborn infants, 1809

Total Milieu Approach Infant Program, 2757

Total parenteral nutrition: *see* **Parenteral feeding**

Toxic encephalopathy: *see under* **Brain diseases**

Toxoplasma
gondii; cellular immunity during pregnancy, 1876

Toxoplasmosis
after splenectomy in sickle cell anemia, 1935
chromosome abnormalities, 326
chronic lymphoglandular enlargement in children, 2018
tetracyclines, 956

Toxoplasmosis, congenital
symptomatic and subclinical; auditory and visual defects, 2834
in twins; absence of infection in one twin, 943

Trace elements
in supplement to low-phenylalanine diet in phenylketonuria, 2151

Trachea
aspiration; lecithin/sphingomyelin ratio, 417
aspiration; meconium-stained newborn infants, 432
extubation of newborn infant, 1250

Tranquilizing agents
toxic effects in MR, 1582

Transactional analysis
hyperkinesis, 667

Transillumination
pneumothorax and pneumomediastinum in respiratory distress syndrome, 1260

Transketolase
erythrocyte activity in Leigh's disease, 220

Translocation (genetics)
familial, with partial trisomy of 13 and 22, 3061
with microcephaly and MR, 3064
parental, of No. 14 chromosome, and partial trisomy 14Q, 3063

Transverse myelitis: *see under* **Muscular diseases**

TRH: *see* **Thyrotropin releasing hormone**

Tricho-rhino-phalangeal syndrome: *see under* **Abnormalities, multiple**

Triglycerides
storage disease; lipolysis activation defect in adipose tissue, 1082

Triiodothyronine
postnatal concentrations in healthy preterm infants and infants with respiratory distress syndrome, 2301
reverse, in screening for hypothyroidism, 271, 281

Trimethadione
fetal trimethadione syndrome, 1898

Trimethoprim
sulfamethoxazole (Bactrim) in *Pseudomonas cepacia* meningitis, 1956

Triplets
Down's syndrome in one triplet, 1161

Trisomy, 20, 316, 319
in aborted fetus; 3 chromosome translocation involving homologous chromosomes, 3048
cluster, in New York, 1170, 2222
distal end of short arm of No. 3, 3074
D mosaicism; prenatal diagnosis, 807
double autosomal; case report (48,XX,+18,+21), 3044
double, 48,XXY,+13, 1147, 3085
double, 48,XXY,+13 in liveborn infant, 3085
epidemiology, 2207
long arm of No. 4, associated with multiple congenital defects, 2209
partial, of chromosome 15, 1156
partial, long arm of chromosome 7, 3039
partial, long arm of chromosome 9, 2220
partial, short arm of chromosome 3, 1139
partial 13 and 22, 3061
partial 14Q, and parental translocation of chromosome No. 14, 3063
partial 15 (47,XX,+15), 3088
partial 22, 1175
X; prenatal diagnosis, 3067
2p; partial trisomy syndrome, 2201
7q, 1149
8; dermatoglyphics, 1176
8q; probable case, 1153
8, restricted to cultured fibroblasts, 2221
9, 2189
9; mosaicism, 1159
9, partial; resemblance to Coffin-Siris syndrome, 2219
9p syndrome and XYY syndrome in siblings, 1151
9pter→9q22, 1150
18, with type 2 Arnold-Chiari deformity with normal spine, 3069
20; determining fetal mosaicism, 324
20; probable case, 3041
22; variant forms, 3071

Trisomy 21: *see* **Down's syndrome**

Tuberculosis
congenital, and *Escherichia coli* meningitis in infant, 2862

Tuberculosis, meningeal
herpes simplex; false-positive immunofluorescence test, 117

Tuberous sclerosis
chemical analysis of an angiofibroma from a patient with, 3108
genetics, 2942

Turner's syndrome
amniotic fluid alpha fetoprotein levels, 317, 334, 844, 2203, 2206
androgen and estrogen therapy, 1162
with anorexia nervosa, 321, 3057
with dysgerminoma; cytogenetic studies, 1168
fertility in woman with, 1136
fetal wastage and chromosome anomalies in offspring of patients with, 1134
intelligence, 3238
oxandrolone therapy, 1165
oxandrolone therapy; effect of prolonged administration on growth, 1133
prepubertal XY gonadal dysgenesis, 1124
reticular carpal bone pattern, 323
risk of 45,X karyotype in offspring, 2223
spatial and temporal processing, 3055
stigmata in male infant with 45,X/46,XY mosaicism, 1144
thyroid abnormalities in children, 2204
45,X ovarian karyotype in ovulating patient, 2218
45,XO/46,XX mosaicism demonstrated only in streak gonad, 2224

Twins
absence of congenital toxoplasmosis in one twin, 943
amniotic fluid alpha fetoprotein levels, 1818, 1851
dizygotic; infantile autism, 3196
monozygotic; brain damage in survivor after *in utero* death of one, 2080

monozygotic, and siblings; birth weight and intelligence, 3135
monozygotic, with transfusion syndrome; estimating IQ resemblance and heritability, 3234
pre-eclampsia/eclampsia in pregnancy, 1980
preventing premature birth, 889
respiratory distress syndrome and tracheal phospholipid composition, 2325
and siblings; concordance for school-age mental development, 3236

Tyrosine
levels in low-birth-weight infants; milk protein intake effects, 1223

Tyrosinemia: *see under* **Amino acid metabolism, inborn errors**

Ultrasonics
as aid to intrauterine transfusion, 1027
and diagnostic radiography in pregnancy, 928
during amniocentesis, 814
Ellis-Van Creveld syndrome, 2262
fetal breathing movements; 1- and 2-dimensional system for monitoring, 60
fetal breathing movements; quantified analysis, 46
fetal monitoring, 44, 71, 880
possible mutagenic effects in mammalian DNA, 109
prenatal care, 1862

Ultrasound: *see* **Ultrasonics**

Ultraviolet rays
sensitivity in Cockayne syndrome, 1197

Umbilical cord
dried; determination of environmental pollutant levels, 91

Umbilical hernia
amniotic fluid alpha fetoprotein, 352
infected; mercury poisoning from mercurochrome therapy, 2814
and respiratory distress syndrome in low-birth-weight infant, 2289

United States National Institutes of Health
MR research appropriations, 804

Universities
MR research and training programs, 1778
right-to-education-for-handicapped doctrine, 1433

Urea
cycle intermediates for treatment of Reye's syndrome; potential hazard, 1995

Uric acid
hyperuricosuria in early infantile autism, 557
pathogenesis of hyperuricemia in glycogen storage disease, type I, 2959

Urine
excretion of phenobarbital in newborn infant with withdrawal syndrome, 923
maternal; distinguished from amniotic fluid in amniocentesis, 30, 879, 1810
solute excretion in low-birth-weight infant, 1216
ultrastructure; angiokeratoma corporis diffusum, 1135

Urogenital system
abnormalities in boys, and diethylstilbestrol, 133

Urology
myelomeningocele surveillance guidelines of American Academy of Pediatrics, 340

Vaccination
compensation for MR children damaged by, 917
diphtheria-pertussis-tetanus; chronic brain damage, 2885
measles, 952
measles; current recommendations, 970
measles encephalitis in immunized child, 166
measles epidemic in highly vaccinated population, 145
measles; failure in infant immunized at 12 months, 951
rubella; follow-up serological screening, 961
rubella; parity of women contracting rubella during pregnancy, 116
rubella-susceptible women applying for oral contraceptive care, 906
rubella, while taking oral contraceptives, 953
whooping cough; chronic brain damage, 2886

Vaccines
BCG, and protein-calorie malnutrition, 232
handicapped "victims"; government compensation, 1759
live influenza and rubella virus; teratogenicity, 1878
meningococcal polysaccharide, group A; efficacy in children, 1998
meningococcal polysaccharide, groups A and C; antibody persistence after immunization, 1934
meningococcal polysaccharide, groups A and C; efficacy, 1999
meningococcal polysaccharide, groups A and C; public health recommendations, 1950
meningococcal, in pregnancy; maternal and infant antibody response, 1997
Takahashi varicella virus, 1964
type b capsular vaccine for *Haemophilus influenzae* in children, 1940

Vaccines, attenuated
live influenza recombinants, 2859

VACTERL syndrome: *see under* **Abnormalities, drug-induced**

Vagotomy
effect on fetal breathing *in utero*, 2307

Valerates
dipropyl acetate; intractable status epilepticus, 2177

Varicella hepatitis: *see* **Chickenpox**

Varicella-zoster virus, 1879
antibody in parturient women, 124
chemotherapy, 104
congenital infection; long-term survivor case report, 996
and herpesvirus hominis, 112
Takahashi varicella vaccine, 1964

Vascular diseases
moyamoya disease in child with Down's syndrome, acute hemiplegia and cortical blindness, 3037

Vasopressin
inappropriate secretion and diabetes insipidus in asphyxia neonatorum, 2319
inappropriate secretion in newborn infant, subsequent to pneumothorax or atelectasis, 2322

Venereal diseases
surveillance of sexually active adolescent girls; neonatal infection risk, 2010

Vestibular apparatus
stimulation effects on behavior of autistic and MR children, 3260

Vestibular disorders: *see under* **Labyrinth diseases**

Vidarabine: *see* **Arabinofuranosyladenine**

Vinyl chloride: *see under* **Vinyl compounds**

Vinyl compounds
vinyl chloride; fetal death, 119, 120
vinyl chloride; teratogenicity, 929

Virus diseases (*see also* specific diseases)
cross-infections in children's wards, 87
febrile convulsions, 2181
islet cell dysfunction, 2881
ketoacidosis and Reye's syndrome, 132
laboratory diagnosis, 73, 173
leukocyte-associated viremia and adenovirus type 2 with lower respiratory tract disease, 2872

Viruses (*see also* specific viruses)
isolation, antibody, and immunologic studies in early infantile autism, 553
possible involvement in childhood autism, 568

Vision
assessment in MR, 1288
basic processes in learning disorders, 2377
discrimination skills; training SMR, 646

Visual perception
autism, 3197
disorders; teaching techniques, 1409, 1410
EMR; effects of training on visual perception, reading and language skills and intelligence, 1477
Motor-Free Visual Perception test, 1283
and representations; in speech development of children with speech pathology, 3225
training program for learning-disabled, 2515

Visual reinforcement audiometry: *see under* **Audiometry**

Vitamin A
and carotene values of institutionalized MR with and without Down's syndrome, 1154
hypervitaminosis from orthomolecular therapy, 2076

Vitamin B_6: *see* **Pyridoxine**

Vitamin C: *see* **Ascorbic acid**

Vitamin D
pseudohypoparathyroidism, 2165

Vitamin E
dosage and iron interaction in premature infant, 396
possible role in long-term management of abetalipoproteinemia, 3007

Vitamin E deficiency
in low-birth-weight infant, 2291

Vitamin K
prophylaxis, for hemorrhagic disease of newborn, 1005

Vitamin K deficiency
transient, in newborn infants; vitamin K administration, 1005

Vitamins (*see also* specific vitamins)
levels in low-birth-weight newborn infants and their mothers, 3139

Vocational education (*see also* **Education of mentally retarded; Education, special; Rehabilitation, vocational**)
developmentally disabled adolescent, 649
disadvantaged and handicapped; needs assessment, 3397
EMR; bibliography, 2544
EMR; Project PRICE, 2548
exceptional children, 3396
federal commitments to handicapped, 3465
handicapped, 3399, 3401, 3403
learning disabled; secondary school intervention program, 3349
mainstreaming, 2510
mainstreaming handicapped in California secondary schools, 2500
modifying regular programs in Wisconsin to include handicapped students, 3404
MR, 2541, 3391, 3392, 3393, 3394, 3395, 3402
MR; materials and resources, 3390
MR; skills approach, 1565
MR; work-study curriculum, 1465
and placement personnel for TMR; special education, 2509
skill training of SMR, 646
teacher competencies needed to develop occupational learning programs for EMR, 2550
TMR; prevocational training units, 2522
TMR; vocational language project for secondary school, 2547

Vocational guidance
EMR; Reading-Free Vocational Interest Inventory, 1492
EMR and SMR, 1560

MR work sample evaluation as predictor of vocational behavior, 1562
vocational behavior checklists, 1556

Vocational Rehabilitation Act of 1973: *see under* **Legislation**

Voluntary health agencies
AAMD, CEC, and Joseph P. Kennedy, Jr. Foundation, 1770
National Association for Retarded Children, 1769

Voluntary workers
utilizing MR as; deinstitutionalization strategy, 1557

Vomiting
Jamaican vomiting sickness; fatty acid metabolism of brain capillaries and cerebral edema, 144
Jamaican vomiting sickness; and Reye's syndrome, 2820
and rumination; aversive conditioning, 2580

Warfarin
asplenia syndrome after fetal exposure, 1943
MR and multiple abnormalities, 153, 154
as teratogen, 128

Wechsler Adult Intelligence Scale: *see under* **Intelligence tests**

Werdnig-Hoffman disease: *see under* **Muscular atrophy**

Whooping cough
pertussis vaccine; chronic brain damage, 2886

Williams syndrome: *see under* **Abnormalities, multiple**

Willowbrook: *see under* **Residential facilities**

Wilms' tumor: *see* **Nephroblastoma**

Wilson's disease: *see* **Hepatolenticular degeneration**

Withdrawal symptoms: *see* **Drug withdrawal symptoms**

Wolf-Hirschhorn syndrome: *see under* **Chromosome abnormalities**

Wolf's syndrome: *see under* **Sex chromosome abnormalities**

Women's rights
sex role stereotyping; EMR work-study programs, 1421

Writing
disabilities; in Austria, 1317
disabilities; in Finland, 1322

Xanthinuria: *see under* **Purine-pyrimidine metabolism, inborn errors**

Xeroderma pigmentosum
DNA repair processes and pathological aging of nervous system, 344

X-linked copper malabsorption: *see* **Kinky hair syndrome**

X-linked disorders: *see* **Sex chromosome disorders; specific diseases**

X-ray, diagnostic: *see* **Radiography**

XYY males: *see under* **Sex chromosome abnormalities**

Yellow hyaline membranes: *see under* **Kernicterus**

Zinc
absorption and retention in low-birth-weight infant fed breast milk, 2283
deficiency; possible cause of thymic atrophy associated with protein-energy malnutrition, 2955
possible role in mannosidosis, 2981
serum levels in early infantile autism, 548

*U.S. GOVERNMENT PRINTING OFFICE: 1978 281-683/4011 1-3

57 14 00
